

All-Weather Waterproof Aluminum Party Marquee Tent PVC Cover for Belgian Outdoor Events Rental Market

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, CE Marking, Belgian M1 Fire Rated NBN S21-203
- Model Number: TD-PMT-AW01
- Minimum Order Quantity: 1 Set
- Price: USD 800-2500 / Set
- Packaging Details: Heavy-duty export-grade carton with PE foam protection, aluminum frame wrapped in bubble film, PVC cover folded in waterproof bag
- Delivery Time: 15-25 working days production, 25-30 days sea freight to Antwerp
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: 6061-T6 Aluminum Anti-Corrosion Coated
- Roof Cover: 850g/m² Double-Coated PVC Anti-Mildew
- Sidewall: 650g/m² PVC With Panoramic Windows
- Waterproof Rating: >2000mm ISO 811
- Wind Resistance: Up To 100 Km/h
- Fire Rating: DIN 4102 B1 / Belgian M1
- Warranty: 5 Years Frame / 3 Years PVC
- Target Market: Belgium All-Weather Events
- Highlight: **waterproof aluminum party marquee tent, PVC cover party tent, Belgian outdoor event marquee**

Product Description

Engineered for Belgium's Rainy Climate — TUV Certified, M1 Fire Rated, 5-Year Warranty

Technical Specifications

| Parameter | Specification |
|-------------------|--|
| Frame Material | 6061-T6 Aluminum Alloy, Anti-Corrosion Powder Coated |
| Roof Cover | 850g/m ² Double-Coated PVC Fabric, 100% Waterproof with Anti-Mildew Treatment |
| Sidewall | 650g/m ² PVC with Transparent Panoramic Windows |
| Waterproof Rating | Hydrostatic Pressure > 2000mm (ISO 811 Certified) |
| Wind Resistance | Up to 100 km/h (EN 1991-1-4 Eurocode Verified) |
| Fire Rating | DIN 4102 B1 / Belgian M1 (NBN S21-203) |
| Connectors | Hot-Dip Galvanized Steel, Anti-Rust Treated |
| Certification | TUV SUD, ISO 9001:2015, CE, Belgian M1 Fire Rated |
| Warranty | 5 Years Frame / 3 Years PVC Cover |

Product Advantages & Selling Points

Belgian Rain-Ready Design

Engineered for Belgium's famously rainy climate — 200+ rainy days per year. High-frequency welded PVC seams and anti-mildew treatment ensure zero leakage and long-term durability in damp conditions.

2000mm+ Waterproof Rating

ISO 811 certified hydrostatic pressure resistance exceeds 2000mm — proven performance during prolonged Belgian downpours, from Flanders to the Ardennes.

Corrosion-Resistant Aluminum

6061-T6 aluminum frame with specialized powder coating resists the humid Belgian climate — no rust, no degradation, year after year of outdoor use.

Belgian M1 Fire Certified

Full compliance with Belgian fire safety norm NBN S21-203 (M1 rating) — essential for public event permits in Brussels, Antwerp, Ghent, and across Belgium.

Custom Configuration

Modular sidewall system allows enclosed, semi-open, or fully open configurations — adapts seamlessly to Belgium's unpredictable weather shifts during a single event.

Belgian Municipality Compliant

Pre-approved technical documentation package simplifies permit applications for Belgian gemeente/commune authorities across all three regions.

