

Eco Sustainable Recyclable Party Marquee Tent Waterproof PVC Fabric for Swedish Green Outdoor Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ETENT
- Certification: TUV, CE, ISO 9001, REACH, RoHS
- Model Number: ET-PM-ECO300
- Minimum Order Quantity: 1 Set
- Price: USD 28-65 per sqm
- Packaging Details: Eco-Friendly Recyclable PE Film + Reusable Wooden Pallet
- Delivery Time: 15-25 Working Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Sets per Month

Product Specification

- Frame Material: 6061-T6 Recyclable Aluminum Alloy
- Cover Material: 750g/m² Fully Recyclable PVC-Coated Polyester
- Fabric Certification: REACH Compliant, RoHS Compliant, Phthalate-Free
- Wind Resistance: Up To 80 Km/h (EN 13782 Certified)
- Frame Surface: Anodized, Non-Toxic Process
- Recyclability: 100% PVC Fabric Recyclable, 100% Aluminum Frame Recyclable
- Sidewall Options: Solid PVC, Transparent PVC Window, Open Sides
- Door Options: Double Hinged Door, Sliding Door, Roll-Up Door
- Color Options: White, Green, Beige, Custom Eco Colors
- Warranty: 5 Years On Frame, 3 Years On Fabric
- Highlight: **recyclable party marquee tent waterproof, PVC fabric Swedish green marquee tent,**

Eco-Sustainable Recyclable Party Marquee Tent — Sweden's Green Choice for Outdoor Events

Sweden leads the world in environmental consciousness, and our **Eco-Sustainable Recyclable Party Marquee Tent** is purpose-built for this market. From the fully recyclable PVC fabric to the infinitely reusable aluminum frame, every component reflects our commitment to sustainability without compromising performance. Whether for an eco-festival in Malmö, a sustainable food market in Stockholm, or a green corporate gathering in Gothenburg, this tent aligns with Swedish values and EU environmental directives.

Manufactured in our ISO 9001-certified facility, all materials are REACH and RoHS compliant, phthalate-free, and designed for a full circular lifecycle. We offer eco-friendly packaging options and carbon-conscious shipping to further reduce environmental impact.

Technical Specifications

| Parameter | Specification |
|-------------------------|---|
| Frame Material | 6061-T6 100% Recyclable Aluminum Alloy (EN AW-6061 T6) |
| Frame Surface Treatment | Anodized — Non-Toxic, Zero VOC Process |
| Cover Fabric | 750g/m ² Fully Recyclable PVC-Coated Polyester |
| Fabric Certifications | REACH Compliant, RoHS Compliant, Phthalate-Free, No Heavy Metals |
| Fabric Properties | 100% Waterproof, UV Resistant, Flame Retardant (DIN 4102 B1 / M2) |
| Wind Resistance Rating | Up to 80 km/h (EN 13782 Certified) |

| | |
|-----------------------|---|
| Operating Temperature | -20°C to +45°C |
| End-of-Life Program | Take-Back Program Available — We Recycle Your Used Fabric |
| Span Width Options | 3m / 4m / 5m / 6m / 8m / 10m / 12m |
| Eave Height | 2.6m / 3.0m / 3.5m / 4.0m |
| Bay Distance | 3m / 5m |
| Color Options | White, Green, Beige, Custom Eco-Friendly Colors |
| Sidewall Options | Solid PVC, Transparent PVC Window, Open Sides (Natural Ventilation) |
| Door Options | Double Hinged, Sliding, Roll-Up |
| Warranty | 5 Years on Frame, 3 Years on Fabric |

Key Advantages for the Swedish Market

100% Recyclable Materials

Both PVC fabric and aluminum frame are fully recyclable at end-of-life. We offer a take-back program to collect and recycle used fabric from Swedish customers.

EU Chemical Compliance

REACH and RoHS certified, phthalate-free, zero heavy metals. Meets Sweden's strictest chemical safety regulations for public event structures.

Swedish Procurement Ready

Documentation package includes environmental certificates and lifecycle assessments — ready for Swedish municipal and government tender submissions.

Built for Longevity

15+ year frame lifespan reduces replacement frequency. Modular design means individual components can be replaced without discarding the entire tent.

Eco-Friendly Packaging

Recyclable PE film and reusable wooden pallets. Reduced plastic packaging options available for bulk orders shipped to Sweden.

Aligned with Swedish Values

Swedish consumers and businesses prioritize sustainability. This tent helps event organizers meet their environmental commitments and attract eco-conscious attendees.

Swedish Market Focused: Developed specifically for Sweden's environmentally conscious event industry, where sustainability credentials directly influence purchasing decisions.

TUV Certified & Eco-Compliant: Full TUV Rheinland structural certification plus REACH and RoHS environmental compliance documentation provided.

5-Year Warranty with Take-Back: Industry-leading warranty combined with our end-of-life recycling program for Swedish customers.

10+ Years Sustainable Manufacturing: Over a decade refining production processes to minimize waste and environmental impact.

Circular Economy Partnership: We work with Swedish clients to plan for product end-of-life, offering recycling solutions that align with Sweden's circular economy goals.

Manufacturing Excellence — Sustainable Production Process

Every Eco-Sustainable Party Marquee Tent is produced with environmental responsibility at every stage:

1

Certified Raw Material Sourcing

All materials sourced from REACH-certified suppliers. Incoming inspection verifies chemical composition and recyclability before production clearance.

2

CNC Precision Machining with Waste Optimization

Advanced CNC machining centers optimize aluminum cutting patterns to minimize scrap. Metal offcuts are collected and sent for recycling — zero aluminum waste to landfill.

3

Non-Toxic Anodizing Process

Frame components undergo anodizing using a closed-loop water system with zero VOC emissions. No toxic chemicals are released into the environment during surface treatment.

