

## Custom Party Marquee Tent Fire Retardant PVC Fabric Galvanized Connectors for Qatar Garden Celebrations

Our Product Introduction

for more products please visit us on [marquees-tent.com](http://marquees-tent.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, SGS, CE, NFPA 701
- Model Number: PMT-QR25
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame packed in protective bubble film; PVC fabric roof and sidewalls packed in heavy-duty carry bags; hardware in labeled export cartons
- Delivery Time: 18-25 Days for Production, Shipping to Qatar Port Available
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50000 Square Meters per Month

### Product Specification

- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Roof Cover: 850g/sqm PVC Coated Polyester Fabric
- Side Wall: 650g/sqm PVC Coated Polyester Fabric
- Wind Load: Up To 100km/h (Customizable)
- UV Protection: 95% UV Block Rate
- Warranty: 5 Years Frame, 3 Years Fabric
- Target Market: Qatar / Middle East
- Highlight: **Custom Party Marquee Tent Fire Retardant,**

**PVC Fabric Marquee Tent Galvanized Connectors**

**Party Marquee Tent for Garden Celebrations**

### Product Description

Our P

Engineered for Qatar's Premium Event Market — Combining Durability, Elegance, and Climate Adaptability

5-Year Warranty

Factory Direct

TUV Certified

Qatar Market Specialized

## Product Overview

Specially designed for Qatar's residential and commercial garden celebration market, this custom Party Marquee Tent offers a perfect balance of aesthetics, and practicality. The fire-retardant PVC coated polyester fabric meets stringent NFPA 701 and DIN 4102 B1 standards — essential for use in residential areas and hotel grounds. Hot-dip galvanized steel connectors provide exceptional corrosion resistance in Qatar's coastal humidity. Ideal for garden parties, birthday celebrations, anniversary events, hotel poolside functions, and residential compound gatherings across Doha and beyond.

Manufactured by **Tendars**, a trusted name with **over 10 years of industry experience** in designing and producing premium marquee tents for the Middle East market. Our Party Marquee Tents are specifically optimized for Qatar's unique climate conditions — combining UV-resistant material, stable aluminum alloy frames, and elegant designs that meet the high standards of Qatari event organizers, wedding planners, and hospitality businesses.

## Technical Specifications

Parameter	Specification
Product Name	Custom Party Marquee Tent for Garden Celebrations
Frame Material	Hard Pressed Aluminum Alloy T6061/T6
Roof Cover	850g/sqm Fire Retardant PVC Coated Polyester Fabric
Side Wall	650g/sqm Fire Retardant PVC Coated Polyester Fabric
Fabric Color Options	White, Beige, Sage Green, or Customized
Connectors	Hot-Dip Galvanized Twin Plate (Corrosion Resistant)
Wind Load Rating	Up to 100km/h (Certified)
UV Protection	95% UV Block Rate
Temperature Range	-30°C to +55°C Operating Range
Flame Retardancy	NFPA 701 Certified / DIN 4102 B1 Certified
Corrosion Resistance	Hot-Dip Galvanized Connectors, Salt Spray Tested
Accessories	PVC Windows, Glass Door, Rain Gutter, Garden Stakes, Weight Plates, Lining, Flooring System
Application	Qatar Garden Parties, Hotel Poolside Events, Compound Celebrations, Birthdays, Anniversaries
Warranty	5-Year Structural Frame Warranty, 3-Year Fabric Warranty

## Key Product Advantages

### Fire Retardant Safety Certified

All PVC fabric panels certified to NFPA 701 and DIN 4102 B1 flame retardant standards — meeting Qatar Civil Defense requirements for public event safety.

### Corrosion Resistant Connectors

Hot-dip galvanized twin plate connectors resist corrosion from Qatar's coastal humidity and occasional rain, ensuring long-term structural integrity.

### Garden-Friendly Design

Compact footprint and ground-friendly anchoring options protect landscaped gardens. Available in natural color schemes that complement outdoor settings.

### Residential Compound Approved

Fire safety certification and elegant aesthetics meet the strict requirements of Qatar's premium residential compounds and hotel venues.

### All-Season Versatility

Open-air configuration for Qatar's pleasant winter garden season (November-March), fully enclosed with AC for summer events — one tent for year-round use.

