

Heavy Duty Party Marquee Tent Aluminum Frame Structure PVC Fabric for Malaysia Outdoor Festival Events

Our Product Introduction

for more products please visit us on marquees-tent.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: TUV SUD, ISO 9001:2015, SGS, CE, NFPA 701
- Model Number: PMT-MY25
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame packed in protective bubble film; PVC fabric roof and sidewalls packed in heavy-duty carry bags; hardware in labeled export cartons with trilingual labeling
- Delivery Time: 8-12 Days Shipping to Port Klang Malaysia, Production 18-25 Days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Roof Cover: 850g/sqm PVC Coated Polyester Fabric
- Side Wall: 650g/sqm PVC Coated Polyester Fabric
- Wind Load: Up To 100km/h (Customizable)
- UV Protection: 95% UV Block Rate
- Warranty: 5 Years Frame, 3 Years Fabric
- Target Market: Malaysia / Southeast Asia
- Highlight: **Heavy Duty Party Marquee Tent,**
Aluminum Frame Marquee Tent,
PVC Fabric Outdoor Festival Tent

Product Description

Our P

Engineered for Malaysia's Tropical Event Market — Built for Monsoon Resilience, Cultural Versatility, and Year-Round Performance

5-Year Warranty

Factory Direct

TUV Certified

Malaysia Market Specialized

Product Overview

Purpose-engineered for Malaysia's thriving outdoor festival and event scene, this heavy-duty Party Marquee Tent delivers reliable, all-weather performance for pasar malam (night markets), food festivals, music events, community celebrations, and outdoor bazaars across Malaysia. The reinforced aluminum alloy T6061/T6 frame with enhanced waterproof PVC fabric ensures dependable shelter through Malaysia's tropical conditions from blazing afternoon sun to sudden evening thunderstorms. Designed for both short-term festival deployments and extended bazaar seasons, it combines rapid setup capability with the durability required for Malaysia's year-round outdoor event calendar.

Manufactured by **Tendars**, a trusted manufacturer with **over 10 years of industry experience** in designing and producing premium marquee tents for the Southeast Asian market. Our Party Marquee Tents are purpose-engineered for Malaysia's tropical environment — featuring enhanced waterproofing for monsoon downpours, corrosion-resistant components for high humidity conditions, and modular designs adaptable to Malaysia's diverse multi-event landscape spanning weddings, corporate functions, religious celebrations, and outdoor festivals.

Technical Specifications

Parameter	Specification
Product Name	Heavy Duty Party Marquee Tent for Malaysia Outdoor Festivals
Frame Material	Reinforced Hard Pressed Aluminum Alloy T6061/T6
Roof Cover	850g/sqm Waterproof PVC Coated Polyester Fabric
Side Wall	650g/sqm PVC Coated Polyester Fabric (Removable)
Fabric Color Options	White, Blue, Red, Yellow, or Customized
Connectors	Hot-Dip Galvanized Twin Plate with Quick-Lock System
Wind Load Rating	Up to 100km/h (Certified)
Waterproof Rating	100% Waterproof with Heat-Sealed Seams
UV Protection	95% UV Block Rate
Temperature Range	-30°C to +55°C Operating Range
Flame Retardancy	NFPA 701 / DIN 4102 B1 Certified
Accessories	Removable Sidewalls, PVC Windows, Rain Gutter, Partition System, Weight Plates, Ground Stakes, Lighting Points
Application	Malaysia Pasar Malam, Food Festivals, Music Events, Ramadan Bazaars, CNY Markets, Community Celebrations
Warranty	5-Year Structural Frame Warranty, 3-Year Fabric Warranty

Key Product Advantages

All-Weather Festival Protection

Heavy-duty waterproof PVC fabric with UV-resistant coating protects vendors, guests, and equipment from both intense tropical sun and sudden monsoon downpours during outdoor Malaysian festivals.

Rapid Festival Deployment

Modular frame with quick-lock connectors enables a standard 50sqm unit to be assembled in under 3 hours by a small crew — ideal for pasar malam and weekend bazaar setups.

Flexible Open-Air Configuration

Removable sidewall panels allow fully open configurations for traditional pasar malam layouts where visibility and accessibility are essential for vendors and customers.

Food Festival Ready

Fire-retardant fabric certification and easy-clean PVC surfaces meet health and safety requirements for Malaysian food festival and bazaar environments.

Extended Deployment Durability

Robust construction with corrosion-resistant components suitable for multi-week Ramadan bazaars, Chinese New Year markets, and Deepavali festivals across Malaysia.

Multi-Vendor Partition System

Optional interior partition system creates individual vendor stalls within a single large tent structure — ideal for organized food courts and craft bazaar layouts.

Malaysia Market Performance Highlights

Monsoon-Ready Waterproofing: Double-sealed high-frequency welded seams with 850g/sqm PVC fabric ensure 100% waterproof protection during Malaysia's intense tropical downpours and monsoon seasons.

