

## Nordic Winter Insulated Party Marquee Tent Waterproof Windproof for Swedish Cold Climate Events

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ETENT
- Certification: TUV, CE, ISO 9001
- Model Number: ET-PM-NW100
- Minimum Order Quantity: 1 Set
- Price: USD 35-85 per sqm
- Packaging Details: PE Film + Bubble Wrap + Wooden Pallet
- Delivery Time: 15-25 Working Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Sets per Month

### Product Specification

- Frame Material: 6061-T6 Hard-Pressed Aluminum Alloy
- Cover Material: 850g/m<sup>2</sup> Double PVC-Coated Polyester, UV Resistant
- Insulation Layer: Triple-Layer Thermal Insulated Fabric
- Wind Resistance: Up To 100 Km/h (EN 13782 Certified)
- Snow Load Capacity: Up To 75 Kg/m<sup>2</sup>
- Temperature Range: -30°C To +50°C
- Eave Connection: High-Strength Hot-Dip Galvanized Steel
- Sidewall Options: Solid PVC, Transparent PVC Window, Glass Wall, Sandwich Panel
- Door Options: Double Hinged Door, Sliding Door, Roll-Up Door
- Warranty: 5 Years On Frame, 3 Years On Fabric
- Highlight: **Nordic winter insulated party marquee tent, Waterproof windproof party marquee tent, Swedish cold climate event tent**

## Nordic Winter Insulated Party Marquee Tent — Built for the Swedish Climate

Engineered specifically for Sweden's demanding Nordic climate, our **Nordic Winter Insulated Party Marquee Tent** delivers exceptional thermal performance and structural integrity in extreme cold conditions. Whether hosting a winter wedding in Stockholm, a Christmas market in Gothenburg, or a corporate event in Malmö, this tent ensures your guests stay warm and comfortable even when temperatures drop to -30°C. The triple-layer insulated fabric system, combined with a heavy-duty 6061-T6 aluminum alloy frame, provides unrivaled protection against snow, wind, and freezing temperatures.

Every component is designed and manufactured in our ISO 9001-certified facility with over a decade of expertise in fabric structure engineering. Our tents are exported to Sweden and across Scandinavia, trusted by event organizers who demand reliability in the harshest conditions.

### Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Hard-Pressed Aluminum Alloy (EN AW-6061 T6)
Frame Surface Treatment	Anodized / Powder Coated (Corrosion Resistant)
Cover Fabric	850g/m <sup>2</sup> Double PVC-Coated Polyester Fabric
Insulation Layer	Triple-Layer Thermal Insulated Composite Fabric
Fabric Properties	Waterproof, UV Resistant, Flame Retardant (DIN 4102 B1 / M2)
Wind Resistance Rating	Up to 100 km/h (EN 13782 Certified)
Snow Load Capacity	Up to 75 kg/m <sup>2</sup>
Operating Temperature	-30°C to +50°C
Eave Connection	High-Strength Hot-Dip Galvanized Steel Joints
Span Width Options	3m / 4m / 5m / 6m / 8m / 10m / 12m / 15m
Eave Height	2.6m / 3.0m / 3.5m / 4.0m
Bay Distance	3m / 5m
Sidewall Options	Solid PVC, Transparent PVC Window, Glass Wall, Sandwich Panel
Door Options	Double Hinged, Sliding, Roll-Up
Warranty	5 Years on Aluminum Frame, 3 Years on PVC Fabric

### Key Advantages for the Swedish Market

### Superior Cold Insulation

Triple-layer thermal fabric system retains interior heat, reducing heating costs by up to 40% compared to standard single-layer tents in sub-zero conditions.

### Extreme Weather Resistant

Certified to EN 13782 for wind resistance up to 100 km/h. Snow load capacity of 75 kg/m<sup>2</sup> ensures safety during heavy Swedish snowfall.