### Easy DIY Setup Option

Available in smaller configurations (25-50sqm) with simplified assembly instructions for residential users who prefer self-installation.

### Qatar Market Performance Highlights

**UV Protection:** Double-layer PVC fabric with UV stabilizers blocks up to 95% of harmful UV rays — critical for Qatar's intense sun exposure.

**Heat Resistance:** Engineered to withstand ambient temperatures up to 55°C (131°F) without structural degradation.

**Wind Stability:** Aerodynamic design with galvanized connectors withstands desert winds up to 100km/h.

**Sand & Dust Protection:** Tight-seal sidewall connections prevent fine desert sand penetration.

**Cultural Adaptability:** Modular sidewall system supports privacy partitions for segregated event spaces.

## Production Process & CNC Manufacturing

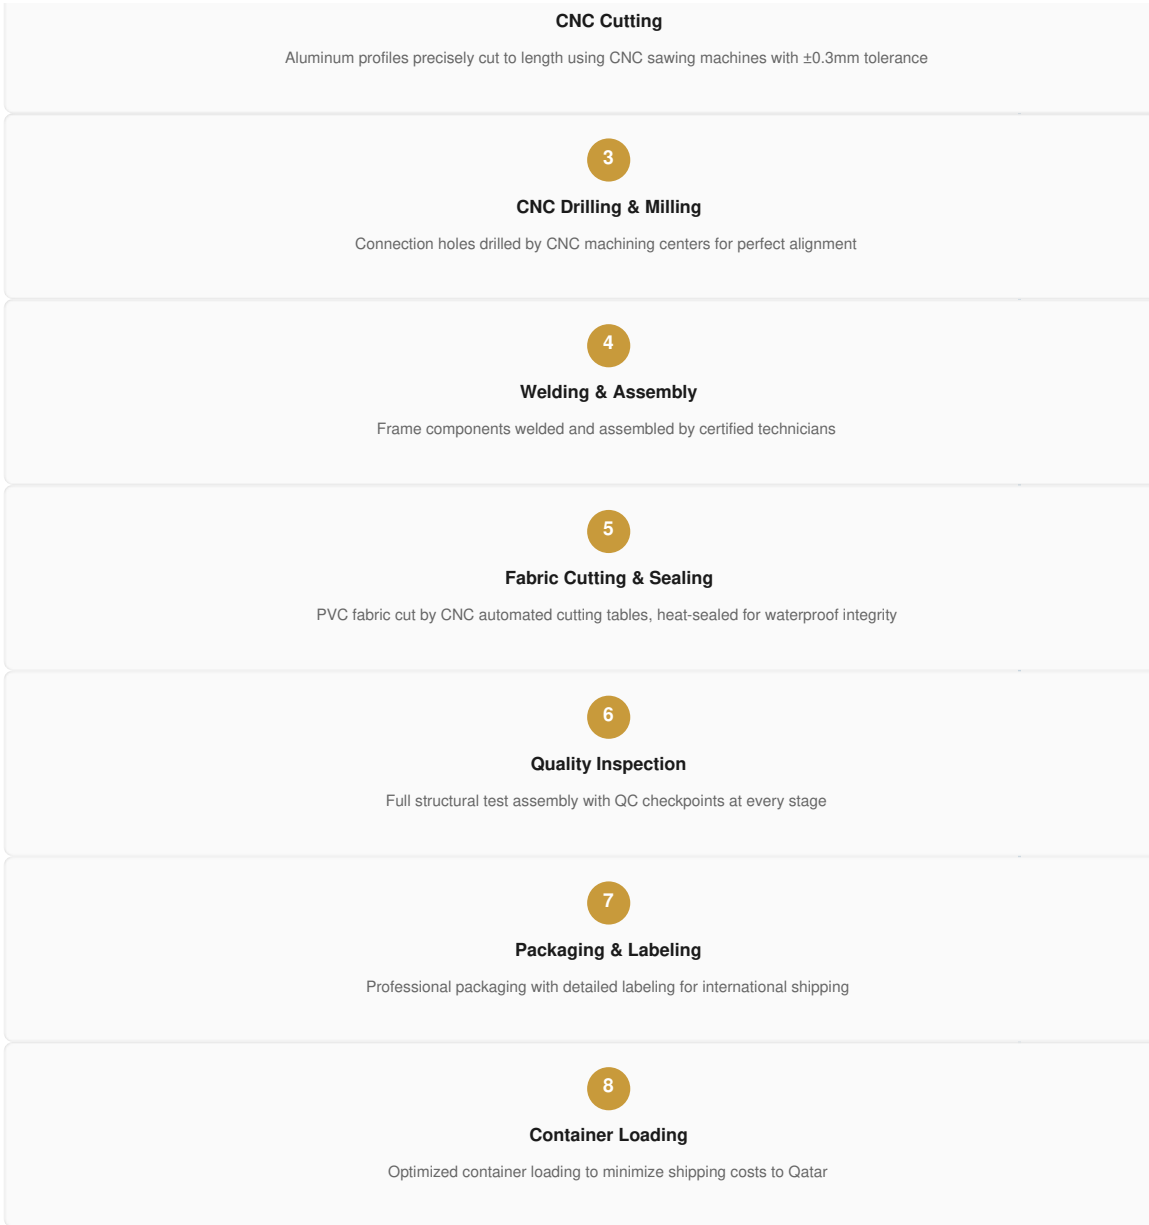

At Tendars, every Party Marquee Tent is manufactured through a precision-driven production process utilizing advanced **CNC (Computer Numerical Control) machinery** to ensure consistent quality and tight tolerances.

1

#### Material Inspection

Incoming aluminum alloy T6061/T6 and PVC fabric undergo rigorous quality checks.

2

## Factory & Enterprise Strength

<b>10+</b> Years of Manufacturing Experience

## Certifications & Test Reports

Our Party Marquee Tents undergo strict third-party testing and hold internationally recognized certifications, ensuring full compliance with Qatar's and safety standards.

### TÜV SÜD

Product safety and quality certification. Structural load testing, material flame retardancy (NFPA 701), and wind resistance validation.

### ISO 9001:2015

Quality management system certification covering design, manufacturing, and after-sales service processes.

### SGS

Independent third-party testing for material composition, UV aging resistance, and structural integrity verification.

### CE Marking

European conformity assessment confirming compliance with EU health, safety, and environmental standards.

### Flame Retardant Test

PVC fabric certified to NFPA 701 and DIN 4102 B1 flame retardant standards for public event safety.

### Wind Load Test Report

Structural wind resistance tested and certified up to 100km/h with full engineering calculation reports.

