

Aluminum Alloy Party Marquee Tent Waterproof PVC Coated Canopy for Qatar Corporate Exhibitions

Our Product Introduction

for more products please visit us on marquees-tent.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, SGS, CE, NFPA 701
- Model Number: PMT-QR25
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame packed in protective bubble film; PVC fabric roof and sidewalls packed in heavy-duty carry bags; hardware in labeled export cartons
- Delivery Time: 18-25 Days for Production, Shipping to Qatar Port Available
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Roof Cover: 850g/sqm PVC Coated Polyester Fabric
- Side Wall: 650g/sqm PVC Coated Polyester Fabric
- Wind Load: Up To 100km/h (Customizable)
- UV Protection: 95% UV Block Rate
- Warranty: 5 Years Frame, 3 Years Fabric
- Target Market: Qatar / Middle East
- Highlight:
 - Aluminum alloy party marquee tent,
 - Waterproof PVC coated canopy,
 - Corporate exhibition marquee tent

Product Description

Our P

Engineered for Qatar's Premium Event Market — Combining Durability, Elegance, and Climate Adaptability

5-Year Warranty

Factory Direct

TUV Certified

Qatar Market Specialized

Product Overview

Tailored for Qatar's thriving exhibition and corporate event sector, this premium Party Marquee Tent delivers a professional-grade temporary structure solution. The heavy-duty aluminum alloy T6061/T6 frame paired with fully waterproof PVC coated polyester canopy ensures reliable performance at trade shows, product launches, corporate gatherings, and business conferences across Doha and beyond. With rapid deployment capability and customizable branding options, it serves as the perfect temporary venue for Qatari businesses seeking a polished, weather-resistant exhibition space.

Manufactured by **Tendars**, a trusted name with **over 10 years of industry experience** in designing and producing premium marquee tents for the Middle East market. Our Party Marquee Tents are specifically optimized for Qatar's unique climate conditions — combining UV-resistant material, stable aluminum alloy frames, and elegant designs that meet the high standards of Qatari event organizers, wedding planners, and hospitality businesses.

Technical Specifications

Parameter	Specification
Product Name	Premium Party Marquee Tent for Corporate Exhibitions
Frame Material	Hard Pressed Aluminum Alloy T6061/T6
Roof Cover	850g/sqm Waterproof PVC Coated Polyester Fabric
Side Wall	650g/sqm PVC Coated Polyester Fabric
Fabric Color Options	White, Gray, Transparent, or Custom Printed
Connectors	Hot-Dip Galvanized Twin Plate with Expansion Bolts
Wind Load Rating	Up to 100km/h (Customizable)
Waterproof Rating	100% Waterproof with Heat-Sealed Seams
Temperature Range	-30°C to +55°C Operating Range
Flame Retardancy	NFPA 701 / DIN 4102 B1 Certified
Accessories	Glass Door, PVC Windows, Rain Gutter, Flooring System, Cable Management, Lighting Truss, Weight Plates
Application	Qatar Exhibitions, Trade Shows, Corporate Events, Product Launches
Warranty	5-Year Structural Frame Warranty, 3-Year Fabric Warranty

Key Product Advantages

Professional Exhibition Design

Clear span interior with high ceiling clearance ideal for display booths, product demonstrations, and corporate branding installations at Qatari trade shows.

Complete Waterproof Protection

Double-sealed seams and 850g/sqm PVC fabric ensure 100% waterproof performance — protecting valuable exhibition displays and electronics from unexpected rain.

Branding Ready Walls

Solid PVC sidewall panels provide excellent surfaces for corporate branding, logo printing, and marketing graphics — maximizing brand visibility at exhibitions.

Heavy Duty Flooring Compatible

Frame designed to accommodate raised flooring systems, cable management, and heavy exhibition equipment — ideal for professional trade show set

Quick Deploy & Dismantle

Modular component system allows a 100sqm exhibition tent to be fully assembled in one working day, minimizing venue rental costs.

Multi-Configuration Flexibility

Expandable modular design connects multiple units to create large exhibition halls. Compatible with glass wall systems for premium corporate aesthetic

Qatar Market Performance Highlights

UV Protection: Double-layer PVC fabric with UV stabilizers blocks up to 95% of harmful UV rays — critical for Qatar's intense sun exposure.