High Humidity Corrosion Resistance: Hot-dip galvanized steel connectors and aluminum alloy frame resist corrosion in Malaysia's 80% year-round humidity environment.

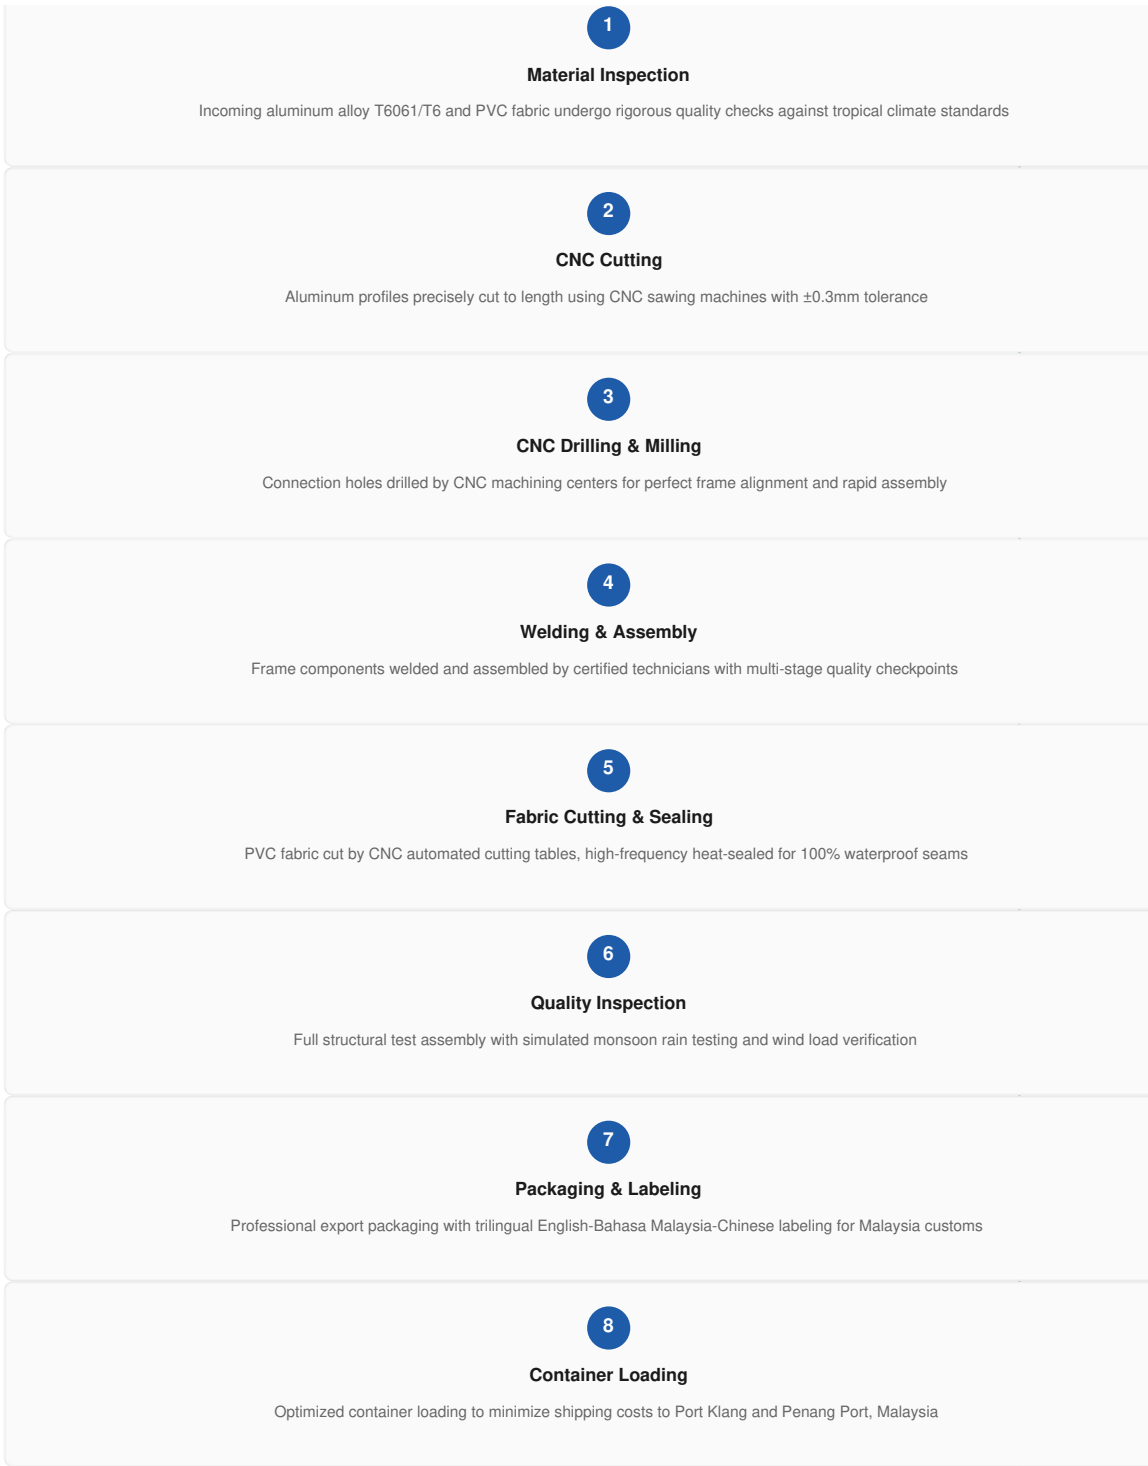

Tropical Heat Ventilation: Modular sidewall system with mesh panel options enables natural cross-ventilation for comfortable temperatures without excessive AC energy consumption.

Multicultural Event Adaptability: Flexible interior partition system supports diverse event layouts — from traditional Malay bersanding ceremonies to Chinese banquet rounds and Indian wedding mandapams.

Quick Monsoon Response: Removable sidewall panels can be deployed within minutes to enclose the tent when sudden tropical storms occur, protecting guests and equipment.

Production Process & CNC Manufacturing

At Tendars, every Party Marquee Tent is manufactured through a precision-driven production process utilizing advanced **CNC (Computer Numerical Control) machinery** to ensure consistent quality and tight tolerances for the Southeast Asian market.

Certifications & Test Reports

Our Party Marquee Tents undergo rigorous third-party testing and hold internationally recognized certifications, ensuring full compliance with Mal SIRIM standards and import regulations.

TÜV SÜD

Comprehensive product safety and quality certification. Structural load testing, material flame retardancy, and tropical climate durability validation.

ISO 9001:2015

Quality management system certification covering design, manufacturing, and after-sales service processes for international markets including ASEAN.

SGS

Independent third-party testing for material composition, UV aging resistance, humidity exposure testing, and structural integrity verification.

CE Marking

European conformity assessment confirming compliance with EU health, safety, and environmental standards recognized in Malaysia.

Waterproof Test Report

PVC fabric and seam waterproofing certified with hydrostatic pressure testing, simulating Malaysia's monsoon rain conditions.

Flame Retardant Test

PVC fabric certified to NFPA 701 and DIN 4102 B1 flame retardant standards for public event safety compliance in Malaysia.

Pre-Sales & After-Sales Service

Pre-Sales Consultation

Dedicated project manager to assess your event requirements, venue conditions, and Malaysian local council (MPK/MBPJ) regulations. Free 3D layout design and engineering calculations provided before purchase.

Custom Design Support