## Pre-Sales & After-Sales Service

### Pre-Sales Consultation

Dedicated project manager to assess your event requirements, venue conditions, and Qatari local regulations. Free 3D layout design and engineering calculations.

### Custom Design Support

Custom colors, branding, size configurations, and accessory selection. CAD drawings provided for client approval before production.

### Logistics Coordination

Full shipping support to Doha Port and Hamad Port. All customs documentation prepared. Container optimization for cost efficiency.

### Installation Guidance

Detailed installation manuals and video tutorials. Optional on-site installation team dispatch to Qatar available upon request.

### 5-Year Structural Warranty

Aluminum frame covered by 5-year structural warranty. PVC fabric covered by 3-year warranty against manufacturing defects.

### 24/7 After-Sales Support

Dedicated support team available via WhatsApp, email, and phone. Spare parts shipped within 48 hours when needed.

## Frequently Asked Questions

#### Q: Is this tent safe for use near residential buildings?

A: Yes. Our PVC fabric is certified to NFPA 701 and DIN 4102 B1 fire retardant standards, making it approved for use near residential buildings, hotels, compounds. We provide fire safety certificates with every purchase.

#### Q: Will the frame rust in Qatar's coastal humidity?

A: No. All steel connectors are hot-dip galvanized — a process that provides superior corrosion protection. Additionally, the aluminum frame is naturally corrosion-resistant. Both materials have passed salt spray testing.

#### Q: What sizes are available for garden use?

A: We offer configurations starting from 5m\*5m (25sqm) up to 15m\*20m (300sqm). Smaller configurations include simplified assembly guides suitable for setup.

#### Q: Can the tent be installed on grass without damaging the garden?

A: Yes. We provide ground-friendly anchoring options including surface weight plates that require no ground penetration. After removal, the grass recovers quickly with no permanent damage.

#### Q: Do you offer tent rental programs in Qatar?

A: We are a factory-direct manufacturer specializing in tent sales. However, we can connect you with our rental partners in Qatar who stock our products for short-term event rentals.
