

Heavy Duty PVC Party Marquee Tent Thailand Commercial Event Exhibition Trade Fair Canopy Shelter

Our Product Introduction

for more products please visit us on marquees-tent.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ECER
- Certification: TUV, ISO 9001:2015
- Model Number: PMT-TH03-HD
- Minimum Order Quantity: 1 Set
- Price: USD 800-5000 / Set
- Packaging Details: Palletized industrial packaging with PE wrap, steel-banded export cartons, moisture-proof desiccant included
- Delivery Time: 10-20 working days after order confirmation
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 300 Sets per Month

Product Specification

- Frame Material: 6061-T6 Aluminum Alloy (64mm Heavy-Duty)
- Fabric Material: 900g/m² Reinforced PVC Laminated Fabric
- Waterproof Rating: 100% Waterproof (EN 20811)
- Fire Rating: B1/M2 Flame Retardant Certified
- UV Protection: UPF 50+ UV Block
- Wind Resistance: Up To 100km/h (Commercial Anchoring)
- Frame Diameter: 64mm Heavy-Duty Main Pole
- Temperature Range: -30°C To +70°C
- Highlight: **Heavy Duty PVC Party Marquee Tent, Commercial Event Exhibition Canopy Shelter, Trade Fair Marquee Tent with Warranty**

Our Prod

Product Description

Our **Heavy Duty PVC Party Marquee Tent** is purpose-built for Thailand demanding commercial event industry. Whether you are exhibitor

at IMPACT Muang Thong Thani, hosting a product launch at BITEC Bangna, operating a weekend market stall at Chatuchak, or expanding your restaurant outdoor dining area in Bangkok, this commercial-grade tent delivers the durability and compliance required. With 900g/m² reinforced PVC fabric, 64mm heavy-duty aluminum frame, and full B1/M2 fire certification, it meets Thailand strict commercial venue safe standards for semi-permanent installations.

Thailand Commercial Grade: B1/M2 fire certification essential for Thailand exhibition halls and F&B venues. 64mm heavy-duty frame with 100km/h wind rating for Bangkok seasonal storms. 900g/m² reinforced fabric handles daily commercial foot traffic and frequent setup cycles.

64mm Heavy-Duty Frame

Upgraded 64mm diameter 6061-T6 aluminum poles with reinforced steel-core connectors. 40% stronger than standard frames for Thailand commercial semi-permanent installations.

900g/m² Reinforced PVC Fabric

Industrial-grade cross-weave reinforced PVC fabric with 3x tear resistance of standard material. Built for daily commercial use in high-traffic Thailand exhibition and market environments.

B1/M2 Fire Safety Certified

Full B1/M2 and EN 13501-1 flame retardant certification. Mandatory for Thailand exhibition halls, shopping malls, and F&B venues requiring fire safety compliance documentation.

100km/h Wind Resistance

Commercial-grade anchoring system with ground stakes and concrete weight plates. Withstands Bangkok seasonal storms and sudden tropical squalls at 100km/h.

100% Waterproof for Inventory Protection

Triple heat-welded seams on 900g/m² fabric with EN 20811 certification. Protects valuable exhibition displays, merchandise, and electronics from Thailand sudden rain.

Semi-Permanent Deployment Ready

Designed for continuous 6-12 month outdoor deployment. UV-stabilized fabric and anti-corrosion frame withstand Thailand year-round tropical exposure for F&B extensions and market stalls.

Parameter	Specification
Frame Material	6061-T6 Aluminum Alloy (Anodized)
Frame Diameter	64mm Heavy-Duty Main Pole
Fabric Material	900g/m² Reinforced PVC Laminated Fabric
Waterproof Rating	100% Waterproof (EN 20811 Certified)
UV Protection	UPF 50+ (Blocks 98% UV Radiation)
Wind Resistance	Up to 100km/h (Beaufort Scale 10)
Fire Rating	B1/M2 Flame Retardant (EN 13501-1)
Connector Type	Reinforced Steel-Core Aluminum Joints
Anchoring System	Ground Stakes + Concrete Weight Plates
Temperature Range	-30°C to +70°C

Heavy-duty commercial manufacturing with 12-stage CNC-precision quality protocol.

1

Premium Material Procurement

Sourcing 6061-T6 aluminum billets and 900g/m² reinforced PVC fabric. All materials certified for tensile strength, fire retardancy, UV resistance, and tear resistance.

2

CNC Heavy-Duty Tube Cutting

64mm aluminum tubes precision-cut to ±0.1mm using industrial 5-axis CNC machining centers for perfect structural geometry.

3

CNC Joint Machining

Reinforced steel-core aluminum connectors machined with CNC precision. Each joint tested for 500kg+ load capacity for commercial safety margins.

4

Industrial Anodizing

20µm heavy-duty anodized coating for maximum corrosion protection in Thailand tropical humidity and coastal environments.

5

Reinforced Fabric Cutting & Welding

900g/m² PVC fabric CNC-cut and triple-seam heat-welded with reinforced edge binding. Tear strength 3x standard tent fabric.

6

Fire Retardant Treatment

Industrial B1/M2 flame retardant applied and tested per EN 13501-1 standards. Certification documentation provided for Thailand venue compliance.

7

Frame Load Testing

Each frame undergoes 1.5x rated load testing. 64mm poles tested for 750kg distributed load capacity.

3

Wind Tunnel Simulation

Structural wind load testing at 100km/h equivalent. Anchoring system validated for sustained commercial deployment in Thailand conditions.

9

45-Minute Water Spray Test

Pressurized water spray at 200mm/h for 45 minutes verifying zero leakage across all triple-welded seams.

