

Custom Party Marquee Tent Fire Retardant PVC Fabric Galvanized Connectors for Kuwait Garden Celebrations

Our Product Introduction

for more products please visit us on marquees-tent.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, SGS, CE, NFPA 701
- Model Number: PMT-KW25
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame packed in protective bubble film; PVC fabric roof and sidewalls packed in heavy-duty carry bags; hardware in labeled export cartons with Arabic-English labeling
- Delivery Time: 18-25 Days for Production, Shipping to Kuwait Port Available
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Roof Cover: 850g/sqm PVC Coated Polyester Fabric
- Side Wall: 650g/sqm PVC Coated Polyester Fabric
- Wind Load: Up To 100km/h (Customizable)
- UV Protection: 95% UV Block Rate
- Warranty: 5 Years Frame, 3 Years Fabric
- Target Market: Kuwait / GCC
- Highlight: fire retardant PVC marquee tent,
galvanized connectors party tent,
Kuwait garden celebration marquee

Product Description

Our P

Engineered for Kuwait's Premium Event Market — Built to Withstand Desert Extremes with Elegance and Reliability

5-Year Warranty

Factory Direct

TUV Certified

Kuwait Market Specialized

Product Overview

Specially designed for Kuwait's residential and commercial garden celebration market, this custom Party Marquee Tent offers a perfect combination of safety, elegance, and practicality. The fire-retardant PVC coated polyester fabric meets stringent NFPA 701 and DIN 4102 B1 standards — essential for events held in Kuwait's residential compounds, hotel grounds, and chalet areas. Hot-dip galvanized steel connectors provide exceptional corrosion resistance against Kuwait's coastal Arabian Gulf humidity. Ideal for garden parties, birthday celebrations, chalet gatherings along the Gulf Road, poolside events, and residential compound functions across Kuwait City and beyond.

Manufactured by **Tendars**, a trusted manufacturer with **over 10 years of industry experience** in designing and producing premium marquee tents across the GCC region. Our Party Marquee Tents are purpose-engineered for Kuwait's demanding environment — featuring enhanced UV protection for intense summer heat, corrosion-resistant galvanized steel connectors for coastal humidity, and wind-stable aluminum alloy frames tested for desert conditions. Every tent is backed by TUV SUD certification and a 5-year structural warranty.

Technical Specifications

Parameter	Specification
Product Name	Custom Party Marquee Tent for Kuwait Garden Celebrations
Frame Material	Hard Pressed Aluminum Alloy T6061/T6
Roof Cover	850g/sqm Fire Retardant PVC Coated Polyester Fabric
Side Wall	650g/sqm Fire Retardant PVC Coated Polyester Fabric
Fabric Color Options	White, Beige, Sage Green, Sand, or Customized
Connectors	Hot-Dip Galvanized Twin Plate (Salt Spray Tested)
Wind Load Rating	Up to 100km/h (Certified)
UV Protection	95% UV Block Rate
Temperature Range	-30°C to +55°C Operating Range
Flame Retardancy	NFPA 701 Certified / DIN 4102 B1 Certified
Corrosion Resistance	Hot-Dip Galvanized Connectors, 500+ Hour Salt Spray Tested
Accessories	PVC Windows, Glass Door, Rain Gutter, Garden Stakes, Weight Plates, Lining, Flooring System
Application	Kuwait Garden Parties, Chalet Gatherings, Hotel Poolside Events, Compound Celebrations, Birthdays, Anniversaries
Warranty	5-Year Structural Frame Warranty, 3-Year Fabric Warranty

Key Product Advantages

Fire Retardant Safety Certified

All PVC fabric panels certified to NFPA 701 and DIN 4102 B1 flame retardant standards — meeting Kuwait Fire Department requirements for events near residential buildings and hotel properties.

Coastal Corrosion Protection

Hot-dip galvanized twin plate connectors with salt spray tested corrosion resistance protect against Kuwait's coastal humidity along the Arabian Gulf — ensuring long-term structural integrity.

Garden-Friendly Installation

Compact footprint and ground-friendly surface weight plate anchoring protect landscaped gardens and villa grounds. Available in natural color schemes complement Kuwait's outdoor living spaces.

Residential Compound Approved

Fire safety certification and elegant aesthetics meet the strict requirements of Kuwait's premium residential compounds, beach chalets, and five-star hotel venues.

All-Season Kuwait Versatility

Open-air configuration for Kuwait's pleasant winter outdoor season (November-March), fully enclosed with AC for summer celebrations — one tent delivering year-round event capability.

DIY Setup Option Available

Smaller configurations (25-50sqm) include simplified Arabic-English bilingual assembly instructions for residential users who prefer self-installation at private chalets and gardens.

