

Luxury Beach Resort Poolside Event Party Marquee Tent Anti Corrosion UV Protection for UAE Coastal Venues

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ETENT
- Certification: TUV, CE, ISO 9001
- Model Number: ET-PM-AE2500
- Minimum Order Quantity: 1 Set
- Price: USD 35-72 per sqm
- Packaging Details: Corrosion-Protected PE Film + Bubble Wrap + Wooden Pallet
- Delivery Time: 15-25 Working Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Sets per Month

Product Specification

- Frame Material: 6061-T6 Marine-Grade Aluminum Alloy, Anti-Corrosion Treatment
- Frame Protection: Triple-Layer Anti-Corrosion: Anodized + Epoxy Primer + Marine Topcoat
- Cover Fabric: 850g/m² UV-Resistant PVC-Coated Polyester, Pearl White Finish
- UV Protection: UPF 50+ Rated Fabric, Blocks 98% UV Radiation
- Wind Resistance: Up To 100 Km/h — Aerodynamic Low-Profile Design
- Salt Spray Resistance: ASTM B117 Salt Spray Test, 1,000+ Hours Certified
- Sidewall Options: Solid PVC, Transparent Window, Open Beach Sides, Mesh Screen
- Door Options: Double French Door, Roll-Up Beach Access, Sliding Glass
- Warranty: 5 Years On Frame, 3 Years On Fabric
- Highlight: Luxury beach resort marquee tent

Luxury Beach Resort & Poolside Event Marquee Tent — UAE Coastal Elegance

The UAE coastline stretches over 1,300 kilometers — from Dubai's iconic Jumeirah Beach to Abu Dhabi's pristine Saadiyat Island, Ras Al Khaimah's mountain-backed resorts to Fujairah's Indian Ocean shores. This coastline hosts some of the world's most exclusive beachfront events, poolside weddings, and luxury resort celebrations. The **Luxury Beach Resort Poolside Event Party Marquee Tent** is purpose-engineered for this unique environment — featuring marine-grade triple-layer anti-corrosion frame treatment, UPF 50+ rated pearl-white fabric, aerodynamic low-profile design for Gulf sea breezes, and salt-spray certified materials that maintain their elegance season after season.

From Jumeirah Beach Hotel poolside events to Saadiyat Beach Club weddings, Atlantis The Palm beachfront galas to Ras Al Khaimah resort celebrations — this tent brings protected luxury to the UAE's most beautiful coastal settings.

Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Marine-Grade Aluminum Alloy, Enhanced Anti-Corrosion Treatment
Frame Protection	Triple-Layer: Anodized + Epoxy Primer + Marine-Grade Topcoat
Frame Surface	Pearl White Marine Topcoat, UV and Salt Spray Resistant
Cover Fabric	850g/m ² UV-Resistant PVC-Coated Polyester, Pearl White Finish
UV Protection	UPF 50+ Rated, Blocks 98% UV Radiation
Fabric Properties	Waterproof, UV Resistant, Flame Retardant (DIN 4102 B1), Anti-Fungal, Anti-Mildew
Wind Resistance	Up to 100 km/h — Aerodynamic Low-Profile Design for Coastal Winds
Salt Spray Resistance	ASTM B117 Certified, 1,000+ Hours Salt Spray Test Passed
Span Width Options	4m / 5m / 6m / 8m / 10m / 12m / 15m
Eave Height	2.8m / 3.0m / 3.5m / 4.0m
Bay Distance	3m / 5m
Sidewall Options	Solid PVC, Transparent Window, Open Beach Sides, Mesh Insect Screen
Door Options	Double French Door, Roll-Up Beach Access, Sliding Glass Wall
Warranty	5 Years on Frame, 3 Years on Fabric

Key Advantages for the UAE Market

Marine-Grade Anti-Corrosion

Triple-layer protection system: anodized base + epoxy primer + marine-grade topcoat. ASTM B117 certified with 1,000+ hours salt spray resistance — engineered for UAE's humid, salt-rich coastal environment.

