

## Compact Pop Up Portable Party Marquee Tent Bicycle Transport Friendly Design for Denmark Urban Outdoor Markets

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ETENT
- Certification: TUV, CE, ISO 9001
- Model Number: ET-PM-CP800
- Minimum Order Quantity: 1 Set
- Price: USD 22-48 per sqm
- Packaging Details: Compact PE Film + Carry Bag + Wooden Pallet
- Delivery Time: 10-20 Working Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Sets per Month

### Product Specification

- Frame Material: 6061-T6 Ultralight Aluminum Alloy
- Frame Feature: Pop-Up Scissor Mechanism, Instant Open Design
- Setup Time: Under 15 Minutes (1 Person)
- Cover Material: 600g/m<sup>2</sup> Lightweight PVC-Coated Polyester
- Folded Dimensions: Compact Fit For Cargo Bike / Compact Car Trunk
- Weight Reduction: 40% Lighter Than Standard Frame
- Wind Resistance: Up To 60 Km/h
- Sidewall Options: Solid PVC, Mesh Screen, Open Sides
- Color Options: White, Grey, Green, Custom Danish Colors
- Warranty: 5 Years On Frame, 3 Years On Fabric
- Highlight: **compact pop up party marquee tent, portable bicycle transport marquee tent, Denmark urban outdoor market tent**

## Compact Pop-Up Portable Party Marquee Tent — Designed for Denmark's Bicycle Culture

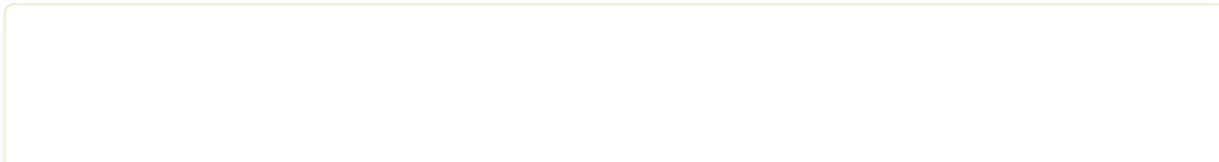

Denmark is the world's most bicycle-friendly nation — with more bikes than cars and a culture that prioritizes pedal-powered mobility. Our **Compact Pop-Up Portable Party Marquee Tent** is designed for this reality. Weighing 40% less than standard frames and folding to dimensions that fit a cargo bike or compact car trunk, this tent empowers Danish event professionals to go completely car-free.

From Copenhagen's bustling street food markets to Aarhus neighborhood festivals and Roskilde pop-up venues, this tent goes wherever your bike takes you — up in 15 minutes, down in 10, and ready for the next event before the coffee cools.

### Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Ultralight Aluminum Alloy (EN AW-6061 T6)
Frame Mechanism	Pop-Up Scissor Design — Instant Open, No Assembly Required
Setup Time	Under 15 Minutes, Single Person
Cover Fabric	600g/m <sup>2</sup> Lightweight PVC-Coated Polyester
Fabric Properties	Waterproof, UV Resistant, Flame Retardant (DIN 4102 B1 / M2)
Weight Comparison	40% Lighter than Standard Aluminum Frame
Folded Dimensions	Compact — Fits Cargo Bike, Compact Car Trunk, or Trailer
Wind Resistance	Up to 60 km/h
Operating Temperature	-5°C to +40°C
Span Width Options	3m / 4m / 5m / 6m
Eave Height	2.3m / 2.6m / 3.0m
Sidewall Options	Solid PVC, Mesh Screen, Open Sides
Color Options	White, Grey, Green, Custom Danish Colors
Warranty	5 Years on Frame, 3 Years on Fabric

### Key Advantages for Denmark's Urban Market

### **Bicycle Transport Ready**

Folded dimensions and 40% weight reduction make this tent the first truly bicycle-transportable marquee. Danish cargo bike compatible — no car, no van, no problem.

### **15-Minute Pop-Up Setup**

Scissor-frame mechanism deploys instantly — no tools, no connectors, no assembly. Single-person operation. Perfect for Copenhagen's fast-paced event scene.

### **Ultra-Compact Storage**

Folds to a fraction of standard tent volume. Ideal for Danish urban businesses with limited storage space — apartments, small shops, and shared storage facilities.

### **Urban Market Optimized**

Designed for Copenhagen's street markets, pop-up retail, food festivals, and community gatherings. Clean aesthetic complements Denmark's urban design sensibility.

### **Low Carbon Event Solution**

Bicycle-transportable design eliminates vehicle emissions for local events. Lightweight materials reduce shipping carbon footprint. Aligns with Denmark's carbon neutrality goals.

### **Budget-Friendly Entry Point**

Most affordable model in our Danish lineup. Lower materials, simpler manufacturing, and lighter shipping translate to accessible pricing for Danish startups and community organizers.

out of 10 Danes own a bicycle and cargo bikes are a primary transport mode.

**TUV Certified Compact Design:** Full TUV Rheinland structural certification despite the lightweight, compact form factor.

**5-Year Frame Warranty:** Comprehensive warranty on the pop-up scissor mechanism — tested for thousands of open/close cycles.

**10+ Years Manufacturing Heritage:** Over a decade refining aluminum tent mechanisms, exported to 50+ countries worldwide.

**Direct Factory Pricing:** Most accessible price point in our lineup — perfect for Danish entrepreneurs and community organizers.

## Manufacturing Excellence — Our Production Process

Every Compact Pop-Up Tent is manufactured in our 20,000 sqm ISO-certified facility:

1

### Ultralight Material Sourcing

6061-T6 aluminum with optimized wall thickness for maximum strength-to-weight ratio. PVC fabric selected for lightweight durability.

