

Premium Commercial Grade Heavy Duty Party Marquee Tent Reinforced Aluminum Frame for Swedish Rental Business Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ETENT
- Certification: TUV, CE, ISO 9001
- Model Number: ET-PM-PC500
- Minimum Order Quantity: 1 Set
- Price: USD 40-90 per sqm
- Packaging Details: Heavy-Duty PE Film + Bubble Wrap + Reinforced Wooden Pallet
- Delivery Time: 15-25 Working Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Sets per Month

Product Specification

- Frame Material: 6061-T6 Reinforced Aluminum Alloy, Extra Wall Thickness
- Frame Connection: Industrial-Grade Hot-Dip Galvanized Steel Joints
- Cover Material: 850g/m² Heavy-Duty PVC-Coated Polyester
- Wind Resistance: Up To 100 Km/h (EN 13782 Certified)
- Snow Load Capacity: Up To 75 Kg/m²
- Assembly Cycles: Rated For 500+ Assembly/Disassembly Cycles
- Sidewall Options: Solid PVC, Transparent PVC Window, Glass Wall, Sandwich Panel
- Door Options: Double Hinged Door, Sliding Door, Roll-Up Door
- Color Options: White, Grey, Blue, Custom Pantone Colors
- Warranty: 5 Years Comprehensive On Frame And Fabric
- Highlight: **Commercial grade party marquee tent,**

Premium Commercial Grade Heavy Duty Party Marquee Tent — The Swedish Rental Industry Standard

When your business depends on tents that perform flawlessly event after event, year after year, the **Premium Commercial Grade Heavy Duty Party Marquee Tent** is the only logical choice. Engineered specifically for professional tent rental companies serving the Swedish market, this tent is built to withstand the rigors of intensive commercial use — frequent assembly and disassembly, transportation between venues, and exposure to variable Swedish weather conditions.

With reinforced 6061-T6 aluminum frame profiles, industrial-grade hot-dip galvanized steel connectors, and 850g/m² heavy-duty PVC fabric, this tent is rated for 500+ assembly cycles. It is the investment that keeps delivering returns for Swedish rental businesses.

Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Reinforced Aluminum Alloy, Extra Wall Thickness (EN AW-6061 T6)
Frame Connection	Industrial-Grade Hot-Dip Galvanized Steel Joints
Frame Surface Treatment	Anodized + Powder Coated Dual Protection
Cover Fabric	850g/m ² Heavy-Duty Double PVC-Coated Polyester
Fabric Properties	100% Waterproof, UV Resistant, Flame Retardant (DIN 4102 B1 / M2), Tear Resistant
Wind Resistance Rating	Up to 100 km/h (EN 13782 Certified)
Snow Load Capacity	Up to 75 kg/m ²
Operating Temperature	-30°C to +50°C
Assembly Cycle Rating	500+ Assembly/Disassembly Cycles
Span Width Options	3m / 4m / 5m / 6m / 8m / 10m / 12m / 15m / 20m
Eave Height	2.6m / 3.0m / 3.5m / 4.0m
Bay Distance	3m / 5m
Sidewall Options	Solid PVC, Transparent PVC Window, Glass Wall, Sandwich Panel
Door Options	Double Hinged, Sliding, Roll-Up
Warranty	5 Years Comprehensive on Frame and Fabric

Key Advantages for Swedish Rental Businesses

500+ Cycle Durability

Engineered and tested for over 500 assembly/disassembly cycles — years of reliable service in demanding Swedish rental operations.

Reinforced Frame Profile

Extra wall thickness on all aluminum extrusions. Industrial-grade hot-dip galvanized steel joints resist wear from repeated assembly.

Widest Size Range

Spans from 3m to 20m — the widest range in our lineup. One tent system covers everything from intimate Swedish garden parties to large corporate galas.

All-Weather Performance

100 km/h wind resistance and 75 kg/m² snow load capacity. Year-round operation in Swedish climate — from winter galas to summer weddings.

