

## Ventilated Aluminum Party Marquee Tent Mesh Sidewalls for Spanish Mediterranean Outdoor Events Dining

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, CE Marking
- Model Number: TD-PMT-VT01
- Minimum Order Quantity: 1 Set
- Price: USD 800-2400 / Set
- Packaging Details: Export-grade carton with PE foam, frame in bubble wrap, PVC and mesh panels in separate protective bags
- Delivery Time: 15-25 working days production, 25-30 days sea freight to Barcelona/Valencia
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 500 Sets per Month

### Product Specification

- Frame Material: 6061-T6 Aluminum Anti-Corrosion Coated
- Roof Cover: 850g/m<sup>2</sup> PVC With Ventilation Vents
- Sidewall: Removable Mesh + Solid PVC Modular System
- Airflow System: Dual-Level Roof Vents + Cross Breeze
- Insect Protection: Fine Mesh Panels Included
- Wind Resistance: Up To 90 Km/h
- Warranty: 5 Years Frame / 3 Years PVC
- Target Market: Spain Mediterranean Events
- Highlight: **ventilated aluminum party marquee tent, marquee tent with mesh sidewalls, spanish mediterranean outdoor dining tent**

## Product Description

Engineered for the Spanish Market — TUV Certified, 5-Year Warranty, Premium Quality

## Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Aluminum Alloy, Anti-Corrosion Powder Coated
Roof Cover	850g/m <sup>2</sup> PVC with Integrated Ventilation Vents
Sidewall Design	Removable Mesh Panels + Solid PVC with Cross-Ventilation Windows
Airflow System	Dual-Level Ventilation: Roof Vents + Side Mesh for Natural Cross Breeze
Insect Protection	Fine Mesh Side Panels Block Insects While Allowing Airflow
Wind Resistance	Up to 90 km/h with Full Anchoring System
Certification	TUV SUD, ISO 9001:2015, CE Marking
Warranty	5 Years Frame / 3 Years PVC Cover

## Product Advantages & Selling Points

### Advanced Ventilation System

Dual-level airflow design with roof vents and removable mesh side panels creates natural cross-breeze circulation — essential for comfortable Spanish outdoor dining and social events.

### Insect-Proof Mesh Panels

Fine-grade removable mesh sidewalls keep mosquitoes and insects out while allowing maximum airflow — perfect for Spanish evening events, countryside weddings, and summer fiestas.

### Mediterranean Lifestyle Ready

Designed for the Spanish outdoor living culture — ideal for restaurant terraces, beach clubs, garden parties, and al fresco dining venues across Spain.

### Modular Sidewall Configuration

Easily switch between full PVC walls for privacy, mesh panels for ventilation, or completely open sides — adapts to changing Spanish weather from morning to night.

### UV-Blocking Roof Design

850g/m<sup>2</sup> PVC roof with built-in UV protection keeps the interior cool while roof vents release trapped hot air — proven in Spanish summer conditions.

### Corrosion-Resistant Frame

Special anti-corrosion powder coating on the aluminum frame withstands humid Mediterranean coastal conditions — trusted for long-term outdoor installation.

## Production Process

#### Step 1

Raw Material Inspection

#### Step 2

CNC Precision Cutting

#### Step 3

Aluminum Welding & Assembly

#### Step 4

PVC Fabric Cutting & Welding

## Step 5

Quality Inspection & Packing

### ⚙️ Advanced CNC Manufacturing Facility

Our state-of-the-art production facility is equipped with precision CNC machinery to ensure every component meets the highest standards:

<b>CNC Cutting Machines</b>	High-precision CNC aluminum profile cutting with $\pm 0.1$ mm tolerance
<b>CNC Bending Machines</b>	Automatic CNC tube and profile bending for consistent frame geometry
<b>CNC Drilling &amp; Tapping</b>	Multi-axis CNC drilling centers for precise hole positioning
<b>High-Frequency PVC Welding</b>	Industrial-grade PVC fabric welding machines for waterproof seams
<b>Automated Powder Coating Line</b>	Full automated coating line for durable, corrosion-resistant finish

### 5-Year Quality Warranty

All our party marquee tents come with a comprehensive 5-year warranty on the aluminum frame structure and a 3-year warranty on PVC fabric covers. We stand behind every product we manufacture.

### 10+ Years Industry Experience

Established in 2015, Tendars Tent Limited has over a decade of expertise in designing, manufacturing, and exporting high-quality tent solutions to over 50 countries worldwide.

### TUV Certification & Test Reports

Certification / Test	Standard	Description
<b>TUV SUD Certification</b>	EN 13782 / DIN 4112	Full structural safety certification for temporary structures — recognized across EU including Spain
<b>Wind Load Test Report</b>	EN 1991-1-4 (Eurocode 1)	Verified wind resistance up to 100 km/h — suitable for Spanish coastal and inland conditions

<b>PVC Fabric Fire Rating</b>	DIN 4102 B1 / M2 (Spanish Norm)	Flame retardant PVC fabric meeting EU and Spanish fire safety standards for public events
<b>UV Resistance Test</b>	ISO 4892 / ASTM G154	Extended UV aging test — verified for intense Spanish summer sun exposure without degradation
<b>ISO 9001:2015</b>	Quality Management	Certified quality management system covering design, production, and after-sales service
<b>CE Marking</b>	EU Regulation	Full CE compliance for free circulation in the EU and Spanish market

## Pre-Sale & After-Sale Service

### Pre-Sale Services

Free 3D design & layout consultation

Custom size, color & branding options

Engineering calculation & wind load reports

Sample available for quality evaluation

Professional quotation within 24 hours (English / Spanish)

### After-Sale Services

5-year structural frame warranty

Installation video guide & manual (EN/ES)

Spare parts dispatched within 7 days

Online/on-site technical support

24/7 customer service response

## Factory & Company Strength

**5,000+ m<sup>2</sup>**

Production Facility

**50+ Skilled Workers**

Experienced Team

**50+ Countries**

Global Export Reach

**500+ Sets/Month**

Production Capacity

## Frequently Asked Questions (FAQ)

### Q1: How effective is the ventilation system for Spanish summer heat?

A: Our dual-level ventilation system combines roof vents that release rising hot air with removable mesh side panels that allow natural cross-breeze at guest level. This design can reduce interior temperature by 5-8°C compared to fully enclosed tents, making a significant difference during Spanish summer afternoons reaching 35-40°C.

### Q2: Are the mesh panels removable for winter use?

A: Yes, all mesh panels are fully removable via a zipper and velcro attachment system. You can replace them with solid PVC sidewalls for cooler months or evening events, giving you year-round versatility.

### Q3: Is this tent suitable for Spanish restaurant terraces?

A: Absolutely. This is one of our most popular configurations for Spanish restaurant and bar terraces. The ventilation design keeps diners comfortable, the insect mesh protects food areas, and the modular walls allow you to enclose the space during cooler evenings or unexpected rain.

### Q4: How does the frame hold up near the Spanish coast?

A: Our 6061-T6 aluminum frame with anti-corrosion powder coating is specifically designed for coastal environments. It resists the corrosive effects of salt air common in Mediterranean locations like Costa Brava, Costa Blanca, and the Balearic Islands.

### Q5: Can I get different sidewall configurations in one order?

A: Yes, we offer modular sidewall packages. You can order a combination of solid PVC walls, mesh panels, and clear window walls to create the perfect configuration for your specific Spanish venue requirements.