Heat Resistance: Engineered to withstand ambient temperatures up to 55°C (131°F) without structural degradation.

Wind Stability: Aerodynamic design with galvanized connectors withstands desert winds up to 100km/h.

Sand & Dust Protection: Tight-seal sidewall connections prevent fine desert sand penetration.

Cultural Adaptability: Modular sidewall system supports privacy partitions for segregated event spaces.

Production Process & CNC Manufacturing

At Tendars, every Party Marquee Tent is manufactured through a precision-driven production process utilizing advanced **CNC (Computer Numerical Control) machinery** to ensure consistent quality and tight tolerances.

1

Material Inspection

Incoming aluminum alloy T6061/T6 and PVC fabric undergo rigorous quality checks.

2

CNC Cutting

Aluminum profiles precisely cut to length using CNC sawing machines with $\pm 0.3\text{mm}$ tolerance.

3

CNC Drilling & Milling

Connection holes drilled by CNC machining centers for perfect alignment

4

Welding & Assembly

Frame components welded and assembled by certified technicians

5

Fabric Cutting & Sealing

PVC fabric cut by CNC automated cutting tables, heat-sealed for waterproof integrity

6

Quality Inspection

Full structural test assembly with QC checkpoints at every stage

7

Packaging & Labeling

Professional packaging with detailed labeling for international shipping

8

Container Loading

Optimized container loading to minimize shipping costs to Qatar

Certifications & Test Reports

Our Party Marquee Tents undergo strict third-party testing and hold internationally recognized certifications, ensuring full compliance with Qatar's and safety standards.

TÜV SÜD

Product safety and quality certification. Structural load testing, material flame retardancy (NFPA 701), and wind resistance validation.

ISO 9001:2015

Quality management system certification covering design, manufacturing, and after-sales service processes.

SGS

Independent third-party testing for material composition, UV aging resistance, and structural integrity verification.

CE Marking

European conformity assessment confirming compliance with EU health, safety, and environmental standards.

Flame Retardant Test

PVC fabric certified to NFPA 701 and DIN 4102 B1 flame retardant standards for public event safety.

Wind Load Test Report

Structural wind resistance tested and certified up to 100km/h with full engineering calculation reports.

Pre-Sales & After-Sales Service

Pre-Sales Consultation

Dedicated project manager to assess your event requirements, venue conditions, and Qatari local regulations. Free 3D layout design and engineering calculations.

Custom Design Support

Custom colors, branding, size configurations, and accessory selection. CAD drawings provided for client approval before production.

Logistics Coordination

Full shipping support to Doha Port and Hamad Port. All customs documentation prepared. Container optimization for cost efficiency.

Installation Guidance

Detailed installation manuals and video tutorials. Optional on-site installation team dispatch to Qatar available upon request.

5-Year Structural Warranty

Aluminum frame covered by 5-year structural warranty. PVC fabric covered by 3-year warranty against manufacturing defects.

24/7 After-Sales Support

Dedicated support team available via WhatsApp, email, and phone. Spare parts shipped within 48 hours when needed.

Frequently Asked Questions

Q: Can I print my company logo on the tent?

A: Absolutely. Our PVC fabric sidewalls support high-quality custom printing. You can display your company logo, brand colors, and marketing message directly on the tent exterior and interior walls.

Q: How many people can the exhibition tent accommodate?

A: Our modular system scales from 25sqm (approximately 20-30 people) to multi-module complexes of 500+sqm (500+ people). We design each configuration based on your specific exhibition requirements.

Q: Is the tent suitable for indoor exhibition hall use as well?

A: Yes. Our tents work excellently both outdoors and indoors. For indoor exhibitions, we offer lower-profile frame options and specialized flooring interfaces.

Q: What about electricity and lighting?

A: The frame structure includes integrated channels for cable routing. We offer compatible lighting truss systems, electrical distribution accessories, and integration for climate-controlled exhibition environments.

Q: Do you provide CAD drawings for event planning?

A: Yes, our engineering team provides free CAD layout drawings and 3D renderings based on your venue dimensions and requirements before production.