Interchangeable Components

Standardized parts across all sizes. Simplified inventory management for Swedish rental companies — fewer SKUs to stock.

Maximum ROI

Higher upfront investment delivers lower cost-per-use over the product lifetime. The preferred choice for Swedish rental companies focused on long-term profitability.

Built for Intensive Commercial Use: Every component is selected and tested for the demands of professional rental operations — not occasional use.

TUV Certified Commercial Grade: Full TUV Rheinland structural certification with documentation provided for Swedish event permit applications.

5-Year Comprehensive Warranty: The most complete warranty in our lineup — 5 years on both frame and fabric, reflecting our confidence in this product.

10+ Years Industry Leadership: Over a decade supplying professional rental companies worldwide with reliable tent solutions.

Rental Business Partnership: Volume pricing, priority production slots, and dedicated account management for Swedish rental company partners.

Manufacturing Excellence — Built for the Long Haul

Every Premium Commercial Grade Heavy Duty Party Marquee Tent undergoes our most rigorous production process:

1

Premium Raw Material Selection

Only certified 6061-T6 aluminum with verified extra wall thickness is accepted. PVC fabric rolls are tested for weight, tensile strength, and tear resistance before production.

2

CNC Precision Machining — Heavy Duty Spec

8 CNC machining centers cut and drill reinforced aluminum profiles with tolerances of ± 0.1 mm. Every connector hole is chamfered and deburred for smooth, wear-resistant assembly.

3

Dual-Protection Surface Treatment

Frame components receive both anodizing and powder coating — a dual-layer protection system that resists corrosion, scratching, and UV degradation through hundreds of assembly cycles.

4

Heavy-Duty Fabric Welding

850g/m² PVC fabric panels joined by high-frequency welding with reinforced seam tape. Every seam is pull-tested to exceed 85% of base fabric tensile strength.

5

Full Assembly & Cyclic Testing

Each tent undergoes complete pre-assembly followed by our 78-point QC inspection. Sample units from each batch undergo cyclic assembly testing to verify 500+ cycle durability rating.

6

Industrial Packaging & Global Logistics

Heavy-duty PE film, reinforced bubble wrap, and fumigated wooden pallets. Professional loading for container optimization. Sea freight to

Our Factory — 10+ Years of Commercial Grade Manufacturing

Factory Feature	Details
Established	2013 — Over 10 Years of Industry Experience
Factory Area	20,000+ sqm Production Facility
Production Capacity	5,000+ Tent Sets per Month
Workforce	150+ Skilled Workers & Engineers
R&D Team	12 Dedicated Design & Structural Engineers
CNC Machines	8 CNC Machining Centers, 3 High-Frequency Welding Lines
Quality System	ISO 9001:2015 Certified Quality Management
Testing Facilities	In-House Wind Load Testing, Cyclic Assembly Testing, Fabric Tensile Testing
Export Markets	50+ Countries including Sweden, Norway, Denmark, Germany, UK, USA, Australia
Annual Export Volume	USD 15 Million+ in Tent Products

Certifications & Test Reports

TUV Rheinland Certified

CE Marking (EU)

ISO 9001:2015

EN 13782 Wind Test

DIN 4102 B1 Fire Retardant

REACH Compliant

RoHS Compliant

500-Cycle Durability Tested

Certificate / Test	Standard	Scope
TUV Rheinland	Structural Safety & Material Testing	Reinforced Frame Strength, Wind Load, Snow Load, Cyclic Durability
CE Certification	EU Construction Products Regulation	Full Tent System Compliance for European Market
ISO 9001:2015	Quality Management System	Design, Manufacturing, Sales & After-Sales Service
EN 13782	Temporary Structures — Tents	Wind Resistance Up to 100 km/h Verified
DIN 4102 B1	Fire Behavior of Building Materials	PVC Fabric Flame Retardancy — Class B1
In-House Cyclic Test	500-Cycle Assembly Protocol	Frame, Joints, and Fabric Endurance After 500 Assembly Cycles