Kuwait Market Performance Highlights

Extreme UV Protection: Double-layer PVC fabric with advanced UV stabilizers blocks 95% of harmful solar radiation — essential for Kuwait's summer temperatures exceeding 50°C

Coastal Corrosion Resistance: Hot-dip galvanized connectors and aluminum alloy frame resist salt-laden humidity from the Arabian Gulf

Sandstorm Defense: Tight-seal sidewall connections and ground-level sand skirts prevent fine desert sand infiltration during Kuwait's seasonal shamal winds

Fire Safety Compliance: All PVC fabrics certified to NFPA 701 and DIN 4102 B1 standards — meeting Kuwait Fire Department requirements for public venues

Cultural Design Adaptability: Modular partition systems support Kuwaiti cultural preferences for separate family and guest seating areas

Production Process & CNC Manufacturing

At Tendars, every Party Marquee Tent is manufactured through a precision-driven production process utilizing advanced **CNC (Computer Numerical Control) machinery** to ensure consistent quality and tight tolerances for the demanding Kuwait market.

1

Material Inspection

Incoming aluminum alloy T6061/T6 and PVC fabric undergo rigorous quality checks against GCC standards

2

CNC Cutting

Aluminum profiles precisely cut to length using CNC sawing machines with ± 0.3 mm tolerance

3

CNC Drilling & Milling

Connection holes drilled by CNC machining centers for perfect frame alignment

4

Welding & Assembly

Frame components welded and assembled by certified technicians with quality checkpoints

5

Fabric Cutting & Sealing

PVC fabric cut by CNC automated cutting tables, high-frequency heat-sealed for waterproof integrity

6

Quality Inspection

Full structural test assembly with wind load simulation and waterproof testing

7

Packaging & Labeling

Professional export packaging with bilingual English-Arabic labeling for Kuwait customs

8

Container Loading

Optimized container loading to minimize shipping costs to Shuwaikh Port, Kuwait

Certifications & Test Reports

Our Party Marquee Tents undergo rigorous third-party testing and hold internationally recognized certifications, ensuring full compliance with Kuwait import regulations and municipal safety standards.

TÜV SÜD

Comprehensive product safety and quality certification. Structural load testing, material flame retardancy verification, and wind resistance validation for Kuwait conditions.

ISO 9001:2015

Quality management system certification covering design, manufacturing, and after-sales service processes for international markets.

SGS

Independent third-party testing for material composition, UV aging resistance, salt spray corrosion testing, and structural integrity verification.

CE Marking

European conformity assessment confirming compliance with EU health, safety, and environmental standards recognized in Kuwait.

Flame Retardant Test

PVC fabric certified to NFPA 701 and DIN 4102 B1 flame retardant standards — meeting Kuwait Fire Department public event safety requirements.

Wind Load Test Report

Structural wind resistance tested and certified up to 100km/h with full engineering calculation reports for Kuwait's seasonal wind conditions.

Pre-Sales & After-Sales Service

Pre-Sales Consultation

Dedicated project manager to assess your event requirements, venue conditions in Kuwait, and local municipal regulations. Free 3D layout design and engineering calculations provided.

Custom Design Support

Custom colors, Arabic calligraphy branding, size configurations, and accessory selection. CAD drawings provided for client approval before production begins.

Kuwait Logistics Coordination

Full shipping support to Shuwaikh Port and Shuaiba Port. All Kuwait customs documentation prepared including Certificate of Origin and SASO compliance certificates.

Installation Guidance

Detailed installation manuals with Arabic translation and video tutorials. Optional on-site installation team dispatch to Kuwait City and surrounding areas available upon request.

5-Year Structural Warranty

Aluminum frame covered by 5-year structural warranty against manufacturing defects. PVC fabric covered by 3-year warranty. Warranty service available for Kuwait-based clients.

24/7 After-Sales Support

Dedicated support team available via WhatsApp, email, and phone. Spare parts shipped to Kuwait within 48 hours. Arabic-speaking support representative available.

Frequently Asked Questions

Q: Is this tent safe for use at Kuwait residential compounds?

A: Yes. Our PVC fabric is certified to NFPA 701 and DIN 4102 B1 fire retardant standards, making it approved for use near residential buildings, hotels, and compounds throughout Kuwait. We provide fire safety certificates with every purchase.

Q: Will the frame rust in Kuwait's coastal humidity?

A: No. All steel connectors undergo hot-dip galvanization — a process providing superior corrosion protection. Additionally, the aluminum frame is naturally corrosion-resistant. Both have passed 500+ hour salt spray testing for Gulf coastal environments.

Q: What sizes are available for garden and chalet use?

A: We offer configurations starting from 5m*5m (25sqm) up to 15m*20m (300sqm). Smaller configurations include simplified bilingual assembly guides suitable for DIY setup at private chalets and gardens.

Q: Can the tent be installed on landscaped gardens without damage?

A: Yes. We provide surface weight plate anchoring options that require zero ground penetration. After removal, grass recovers quickly with no permanent damage to Kuwait's carefully maintained villa gardens.

Q: Do you offer tent rental programs in Kuwait?

A: We are a factory-direct manufacturer specializing in tent sales. However, we can connect you with our rental partners in Kuwait City who stock our products for short-term event rentals at chalets and residential compounds.

Ready to Elevate Your Kuwait Event Experience?

Contact our GCC market specialist today for a customized quotation and free 3D layout design tailored to your Kuwait venue.