Custom colors, Bahasa Malaysia and Chinese character branding, size configurations, and accessory selection. CAD drawings provided for client approval before production begins.

Malaysia Logistics Coordination

Full shipping support to Port Klang, Penang Port, and Johor Port. All Malaysian customs documentation prepared including Certificate of Origin, packing lists, and SIRIM compliance certificates.

Installation Guidance

Detailed installation manuals with Bahasa Malaysia translation and step-by-step video tutorials. Optional on-site installation team dispatch to Kuala Lumpur, Penang, Johor Bahru, and major Malaysian cities.

5-Year Structural Warranty

Aluminum frame covered by 5-year structural warranty against manufacturing defects. PVC fabric covered by 3-year warranty. Warranty service and spare parts available for Malaysia-based clients.

24/7 After-Sales Support

Dedicated support team available via WhatsApp, email, and phone. Spare parts shipped to Malaysia within 48 hours. Multilingual support representative covering English, Bahasa Malaysia, and Chinese.

Frequently Asked Questions

Q: Is this tent suitable for pasar malam (night market) use?

A: Yes. Our tents are widely used for Malaysian night markets. The open-side configuration allows maximum customer visibility and foot traffic flow, while waterproof roof provides essential rain protection for vendors and products.

Q: Can the tent be set up and taken down daily?

A: For daily setup/teardown operations like weekend markets, we recommend our quick-lock frame system. A 25sqm unit can be assembled in approximately 90 minutes by a 2-person team. For longer events like Ramadan bazaars, the tent can remain deployed for the entire month.

Q: Is the fabric easy to clean after food festivals?

A: Yes. The PVC coated polyester fabric has a smooth, non-porous surface that can be easily wiped clean with mild detergent and water. For heavy use food festivals, we recommend periodic cleaning to maintain appearance.

Q: Can individual vendor stalls be created within one large tent?

A: Yes. Our modular partition system allows creating separate vendor stalls within a single large tent structure. Each stall can have its own entrance, and partitions can be configured to your bazaar layout requirements.

Q: What sizes are available for festival use?

A: We offer festival configurations from 5m*5m (25sqm) single stalls to 15m*30m (450sqm) multi-vendor bazaar complexes. Popular Malaysian pasar m:

configurations include 5m*10m and 10m*10m units.