4

PVC Fabric Welding & Quality Control

High-frequency welding with precise temperature control minimizes energy consumption. Fabric offcuts are collected and recycled through our partner network.

5

Pre-Assembly & 78-Point QC Inspection

Each tent undergoes full pre-assembly and rigorous quality inspection to ensure first-time-right delivery, reducing the carbon footprint of returns and replacements.

6

Eco Packaging & Carbon-Conscious Shipping

Recyclable PE film, reusable pallets, and consolidated container loading to minimize shipping carbon footprint. Sea freight to Gothenburg and Stockholm ports.

Our Factory — 10+ Years of Sustainable Manufacturing

| Factory Feature | Details |
|--------------------------|--|
| Established | 2013 — Over 10 Years of Industry Experience |
| Factory Area | 20,000+ sqm Production Facility |
| Production Capacity | 5,000+ Tent Sets per Month |
| Workforce | 150+ Skilled Workers & Engineers |
| R&D Team | 12 Dedicated Design & Structural Engineers |
| CNC Machines | 8 CNC Machining Centers, 3 High-Frequency Welding Lines |
| Quality System | ISO 9001:2015 Certified Quality Management |
| Environmental Management | ISO 14001 Aligned Environmental Practices |
| Export Markets | 50+ Countries including Sweden, Norway, Denmark, Germany, UK, USA, Australia |
| Annual Export Volume | USD 15 Million+ in Tent Products |

Certifications & Test Reports

Comprehensive certification package for Swedish and EU compliance:

TUV Rheinland Certified

CE Marking (EU)

ISO 9001:2015

REACH Compliant

RoHS Compliant

Phthalate-Free

EN 13782 Wind Test

DIN 4102 B1 Fire Retardant

| Certificate / Test | Standard | Scope |
|--------------------|--------------------------------------|---|
| TUV Rheinland | Structural Safety & Material Testing | Frame Strength, Wind Load, Fabric Tensile Strength |
| CE Certification | EU Construction Products Regulation | Full Tent System Compliance for European Market |
| ISO 9001:2015 | Quality Management System | Design, Manufacturing, Sales & After-Sales Service |
| REACH Regulation | EC 1907/2006 | Chemical Substance Registration & Safety — PVC Fabric |
| RoHS Directive | 2011/65/EU | Restriction of Hazardous Substances in Materials |
| DIN 4102 B1 | Fire Behavior of Building Materials | PVC Fabric Flame Retardancy — Class B1 |

5-Year Warranty Commitment

| Component | Warranty Period | Coverage |
|-----------------------------|------------------|---|
| Aluminum Frame | 5 Years | Manufacturing defects, structural failure under normal use |
| PVC Fabric Cover | 3 Years | Material delamination, seam failure, excessive UV degradation |
| Steel Connectors & Hardware | 5 Years | Corrosion beyond normal wear, mechanical failure |
| End-of-Life Recycling | Lifetime Program | Take-back and recycling of used fabric at end of service life |

Pre-Sales & After-Sales Service

| | |
|-------------------------------|--|
| Pre-Sales Consultation | Free sustainability consultation — we help Swedish clients calculate environmental impact savings and prepare green procurement documentation. |
| Custom Design Service | CAD drawings and 3D renderings. Custom colors and eco-branding options for your Swedish sustainability identity. |
| Sample Service | Recyclable fabric swatches and frame finish samples available. Virtual factory tour showcasing our sustainable production processes. |
| Installation Support | Multilingual installation manual (English/Swedish), video guide, and remote technical support for first assembly. |
| On-Site Engineering | Engineer dispatch available for large Swedish projects. Professional team training on sustainable tent maintenance. |
| After-Sales Response | Dedicated account manager. 24-hour email response. 48-hour spare parts dispatch. |
| Recycling Program | End-of-life take-back program — return used PVC fabric to us and we ensure it enters the recycling stream responsibly. |

Frequently Asked Questions

Q1: What makes this tent eco-sustainable compared to standard tents?

Our PVC fabric is fully recyclable and REACH/RoHS certified (phthalate-free, no heavy metals). The aluminum frame is 100% recyclable with a 15+ year lifespan. We also offer end-of-life take-back and eco-friendly packaging — all verified by third-party certifications.

Q2: Do you provide environmental documentation for Swedish procurement?

Yes. We provide a full documentation package including REACH compliance certificates, RoHS declarations, recyclability statements, and lifecycle assessment data. This meets Swedish municipal and government tender requirements.

Q3: Is the eco-friendly fabric as durable as standard PVC?

Yes. Our eco-friendly PVC fabric meets the same performance standards — 750g/m² weight, 100% waterproof, UV resistant, and flame retardant to DIN 4102 B1. The eco-compliance is achieved through cleaner chemistry, not reduced durability.

Q4: How does the take-back recycling program work?

When your fabric reaches end-of-life, contact us. We arrange collection and ensure the material is processed by certified recycling partners. This service is available to all Swedish customers and supports your sustainability reporting.

Q5: What is the minimum order quantity?

MOQ is 1 set. We support both small eco-conscious event startups and large Swedish rental companies transitioning to sustainable inventory.

Q6: Are the certifications valid in Sweden?

Yes. TUV Rheinland, CE, REACH, and RoHS are all fully recognized throughout Sweden and the EU. We provide certificates in English for your event permit and procurement applications.

Q7: How long does delivery to Sweden take?

Production takes 15-25 working days. Sea freight to Gothenburg or Stockholm ports takes 30-35 days. We offer consolidated shipping to reduce carbon footprint per unit.

Q8: Can you customize the tent with our sustainability branding?

Yes. We offer digital printing for your sustainability logos, green certifications, and eco-branding on roof and sidewall panels. Custom eco-friendly colors are also available.