### Heavy-Duty Aluminum Frame

6061-T6 aerospace-grade aluminum alloy, CNC precision-machined for perfect fit. Anodized finish prevents corrosion in humid and coastal environments.

### Quick Modular Assembly

Modular design enables rapid deployment. A 10m\*20m tent can be fully assembled by 3-4 people in under 4 hours, minimizing labor costs.

### Swedish Sustainability Standards

PVC fabric is 100% recyclable. Frame components are reusable for decades. Compliant with EU REACH and RoHS environmental regulations.

### Scandinavian Design Aesthetic

Clean lines and minimalist profile align with Swedish design sensibilities. Available in white, grey, and custom colors to match your brand identity.

---

**Engineered for Nordic Winters:** Specifically designed and tested for Scandinavian climate conditions, not adapted from milder climates.

**TUV Certified Safety:** Full TUV Rheinland certification on structural integrity, wind resistance, and fire safety — essential for Swedish event permits.

**5-Year Comprehensive Warranty:** Industry-leading 5-year warranty on aluminum frame and 3 years on PVC fabric, backed by our global service network.

**10+ Years Manufacturing Excellence:** Over a decade of specialized experience in aluminum tent production, serving customers across 50+ countries.

**Direct Factory Pricing:** As a manufacturer, we offer competitive wholesale pricing without middlemen. Custom dimensions and configurations available.

## Manufacturing Excellence — Our Production Process

---

Every Nordic Winter Insulated Party Marquee Tent is manufactured in our 20,000 sqm state-of-the-art facility in Guangdong, China, following rigorous quality control protocols at every stage:

1

### Raw Material Inspection

All aluminum alloy (6061-T6) and PVC fabric rolls undergo incoming quality inspection. Material certificates verified against EU standards before production begins.

2

### CNC Precision Cutting & Machining

Our advanced CNC machining centers precisely cut and drill aluminum profiles to exact specifications with tolerances within  $\pm 0.1$ mm. This ensures perfect component fit and structural integrity in the final assembly.

3

### Surface Treatment — Anodizing / Powder Coating

Aluminum components undergo anodizing or electrostatic powder coating for superior corrosion resistance. Essential for the humid Swedish coastal climate and long-term outdoor use.

4

### PVC Fabric Cutting & Welding

High-frequency welding machines join PVC fabric panels with reinforced seams. Thermal insulation layers are laminated under controlled temperature and pressure for consistent quality.

5

### Pre-Assembly & Quality Control

Each tent is pre-assembled in our factory to verify fit, alignment, and structural integrity. QC inspectors check every joint, seam, and component against our 78-point quality checklist.

---

## Packaging & Shipping

Components are wrapped in PE film, bubble wrap, and packed on fumigated wooden pallets. Detailed assembly manuals in English and Swedish included. We ship to Gothenburg, Stockholm, and all major Swedish ports.

## Our Factory — 10+ Years of Expertise

Factory Feature	Details
Established	2013 — Over 10 Years of Industry Experience
Factory Area	20,000+ sqm Production Facility
Production Capacity	5,000+ Tent Sets per Month
Workforce	150+ Skilled Workers & Engineers
R&D Team	12 Dedicated Design & Structural Engineers
CNC Machines	8 CNC Machining Centers, 3 High-Frequency Welding Lines
Quality System	ISO 9001:2015 Certified Quality Management
Export Markets	50+ Countries including Sweden, Norway, Denmark, Germany, UK, USA, Australia
Annual Export Volume	USD 15 Million+ in Tent Products

## Certifications & Test Reports

Our products meet the highest international standards, ensuring compliance with Swedish and EU regulations:

TUV Rheinland Certified

CE Marking (EU)