UPF 50+ Solar Defense

Pearl-white fabric blocks 98% of UV radiation with UPF 50+ rating. Protects guests from UAE's extreme sun exposure while reflecting heat for naturally cooler interior temperatures.

Luxury Resort Aesthetic

Pearl-white frame and fabric finish complement the world-class architecture of UAE beach resorts — from Burj Al Arab to Emirates Palace. Understated elegance that enhances, not competes with, the coastal setting.

Aerodynamic Coastal Wind Design

Low-profile curved roof structure designed for Gulf sea breeze patterns. 100 km/h wind rating handles UAE coastal conditions — from gentle Gulf breezes to seasonal shamal winds.

Anti-Fungal Tropical Protection

Anti-fungal and anti-mildew treated fabric prevents deterioration in UAE's humid coastal environment. Maintains pristine white appearance through multiple beach seasons.

Flexible Beach Deployment

Modular design supports diverse UAE beach venues — poolside terraces, beachfront lawns, marina decks, and resort gardens. Lightweight components enable setup on sensitive coastal surfaces.

Engineered for UAE Coastal Reality: Every component — from marine-grade corrosion protection to UV-rated fabric — is purpose-designed for the specific challenges of UAE's beach and coastal environment.

TUV Certified for Beach Venue Safety: Full TUV Rheinland structural certification with documentation for UAE beach venue permits and resort insurance requirements.

5-Year Coastal Climate Warranty: Comprehensive warranty covering frame and fabric against the aggressive UAE coastal environment — salt, sun, and humidity.

10+ Years Marine Environment Engineering: Over a decade creating tent solutions for the world's most demanding coastal and marine environments.

UAE Luxury Resort Partner Program: Priority production for UAE resort season (October-May), white-glove logistics, and dedicated hospitality account management.

Manufacturing Excellence — Our Production Process

Every tent is manufactured in our 20,000 sqm ISO-certified facility:

1

Marine-Grade Certified Materials

6061-T6 aluminum from certified mills meeting marine-grade specifications. 850g/m² UPF 50+ fabric tested for Gulf UV exposure and salt spray resistance.

2

CNC Precision Marine Frame Manufacturing

8 CNC machining centers produce frame components to ±0.1mm tolerance. Precision critical for aerodynamic coastal wind performance.

3

Triple-Layer Marine Corrosion Protection

Three-stage process: anodizing for base protection, epoxy primer for adhesion, marine-grade topcoat for salt and UV resistance. Every component inspected for coating integrity.

4

UV-Resistant Fabric Production

Pearl-white PVC fabric with UPF 50+ UV inhibitors integrated into material formulation. High-frequency welded seams tested for coastal environment durability.

5

Salt Spray Testing & Coastal QC

Complete pre-assembly with 78-point QC plus ASTM B117 salt spray verification. Sample frames undergo 1,000+ hour accelerated coastal environment testing.

6

Protected Coastal Logistics

Corrosion-protected packaging with VCI inhibitors. Sea freight to Jebel Ali Port with climate-controlled container options for premium resort

orders.

Our Factory — 10+ Years of Expertise

Factory Feature	Details
Established	2013 — Over 10 Years of Industry Experience
Factory Area	20,000+ sqm Production Facility
Production Capacity	5,000+ Tent Sets per Month
Workforce	150+ Skilled Workers & Engineers
R&D Team	12 Dedicated Design & Structural Engineers
CNC Machines	8 CNC Machining Centers, 3 High-Frequency Welding Lines
Quality System	ISO 9001:2015 Certified Quality Management
Export Markets	50+ Countries including UAE, Saudi Arabia, Qatar, Oman, Kuwait, Europe, North America
Annual Export Volume	USD 15 Million+ in Tent Products

Certifications & Test Reports

TUV Rheinland

CE Marking (EU)