2

### CNC Precision Machining

8 CNC machining centers cut and drill ultralight profiles to  $\pm 0.1$ mm. Scissor mechanism pivot points machined for smooth, friction-free operation through thousands of cycles.

3

### Scissor Mechanism Assembly

Precision assembly of pop-up scissor frame with calibrated spring tension. Each mechanism tested for smooth deployment and secure locking.

4

### Lightweight Fabric Welding

600g/m<sup>2</sup> PVC fabric cut and welded with high-frequency seams. Optimized for minimal weight while maintaining waterproof integrity and UV resistance.

5

### Deployment Cycle Testing & QC

Each tent undergoes 50 open/close cycle testing plus our 78-point QC inspection. Pop-up mechanism verified for consistent, reliable deployment.

6

### Compact Packaging & Shipping

Folded to minimum volume with reusable carry bag included. Palletized for efficient container loading. Sea freight to Copenhagen, Aarhus, and Danish ports.

## Our Factory — 10+ Years of Expertise

Factory Feature	Details
Established	2013 — Over 10 Years of Industry Experience
Factory Area	20,000+ sqm Production Facility
Production Capacity	5,000+ Tent Sets per Month
Workforce	150+ Skilled Workers & Engineers
R&D Team	12 Dedicated Design & Structural Engineers
CNC Machines	8 CNC Machining Centers, 3 High-Frequency Welding Lines
Quality System	ISO 9001:2015 Certified Quality Management
Export Markets	50+ Countries including Denmark, Sweden, Norway, Germany, UK, USA
Annual Export Volume	USD 15 Million+ in Tent Products

## Certifications & Test Reports

TUV Rheinland Certified

CE Marking (EU)

ISO 9001:2015

EN 13782 Wind Test

DIN 4102 B1 Fire Retardant

REACH Compliant

RoHS Compliant

Certificate / Test	Standard	Scope
TUV Rheinland	Structural Safety & Material Testing	Frame Strength, Pop-Up Mechanism Integrity
CE Certification	EU Construction Products Regulation	Full Tent System Compliance for European Market
ISO 9001:2015	Quality Management System	Design, Manufacturing, Sales & After-Sales
EN 13782	Temporary Structures — Tents	Wind Resistance Up to 60 km/h Verified
DIN 4102 B1	Fire Behavior of Building Materials	PVC Fabric Flame Retardancy — Class B1

## 5-Year Warranty Commitment

Component	Warranty Period	Coverage
Pop-Up Scissor Frame	5 Years	Mechanism failure, manufacturing defects, structural failure
PVC Fabric Cover	3 Years	Material delamination, seam failure, excessive UV degradation
Spring & Locking Hardware	5 Years	Spring fatigue, lock mechanism failure under normal use

Spare Parts Availability	10+ Years	Guaranteed spare parts for all pop-up mechanism components
--------------------------	-----------	--

## Pre-Sales & After-Sales Service

<b>Pre-Sales Consultation</b>	Free consultation to determine optimal pop-up tent size and configuration for your Danish urban event needs.
<b>Custom Design Service</b>	Custom colors and branding options. Compact carry bag customization for your Danish business identity.
<b>Sample Service</b>	Pop-up mechanism demonstration video. Fabric swatches and frame samples available. Virtual factory tour.
<b>Setup Training</b>	Quick-start video guide — 15-minute setup demonstrated step by step. Remote support for first deployment in Denmark.
<b>On-Site Support</b>	Engineer dispatch available for large Danish orders. Team training on efficient pop-up deployment and compact packing.
<b>After-Sales Response</b>	Dedicated account manager. 24-hour email response. 48-hour spare parts dispatch to Denmark.
<b>Storage &amp; Care Guide</b>	Compact storage best practices. Seasonal maintenance checklist to maximize pop-up mechanism lifespan.

## Frequently Asked Questions

### Q1: Can this tent really be transported by bicycle?

Yes. The 3m and 4m span models fold to dimensions compatible with standard Danish cargo bikes (e.g., Christiania Bike, Bullitt). The frame weighs 40% less than standard tents, making bicycle transport practical for short urban distances.

### Q2: How does the pop-up mechanism work?

The scissor-action frame opens like an umbrella — simply unfold and lock. No separate poles, no connectors, no tools. It takes under 15 minutes solo. A detailed video guide demonstrates the full process.

### Q3: Is the pop-up frame durable for regular use?

Yes. Despite being lightweight, the 6061-T6 aluminum scissor mechanism is tested for thousands of open/close cycles. Many Danish market vendors use ours daily throughout the summer season without issues.

### Q4: Is this tent suitable for Danish weather conditions?

This model is designed for spring through autumn use (May-October), which covers Denmark's primary outdoor event season. For winter or extreme weather, we recommend our Coastal Weather Resistant or Nordic Insulated models.

### Q5: What is the minimum order quantity?

MOQ is 1 set. We serve individual Danish street vendors, market organizers, and community groups. Volume discounts available for multiple units.

### Q6: Do you have TUV certification for this lightweight model?

Yes. Full TUV Rheinland structural certification is provided. Despite the lightweight design, the tent meets all applicable EU safety standards for temporary structures.

### Q7: How long does delivery to Denmark take?

Production takes 10-20 working days (faster due to simplified manufacturing). Sea freight to Copenhagen or Aarhus ports takes 30-35 days. Express air freight available.

### Q8: Can I use this tent at multiple Copenhagen market locations?

Absolutely. The compact fold, bicycle transport compatibility, and 15-minute setup make it ideal for Danish vendors who rotate between different street markets throughout the week. Pack up, bike to the next location, pop up again.