Production Process

Step 1

Raw Material Inspection

Step 2

CNC Precision Cutting

Step 3

Aluminum Welding & Assembly

Step 4

PVC Fabric Cutting & Welding

Step 5

Quality Inspection & Packing

⚙️ Advanced CNC Manufacturing Facility

Our state-of-the-art production facility is equipped with precision CNC machinery to ensure every component meets the highest standards:

| | |
|--------------------------------------|---|
| CNC Cutting Machines | High-precision CNC aluminum profile cutting with ± 0.1 mm tolerance |
| CNC Bending Machines | Automatic CNC tube and profile bending for consistent frame geometry |
| CNC Drilling & Tapping | Multi-axis CNC drilling centers for precise hole positioning |
| High-Frequency PVC Welding | Industrial-grade PVC fabric welding machines for waterproof seams |
| Automated Powder Coating Line | Full automated coating line for durable, corrosion-resistant finish |

5-Year Quality Warranty

All our party marquee tents come with a comprehensive 5-year warranty on the aluminum frame structure and a 3-year warranty on PVC fabric covers. We stand behind every product we manufacture.

10+ Years Industry Experience

Established in 2015, Tendars Tent Limited has over a decade of expertise in designing, manufacturing, and exporting high-quality tent solutions to over 50 countries worldwide.

TUV Certification & Test Reports

| Certification / Test | Standard | Description |
|-------------------------------|---|--|
| TUV SUD Certification | EN 13782 / DIN 4112 | Full structural safety certification for temporary structures — recognized across EU including Belgium |
| Wind Load Test Report | EN 1991-1-4 (Eurocode 1) | Verified wind resistance up to 100 km/h — suitable for Belgian coastal and inland conditions |
| PVC Fabric Fire Rating | DIN 4102 B1 / M1 (Belgian Norm NBN S21-203) | Flame retardant PVC fabric meeting EU and Belgian fire safety standards for public events |

| | | |
|------------------------|--------------------|--|
| Waterproof Test | ISO 811 / EN 20811 | Hydrostatic pressure resistance > 2000mm — fully waterproof for Belgian rainy climate |
| ISO 9001:2015 | Quality Management | Certified quality management system covering design, production, and after-sales service |
| CE Marking | EU Regulation | Full CE compliance for free circulation in the EU and Belgian market |

Pre-Sale & After-Sale Service

Pre-Sale Services

Free 3D design & layout consultation

Custom size, color & branding options

Engineering calculation & wind load reports

Sample available for quality evaluation

Professional quotation within 24 hours (English / French / Dutch)

After-Sale Services

5-year structural frame warranty

Installation video guide & manual (EN/FR/NL)

Spare parts dispatched within 7 days

Online/on-site technical support

24/7 customer service response

Factory & Company Strength

5,000+ m²

Production Facility

50+ Skilled Workers

Experienced Team

50+ Countries

Global Export Reach

500+ Sets/Month

Production Capacity

Frequently Asked Questions (FAQ)

Q1: Is this tent suitable for the Belgian climate with frequent rain?

A: Absolutely. Our PVC fabric has a hydrostatic pressure rating over 2000mm (ISO 811 certified), and all seams are high-frequency welded. The anti-mildew treatment prevents fungal growth in Belgium's humid conditions. This tent has been specifically engineered for Northern European weather.

Q2: Does this tent meet Belgian fire safety regulations for public events?

A: Yes, our PVC fabric carries the DIN 4102 B1 fire rating which is equivalent to Belgian M1 classification (NBN S21-203). This meets the requirements for temporary public structures at Belgian events, markets, and festivals.

Q3: What is the minimum order quantity for Belgium delivery?

A: Our MOQ starts from 1 set for sample evaluation. For bulk orders, we offer competitive pricing for Belgian event rental companies, catering businesses, and festival organizers.

Q4: How long does delivery to Belgium take?

A: Standard production is 15-25 working days. Sea freight to Antwerp typically takes 25-30 days. From Antwerp, we can arrange inland transportation to Brussels, Ghent, Liège, or any Belgian destination.

Q5: Do you provide documentation in French and Dutch for Belgian authorities?

A: Yes, we provide technical documentation, certification packages, and assembly manuals in English, French, and Dutch (Nederlands) — supporting permit applications with both Walloon and Flemish municipal authorities.

Contact us today for a customized quotation. Free 3D layout design included with every inquiry. Nous parlons français — Wij spreken Nederlands.
