

## Custom Party Marquee Tent Indonesia Outdoor Waterproof UV Resistant Event Canopy Pavilion for Wedding Trade Show

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WNRLN
- Certification: TUV SUD, ISO 9001:2015, CE, SGS, NFPA 701, DIN 4102 B1
- Model Number: PMT-IND-GP01
- Minimum Order Quantity: 10 Pieces
- Price: USD 180-850 / Piece
- Packaging Details: WNRLN branded export-grade corrugated carton with protective foam insert and moisture-proof wrapping, palletized for container shipping
- Delivery Time: 7-15 working days after order confirmation
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 5000 Pieces per Month

#### Product Specification

- Highlight: Custom party marquee tent waterproof, Outdoor event canopy UV resistant, Wedding trade show pavilion Indonesia

Product Description

Engineered for Indonesia's Tropical Climate — All-Weather Party Tent with TUV Certification & 5-Year Warranty  
Model: PMT-IND-SF01 | Made in Guangzhou, China | TUV Certified

Product Overview

Our **Custom Party Marquee Tent Indonesia Outdoor Waterproof UV Resistant Event Canopy Pavilion for Wedding Trade Show Exhibition** is specifically engineered for the **Indonesian market**, taking into account the tropical climate conditions including high humidity, intense UV exposure, and seasonal heavy rainfall. Constructed with premium aluminum alloy frame and high-density PVC fabric, this tent delivers exceptional durability, weather resistance, and aesthetic appeal for various outdoor applications across Indonesia — from Jakarta to Bali, Surabaya to Medan.

With **10+ years of export experience** serving Southeast Asian markets, we understand the unique requirements of Indonesian customers: competitive pricing without compromising quality, fast delivery to major ports (Tanjung Priok, Tanjung Perak), and comprehensive after-sales support. Every tent is backed by our exclusive **5-Year Structural Warranty**.

Technical Specifications

| Parameter         | Specification                                      |
|-------------------|----------------------------------------------------|
| Frame Material    | Aluminum Alloy 6061-T6, Anodized Finish            |
| PVC Fabric        | 850g/m² High-Density PVC, Double-Side Coated       |
| UV Protection     | UPF 50+, Blocks 98% UV Radiation                   |
| Waterproof Rating | 100% Waterproof, AATCC 127 Certified               |
| Wind Resistance   | Up to 100 km/h (Beaufort Scale 10)                 |
| Temperature Range | -30°C to +70°C                                     |
| Sidewall Options  | Full PVC Walls / Window Walls / Open Sides         |
| Roof Style        | Peak Roof / Multi-Layer / Transparent Skylight     |
| Connector         | Hot-Dip Galvanized Steel, Anti-Rust                |
| Available Colors  | White, Blue, Red, Green, Yellow, Custom RAL Colors |
| Setup Time        | 2 Persons, 30-60 Minutes                           |
| Packing Size      | Customized Per Order                               |
| Warranty          | 5 Years on Frame, 2 Years on PVC Cover             |

Product Advantages & Selling Points

**Tropical Climate Optimized:** Specially designed for Indonesia's high humidity and intense sunlight. UPF 50+ UV protection and 100% waterproof PVC fabric ensure year-round reliability in equatorial weather.

**Rapid Assembly Modular Design:** CNC-precision aluminum frame with slip-fit connectors enables 2 persons to set up a complete tent in under 60 minutes — no special tools required.

**TUV SUD Certified Safety:** Every structural component meets TUV testing standards for load capacity, wind resistance, and fire retardancy (NFPA 701 / DIN 4102 B1).

**Indonesian Port Logistics Ready:** Export packaging optimized for container shipping to Tanjung Priok (Jakarta), Tanjung Perak (Surabaya), and Belawan (Medan) with full customs documentation support.

**Fully Customizable:** Choose from multiple sizes, colors, sidewall configurations, and branding options. Custom printing

(logo/slogan) on roof and walls available for corporate and event branding.

**Cost-Effective Investment:** Durable construction with 5-year frame warranty minimizes replacement costs. Competitive factory-direct pricing with no middleman markup for Indonesian importers.