10

TUV Certification Inspection

Independent TUV Rheinland verification of EN 13782, EN 15619, EN 20811, and EN 13501-1 fire safety standards.

11

100% Component Inspection

Every frame tube, connector, fabric panel, and anchor inspected for manufacturing defects before commercial packaging.

12

Industrial Export Packaging

Palletized packaging with industrial PE wrap, steel-banded cartons, and moisture-absorbing desiccant for Thailand sea freight.

15,000m² Manufacturing Facility

State-of-the-art production base with dedicated heavy-duty frame workshop, industrial fabric welding line, and commercial testing laboratory.

Advanced CNC Equipment

5-axis CNC machining centers, industrial fabric cutters, high-frequency welding machines, and automated anodizing line for heavy-duty commercial production.

10+ Years Commercial Expertise

Over a decade supplying heavy-duty marquee tents to commercial clients across 50+ countries including Thailand exhibition organizers, F&B groups, and retail chains.

300 Heavy-Duty Sets Monthly

Dedicated commercial production line with 300+ heavy-duty sets per month. Capable of handling large Thailand trade fair and government tender orders.

TUV Certified Quality

Full TUV Rheinland certification to EN 13782, EN 15619, EN 20811, and EN 13501-1. ISO 9001:2015 quality management system.

Thailand Commercial Specialist

Dedicated Thailand B2B team with expertise in exhibition industry requirements, F&B regulations, and commercial procurement processes.

- TUV Rheinland Certified
- ISO 9001:2015
- B1/M2 Fire Retardant
- EN 13501-1 Fire Test
- EN 20811 Waterproof
- * L
- 50+ Test Report
- Wind Load 100km/h
- UV Aging 1000h+
- EN 13782 Compliant
- Frame Load Test 750kg

Complete certification package for Thailand exhibition venue compliance, F&B licensing, and commercial property approval. SGS and Bureau Veritas pre-shipment inspection welcomed.

Service Item	Coverage	Response Time
64mm Heavy-Duty Frame	5-year warranty (structural failure, corrosion)	48-Hour Response
Reinforced Connectors	5-year warranty (breakage, deformation)	48-Hour Response
900g/m² PVC Fabric	3-year warranty (tear, UV degradation, delamination)	48-Hour Response
Anchoring System	5-year warranty (corrosion, structural failure)	48-Hour Response
Spare Parts Supply	10-year guaranteed spare parts availability	3-Day Dispatch
Commercial Technical Support	Lifetime free engineering consultation	24-Hour Response

Commercial Project Consultation

Expert assessment of your Thailand business requirements — exhibition booth dimensions, F&B outdoor seating capacity, market stall layout, and compliance documentation needs.

Engineering & Compliance Docs

Professional structural calculations, CAD drawings, and fire safety certification package for Thailand venue approval and commercial licensing submissions.

Thailand Commercial Logistics

Palletized shipping to Bangkok Port with domestic forwarding to all provinces. Complete commercial import documentation including Form E for ASEAN preferential tariff.

Professional Installation Team

On-site installation by trained technicians for Thailand commercial projects. Includes anchoring system setup, safety verification, and staff training.

30-Day Commercial Guarantee

Free express replacement for any manufacturing defect within 30 days. Priority dispatch for commercial operations — minimizing business downtime in Thailand.

Thailand B2B Account Manager

Dedicated account manager for Thailand commercial clients. Direct WhatsApp/Line/WeChat with 2-hour response during Thailand business hours (ICT, GMT+7).

Q: Is this tent approved for use at IMPACT and BITEC exhibition halls in Bangkok?

A: Yes. Our tent meets all fire safety requirements with B1/M2 and EN 13501-1 certification, which is the standard required by Thailand major exhibition venues. We provide complete fire certification documentation for venue submission and approval.

Q: Can this tent be used as a permanent outdoor dining area for our Bangkok restaurant?

A: Absolutely. The heavy-duty 64mm frame and 900g/m² fabric are designed for semi-permanent 6-12 month deployment. The B1/M2 fire certification meets Thailand F&B safety requirements. Many Bangkok restaurants use our commercial tents for outdoor seating extensions.

Q: What is the minimum order quantity for commercial orders to Thailand?

A: We accept orders from 1 set for trial evaluation. Wholesale pricing applies from 5+ sets. Volume discounts available for Thailand commercial fleet orders of 20+ sets. Exhibition companies typically order 10-30 sets for event inventory.

Q: Do you provide ASEAN Form E for preferential import duty?

A: Yes, we provide Certificate of Origin Form E under the ASEAN-China Free Trade Agreement (ACFTA), which can reduce or eliminate import duties for Thailand-bound shipments. Our logistics team handles all trade documentation.

Q: What certifications are included for Thailand commercial venue approval?

A: Complete package: TUV Rheinland certification, B1/M2 and EN 13501-1 fire test reports, EN 20811 waterproof certification, structural engineering calculations, wind load test reports, and ISO 9001:2015. All documents provided in English for Thailand authorities.

Q: How long is the warranty for commercial heavy-duty use?

A: 5-year comprehensive warranty on the 64mm frame and anchoring system, 3-year warranty on 900g/m² PVC fabric. Covers structural failure, corrosion, UV degradation, delamination, and manufacturing defects. Spare parts guaranteed for 10 years.

Q: What are delivery times for bulk commercial orders to Thailand?

A: Production lead time: 10-20 working days. Sea freight: 7-10 days to Bangkok Port. Air freight: 3-5 days for urgent exhibition deadlines. DDP door-to-door includes Thai customs clearance, import duties, and delivery to all provinces.

Contact our B2B team for a tailored commercial quotation, engineering documentation, and volume pricing for exhibition companies or F&B groups.
