

Multi-Season Aluminum Party Marquee Tent All Climate Frame for Belgian Year Round Events Rental Business

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, CE Marking, Belgian M1 Fire NBN S21-203, Cold Rated
- Model Number: TD-PMT-MS01
- Minimum Order Quantity: 1 Set
- Price: USD 1000-3200 / Set
- Packaging Details: Heavy-duty export-grade carton with PE foam protection, aluminum frame wrapped in bubble film, PVC cover folded in waterproof bag
- Delivery Time: 15-25 working days production, 25-30 days sea freight to Antwerp
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: 6061-T6 Aluminum Heavy-Duty Anti-Corrosion
- Roof Cover: 900g/m² All-Season PVC UV+Cold Resistant
- Sidewall System: Modular 4-Season (Solid/Mesh/Window/Glass)
- Temperature Range: -25°C To +70°C
- Snow Load: Ardennes Region Rated
- Heating: Indirect Heater Compatible
- Wind Resistance: Up To 120 Km/h Enhanced
- Warranty: 5 Years Frame / 3 Years PVC
- Target Market: Belgium Year-Round Events
- Highlight: **aluminum party marquee tent, all climate marquee tent frame, Belgian event rental marquee tent**

Product Description

Belgium's Ultimate Four-Season Solution — -25°C to +70°C, Snow Load Rated, Heating Compatible, 5-Year Warranty

Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Aluminum Alloy, Heavy-Duty Anti-Corrosion Coating
Roof Cover	900g/m ² All-Season PVC Fabric — UV + Cold Resistant Formulation
Sidewall System	4-Season Modular: Solid PVC / Mesh Ventilation / Clear Windows / Glass Panels
Temperature Range	-25°C to +70°C — Engineered for Belgian Four-Season Climate
Snow Load Rating	Designed for Belgian Winter Snow Accumulation (Ardennes Rated)
Heating Compatible	Pre-Configured for Indirect Heater Integration
Wind Resistance	Up to 120 km/h — Enhanced Rating for Belgian Coastal & Ardennes Conditions
Certification	TUV SUD, ISO 9001:2015, CE, Belgian M1 Fire, Cold Rated
Warranty	5 Years Frame / 3 Years PVC Cover

Product Advantages & Selling Points

Belgian Four-Season Design

Engineered for Belgium's complete climate spectrum — from Ardennes winter snow to summer festival heat. The multi-season PVC formulation maintains flexibility at -25°C and UV resistance at +40°C.

Ardennes Snow Load Rated

Reinforced frame structure specifically designed to handle snow accumulation during Belgian winters — proven reliable in the elevated Ardennes region where winter conditions are most demanding.

Heating System Compatible

Pre-configured ventilation ports and cable management for seamless integration of indirect heaters — transform your tent into a warm, cozy venue for Belgian Christmas markets, winter weddings, and New Year events.

Modular 4-Season Walls

Single tent, four configurations: insulated solid PVC for winter warmth, mesh panels for summer ventilation, clear windows for spring daylight, glass panels for autumn elegance — maximize year-round ROI.

120 km/h Wind Rating

Enhanced structural rating exceeds standard requirements — engineered for exposed Belgian coastal locations in West Flanders and elevated sites in the Ardennes.

Maximum Year-Round ROI

The only tent Belgian event companies need — one investment covers Christmas markets, spring garden parties, summer festivals, and autumn corporate events. Reduces storage and logistics costs dramatically.