## TUV Certification & Quality Testing

### Certifications

- TUV SUD Certified (Product Safety)
- ISO 9001:2015 Quality Management System
- EN 13782 Temporary Structure Compliance
- CE Marking (European Conformity)
- SGS Material Test Reports Available

### Rigorous Testing

- UV Aging Test (ASTM G154) — 3000+ hours
- Water Penetration Test (AATCC 127) — Zero leakage
- Wind Load Test — Up to 100 km/h (Beaufort 10)
- Frame Load Test — 150% rated capacity
- Tensile Strength Test — PVC fabric 2800N/5cm
- Fire Retardant Test (NFPA 701 / DIN 4102 B1)

## Manufacturing Excellence — CNC Precision Production

### Step 1: CNC Aluminum Profile Cutting

Our imported **CNC machining centers** precisely cut aluminum alloy 6061-T6 profiles to exact specifications with  $\pm 0.5\text{mm}$  tolerance, ensuring perfect frame alignment and structural integrity.

### Step 2: CNC Punching & Drilling

Automated CNC punching machines create precise connection holes in aluminum tubes, guaranteeing consistent connector fit and rapid on-site assembly without any rework.

### Step 3: High-Frequency PVC Welding

Industrial high-frequency welding machines bond PVC panels with seamless, waterproof joints. Every seam is pressure-tested to ensure zero water ingress — critical for Indonesia's rainy season.

### Step 4: Surface Treatment & Coating

Aluminum frames undergo anodizing or powder coating treatment for superior corrosion resistance, essential for Indonesia's coastal and high-humidity environments.

### Step 5: Quality Inspection & Assembly

Each tent undergoes a full pre-assembly inspection before packaging. Our QC team verifies every frame connection, fabric tension, zipper function, and accessory completeness.

### Step 6: Export-Grade Packaging

Products are packed in reinforced export cartons with protective foam and moisture-proof wrapping, palletized for safe container shipping to Indonesian ports.

## Factory & Enterprise Strength

15,000 m<sup>2</sup>

Manufacturing Facility

### Our Strengths

Strategically located in Guangdong, China — close to major export ports (Shenzhen, Guangzhou)

Dedicated **R&D team** continuously improving tent designs based on market feedback from Southeast Asia

Long-term partnerships with Indonesian importers and event companies — we understand local market demands

Lean manufacturing with **CNC automation** ensures consistent quality and competitive pricing

Comprehensive inventory of spare parts ensures fast replenishment for Indonesian distributors

## Comprehensive Service Package

### Pre-Sales Service

Free professional consultation & product recommendation

Custom size & color design based on your requirements

3D rendering & layout planning for your event space

Sample available for quality evaluation before bulk order

Detailed quotation within 24 hours

Indonesia market insights & selling advice

### After-Sales Service

**5-Year Structural Warranty** on aluminum frame

2-Year warranty on PVC fabric covers

Free replacement parts for manufacturing defects

Installation video guide & printed manual included

Remote installation support via video call  
Dedicated account manager for Indonesian clients  
Spare parts available for express shipping to Indonesia

## Frequently Asked Questions (FAQ)

**Q: What is the minimum order quantity (MOQ) for Indonesia?**

A: Our standard MOQ is 10 pieces per model. For first-time Indonesian buyers, we offer trial orders starting from 5 pieces for market testing. Mixed models are welcome.

**Q: How long does shipping to Indonesia take?**

A: Sea freight to Jakarta (Tanjung Priok) typically takes 12-18 days. Air freight samples can arrive within 5-7 business days. We work with reliable freight forwarders familiar with Indonesian customs clearance.

**Q: Can you provide the tent in custom sizes and colors?**

A: Yes, we offer full customization. You can specify width, length, eave height, and peak height. Colors can be matched to RAL codes or your brand's Pantone colors. Custom printing is also available.

**Q: Do you provide installation support in Indonesia?**

A: We provide detailed installation manuals and video guides in English and Bahasa Indonesia. For large projects, we can arrange technician dispatch to Indonesia for on-site training and supervision.

**Q: What certifications do your tents have for the Indonesian market?**

A: Our tents carry TUV SUD, ISO 9001:2015, CE, SGS material test reports, and fire retardant certification (NFPA 701 / DIN 4102 B1). We can provide all certificates for Indonesian import clearance (SNI compliance assistance available).

**Q: Is the tent suitable for Indonesia's rainy season?**

A: Absolutely. Our 850g/m² PVC fabric is 100% waterproof and all seams are high-frequency welded. The peak roof design ensures rapid water runoff. We have many satisfied customers in tropical regions including Indonesia, Philippines, and Thailand.