5-Year Comprehensive Warranty

Component	Warranty Period	Coverage
Reinforced Aluminum Frame	5 Years	Manufacturing defects, structural failure, excessive wear under normal commercial use
Heavy-Duty PVC Fabric	5 Years	Material delamination, seam failure, excessive UV degradation — full commercial coverage
Galvanized Steel Joints	5 Years	Corrosion, mechanical wear, connection failure under rated loads
Spare Parts Availability	10+ Years	Guaranteed spare parts supply — critical for rental fleet maintenance

Pre-Sales & After-Sales Service for Rental Partners

Pre-Sales Consultation	Dedicated rental business specialist to help optimize your tent fleet composition for the Swedish market — right sizes, right quantities, right accessories.
Fleet Planning Service	CAD-based fleet configuration planning. We analyze your target market segments and recommend the optimal tent mix for maximum utilization and ROI.
Sample & Demo Program	Full-size demo unit available for evaluation. Frame cross-section samples, fabric swatches, and connector samples provided. Factory visit with production line tour.
Installation Training Program	Comprehensive crew training — multilingual manual (English/Swedish), detailed video course, and live remote training sessions for your Swedish installation teams.
On-Site Engineering Support	Engineer dispatch to Sweden for initial fleet deployment and team certification. Ongoing technical support for complex installations.
Priority After-Sales Service	Dedicated rental partner account manager. Priority 24-hour response. 48-hour spare parts dispatch. Annual fleet inspection and maintenance consultation.
Rental Partner Program	Volume pricing tiers, priority production scheduling, co-branded marketing materials, and referral program for Swedish rental network partners.

Frequently Asked Questions

Q1: How many assembly cycles can this tent actually handle?

Our Premium Commercial Grade tent is rated and tested for 500+ assembly/disassembly cycles. Sample units from each production batch undergo cyclic testing to verify this rating. Many rental partners report exceeding 700 cycles with proper maintenance.

Q2: What makes this tent commercial grade vs. standard models?

Key differences: (1) Reinforced aluminum frame with extra wall thickness, (2) Industrial-grade hot-dip galvanized steel joints instead of aluminum, (3) 850g/m² heavy-duty fabric, (4) Dual anodizing + powder coating, (5) 500-cycle durability rating, (6) 5-year comprehensive warranty on both frame and fabric.

Q3: Is this tent suitable for year-round use in Sweden?

Yes. With 100 km/h wind resistance, 75 kg/m² snow load capacity, and -30°C to +50°C operating range, this tent performs reliably through all Swedish seasons. It is the preferred year-round solution for professional rental companies.

Q4: Do you offer rental fleet discounts?

Yes. We offer volume pricing tiers for rental companies building or expanding their fleets. Contact our rental partner team with your fleet plan for a customized quotation and partnership proposal.

Q5: What TUV certifications do you provide?

Full TUV Rheinland structural certification covering frame strength, wind load resistance (100 km/h), snow load capacity (75 kg/m²), and material testing. All documentation is provided in English for Swedish permit and insurance requirements.

Q6: How quickly can I get replacement parts in Sweden?

Spare parts dispatch within 48 hours of request. We recommend rental partners maintain a recommended spare parts kit for immediate on-site replacements. All parts are guaranteed available for 10+ years.

Q7: What is the delivery time for fleet orders to Sweden?

Production time is 15-25 working days depending on order volume. Sea freight to Gothenburg or Stockholm ports takes 30-35 days. We offer production slot reservation for rental partners with scheduled fleet expansion plans.

Q8: Can components from different tent sizes be interchanged?

Yes. Our commercial grade system uses standardized connectors and frame profiles across all sizes (3m-20m spans). This significantly simplifies inventory management for Swedish rental companies stocking multiple sizes.