ISO 9001:2015

EN 13782 Wind Test

DIN 4102 B1 Fire Retardant

REACH Compliant

RoHS Compliant

Certificate / Test	Standard	Scope
TUV Rheinland	Structural Safety & Material Testing	Frame Strength, Wind Load, Snow Load, Fabric Tensile Strength
CE Certification	EU Construction Products Regulation	Full Tent System Compliance for European Market
ISO 9001:2015	Quality Management System	Design, Manufacturing, Sales & After-Sales Service
EN 13782	Temporary Structures — Tents	Wind Resistance Up to 100 km/h Verified
DIN 4102 B1	Fire Behavior of Building Materials	PVC Fabric Flame Retardancy — Class B1

## 5-Year Warranty Commitment

We stand behind our products with one of the most comprehensive warranties in the tent industry:

Component	Warranty Period	Coverage
Aluminum Frame	5 Years	Manufacturing defects, structural failure under normal use
PVC Fabric Cover	3 Years	Material delamination, seam failure, excessive UV degradation
Steel Connectors & Hardware	5 Years	Corrosion beyond normal wear, mechanical failure
Spare Parts Availability	10+ Years	Guaranteed spare parts supply for all models

## Pre-Sales & After-Sales Service

<b>Pre-Sales Consultation</b>	Free expert consultation to determine optimal tent size, configuration, and accessories for your specific event needs in Sweden.
<b>Custom Design</b>	CAD drawings and 3D renderings provided for your review before production. Custom sizes, colors, and branding available.
<b>Sample Service</b>	Fabric swatches and frame samples available upon request. Visit our factory or arrange a video tour.
<b>Installation Support</b>	Detailed installation manual (English/Swedish), video guide, and remote technical support via video call during your first setup.
<b>On-Site Service</b>	Engineer dispatch to Sweden available for large-scale projects. Professional installation team training provided.
<b>After-Sales Response</b>	Dedicated account manager. 24-hour email response. 48-hour spare parts dispatch.
<b>Maintenance Guidance</b>	Seasonal maintenance checklist, cleaning and storage recommendations for maximizing product lifespan in Nordic climate.

## Frequently Asked Questions

### Q1: Can this tent really withstand Swedish winter conditions?

Yes. Our Nordic Winter Insulated Party Marquee Tent is specifically engineered for cold climates. The triple-layer thermal insulation system has been tested in temperatures as low as -30°C and the frame is certified to EN 13782 for wind loads up to 100 km/h and snow loads of 75 kg/m².

### Q2: Do you have TUV certification? Is it valid in Sweden?

Yes, our tents are TUV Rheinland certified for structural safety and material testing. TUV certification is widely recognized and accepted throughout Sweden and the EU, ensuring full compliance for event permits and insurance requirements.

### Q3: What is your minimum order quantity (MOQ)?

Our standard MOQ is 1 set. We support both small orders for individual event companies and bulk orders for large rental businesses in Sweden. Contact us with your specific requirements for a tailored quotation.

### Q4: How long does delivery to Sweden take?

Standard production time is 15-25 working days. Sea freight to Gothenburg or Stockholm typically takes 30-35 days. Express air freight options are available for urgent orders (7-10 days total).

### Q5: Can you customize the tent color and add our company logo?

Absolutely. PVC fabric is available in white, grey, blue, green, and custom Pantone colors. We offer digital printing for company logos,

branding, and decorative patterns on roof and sidewall panels.

**Q6: Do you provide installation training or on-site support?**

Yes. Every order includes a detailed multilingual installation manual and video guide. For larger projects in Sweden, we can dispatch our engineering team for on-site supervision and training at an additional cost.

**Q7: Is the PVC fabric environmentally friendly?**

Our PVC fabric is 100% recyclable and compliant with EU REACH and RoHS regulations. We are committed to sustainable manufacturing practices and offer eco-friendly packaging options for the Swedish market.

**Q8: What happens if a part is damaged during use?**

All components are individually replaceable. Contact your dedicated account manager with photos of the damaged part, and we will arrange a replacement shipment within 48 hours. Spare parts are guaranteed available for 10+ years.