Production Process

Step 1

Raw Material Inspection

Step 2

CNC Precision Cutting

Step 3

Aluminum Welding & Assembly

Step 4

PVC Fabric Cutting & Welding

Step 5

Quality Inspection & Packing

⚙️ Advanced CNC Manufacturing Facility

Our state-of-the-art production facility is equipped with precision CNC machinery to ensure every component meets the highest standards:

CNC Cutting Machines	High-precision CNC aluminum profile cutting with ± 0.1 mm tolerance
CNC Bending Machines	Automatic CNC tube and profile bending for consistent frame geometry
CNC Drilling & Tapping	Multi-axis CNC drilling centers for precise hole positioning
High-Frequency PVC Welding	Industrial-grade PVC fabric welding machines for waterproof seams
Automated Powder Coating Line	Full automated coating line for durable, corrosion-resistant finish

5-Year Quality Warranty

All our party marquee tents come with a comprehensive 5-year warranty on the aluminum frame structure and a 3-year warranty on PVC fabric covers. We stand behind every product we manufacture.

10+ Years Industry Experience

Established in 2015, Tendars Tent Limited has over a decade of expertise in designing, manufacturing, and exporting high-quality tent solutions to over 50 countries worldwide.

TUV Certification & Test Reports

Certification / Test	Standard	Description
TUV SUD Certification	EN 13782 / DIN 4112	Full structural safety certification for temporary structures — recognized across EU including Belgium
Wind Load Test Report	EN 1991-1-4 (Eurocode 1)	Verified wind resistance up to 100 km/h — suitable for Belgian coastal and inland conditions

PVC Fabric Fire Rating	DIN 4102 B1 / M1 (Belgian Norm NBN S21-203)	Flame retardant PVC fabric meeting EU and Belgian fire safety standards for public events
Waterproof Test	ISO 811 / EN 20811	Hydrostatic pressure resistance > 2000mm — fully waterproof for Belgian rainy climate
ISO 9001:2015	Quality Management	Certified quality management system covering design, production, and after-sales service
CE Marking	EU Regulation	Full CE compliance for free circulation in the EU and Belgian market

Pre-Sale & After-Sale Service

Pre-Sale Services

Free 3D design & layout consultation

Custom size, color & branding options

Engineering calculation & wind load reports

Sample available for quality evaluation

Professional quotation within 24 hours (English / French / Dutch)

After-Sale Services

5-year structural frame warranty

Installation video guide & manual (EN/FR/NL)

Spare parts dispatched within 7 days

Online/on-site technical support

24/7 customer service response

Factory & Company Strength

5,000+ m²

Production Facility

50+ Skilled Workers

Experienced Team

50+ Countries

Global Export Reach

500+ Sets/Month

Production Capacity

Frequently Asked Questions (FAQ)

Q1: Can this tent really be used year-round in Belgium?

A: Yes, this model is specifically engineered for the full Belgian climate spectrum. The cold-rated PVC fabric remains flexible down to -25°C, the reinforced frame handles Ardennes snow loads, and the UV-resistant formulation protects against summer sun. It is truly a four-season solution for Belgian event professionals.

Q2: What heating solutions do you recommend for Belgian winter use?

A: The tent is pre-configured with ventilation ports and power cable channels compatible with most commercial indirect heaters (diesel or gas). We can recommend specific heating solutions based on your tent size and typical Belgian winter conditions. A properly heated tent maintains comfortable temperatures even during Belgian January events.

Q3: How does the tent perform in Belgian winter snow conditions?

A: The reinforced frame and 900g/m² PVC cover are designed with snow load calculations specific to European winter conditions. For installations in the Ardennes region where snowfall is heavier, we provide additional reinforcement options. Regular snow clearing from the roof is recommended during heavy accumulation.

Q4: Is it cost-effective to use one tent system year-round?

A: Absolutely. Belgian event companies report 40-60% higher ROI with all-season tents compared to seasonal-only models. The modular wall system means you invest once and configure for each event type — Christmas market, spring wedding, summer festival, autumn conference — eliminating the need to maintain multiple tent inventories.

Q5: Do you offer different wall sets for different seasons?

A: Yes, we offer complete seasonal wall packages: winter insulation set (solid PVC), summer ventilation set (mesh panels), and premium set (glass panels). All wall systems are fully interchangeable on the same frame. You can order the tent with your primary configuration and add seasonal wall sets as your business grows.