ISO 9001:2015

EN 13782 Wind Test

DIN 4102 B1 Fire

REACH

RoHS

Certificate	Standard	Scope
TUV Rheinland	Structural Safety & Material Testing	Frame Strength, Wind/Sand Load, Durability, UV Resistance
CE Certification	EU Construction Products Regulation	Full Tent System Compliance
ISO 9001:2015	Quality Management System	Design, Manufacturing, Sales & After-Sales
EN 13782	Temporary Structures — Tents	Wind Resistance Verified (Gulf Region Applicable)
DIN 4102 B1	Fire Behavior	PVC Fabric Flame Retardancy Class B1

5-Year Warranty Commitment

Component	Warranty Period	Coverage
Aluminum Frame	5 Years	Manufacturing defects, structural failure under normal use, corrosion protection

PVC Fabric Cover	3 Years	Material delamination, seam failure, excessive UV degradation (Gulf climate rated)
Steel Connectors & Hardware	5 Years	Corrosion beyond normal wear, mechanical failure, sand abrasion protection
Spare Parts Availability	10+ Years	Guaranteed spare parts supply for all models, express shipping to UAE

Pre-Sales & After-Sales Service

Pre-Sales Consultation	Free expert consultation for your UAE business needs, climate zone requirements, and Dubai Municipality permit guidance.
Custom Design Service	CAD drawings and 3D renderings. Custom colors, Islamic geometric patterns, and Arabic calligraphy branding available.
Sample Service	Fabric swatches and frame samples. Factory visit or live video tour. UAE-based reference projects available.
Installation Support	Installation manual in English and Arabic. Video guide and remote technical support for first assembly in UAE.
On-Site Engineering	Engineer dispatch available for large UAE projects. Professional crew training included. Gulf region experience.
After-Sales Response	Dedicated account manager. 24-hour email response. 48-hour spare parts dispatch to Dubai, Abu Dhabi, and Sharjah.
Gulf Climate Maintenance Guide	Customized care instructions for UAE climate — extreme heat, sandstorm, humidity, and sea salt exposure management.

Frequently Asked Questions

Q1: How does this tent handle the UAE coastal salt environment?

Triple-layer anti-corrosion protection: anodized aluminum + epoxy primer + marine-grade topcoat. ASTM B117 certified with 1,000+ hours salt spray resistance — purpose-engineered for UAE's humid, salt-rich coastal conditions.

Q2: Does the pearl-white finish stay clean in beach environments?

Yes. The marine-grade topcoat resists salt residue adhesion, and the anti-fungal treated fabric prevents mildew staining. A simple fresh-water rinse after beach events maintains the pristine appearance.

Q3: Can this tent be used for poolside events at UAE luxury resorts?

Yes — this is the primary design purpose. Water-resistant materials, non-corrosive frame, and elegant pearl-white aesthetic complement luxury pool environments. Popular with Jumeirah, Atlantis, and Emaar Hospitality properties.

Q4: How effective is the UV protection for UAE summer events?

UPF 50+ rated fabric blocks 98% of UV radiation. The pearl-white color naturally reflects heat while protecting guests. Combined with optional sidewall shading, creates comfortable poolside event spaces even during UAE summer.

Q5: Does the aerodynamic design really help with UAE coastal winds?

Yes. The low-profile curved roof structure reduces wind resistance compared to traditional peaked tents. The 100 km/h wind rating handles regular Gulf breezes and seasonal shamal conditions.

Q6: What is the minimum order quantity?

MOQ is 1 set. We serve individual UAE luxury resorts, beach clubs, event companies, and hospitality groups.

Q7: How long does delivery to Dubai take for resort season?

Production: 15-25 working days. Sea freight to Jebel Ali Port: 20-25 days. Recommend ordering by August for the October-May UAE resort event season.

Q8: Is Arabic-language documentation available for UAE resort operations?

Yes. All documentation — installation guides, maintenance manuals, and safety certificates — provided in English and Arabic for UAE hospitality staff training and operations.
