

All-Season Party Marquee Tent Cold Resistant Aluminum Frame Event Canopy Kazakhstan

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Marquees Tent
- Certification: TUV Rheinland, ISO 9001:2015
- Model Number: MT-KZ-A1
- Minimum Order Quantity: 1 Set
- Price: USD 600-2,800 / Set
- Packaging Details: Heavy-duty steel pallet with anti-corrosion wrap and export-grade plywood reinforcement for Kazakhstan rail freight
- Delivery Time: 15-30 working days after order confirmation
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: 6061-T6 Aluminum Alloy 48mm X 2mm
- Cover Material: 950g/m² Cold-Resistant PVC Coated Polyester
- Cold Resistance: -40°C Low-Temperature Flexibility Tested
- Wind Resistance: 90 Km/h (EN 13782 Certified)
- Snow Load Capacity: 0.4 KN/m² Reinforced Frame
- UV Protection: UV Stabilized, 3-Year Warranty
- Fire Rating: NFPA 701 / DIN 4102 B1 Available
- Connector Material: Hot-Dip Galvanized Steel Q235, 80µm Coating
- Assembly Method: Modular Push-Button Quick Connection
- Highlight: **All-season party marquee tent,
Cold resistant event canopy,
Aluminum frame party tent**

All-Season Party Marquee Tent — Kazakhstan Extreme Climate Certified

Premium Party Marquee Tent engineered for the Kazakhstan market — extreme climate durability, certified quality, rapid deployment. Ideal for outdoor weddings, corporate events, exhibitions, festivals and commercial gatherings across Kazakhstan and Central Asia.

Product Advantages & Selling Points for Kazakhstan Market

Extreme Cold Certified (-40°C)

PVC cover specially formulated with low-temperature plasticizers maintaining flexibility at -40°C — survives Kazakhstan's harsh steppe winters (Astana can reach -45°C)

Reinforced Snow Load Frame

Aluminum frame engineered for 0.4 kN/m² snow load with reinforced ridge beams — handles heavy Kazakhstan winter snowfall without deformation

Hot-Dip Galvanized Steel Connectors

80µm zinc coating provides 15+ years rust-free service in dry continental climate with seasonal precipitation

All-Season Temperature Range

Validated from -40°C winter to +40°C summer operation — single tent solution for Kazakhstan's 80°C annual temperature swing

Steppe Wind Engineered

Reinforced anchoring system with deep-ground stakes and optional concrete weight plates withstands 90 km/h sustained winds across Kazakhstan's open plains

Kazakhstan Rail Freight Optimized

Technical Specifications

Parameter	Specification
Span Width	3m / 4m / 5m / 6m / 8m / 10m
Eave Height	2.2m - 3.0m (Customizable)
Ridge Height	3.0m - 4.5m
Bay Distance	3m / 5m
Frame Material	6061-T6 Aluminum Alloy Profile 48mm x 2mm
Cover Material	950g/m² Cold-Resistant PVC Coated Polyester
Connector Material	Hot-Dip Galvanized Steel Q235 (80µm Zn)
Wind Load Rating	90 km/h (EN 13782 Certified)
Snow Load Rating	0.4 kN/m²
Temperature Range	-40°C to +40°C
Cold Crack Test	Passed at -40°C (ISO 4675 Method A)
Fire Retardancy	NFPA 701 / DIN 4102 B1

⚙️ Production Process & CNC Manufacturing

Step 1: CNC Precision Cutting

Aluminum alloy profiles precisely cut by advanced CNC machining centers with ±0.5mm tolerance control — ensuring flawless assembly even at -40°C expansion conditions.

Step 2: Frame Welding & Assembly

Steel frames undergo TIG/MIG welding by certified welders with 80µm hot-dip galvanizing for Kazakhstan's harsh continental climate — zero rust for 15+ years.

Step 3: PVC Fabric Cutting & HF Welding

High-frequency heat welding for PVC fabric panels ensures 100% waterproof seams — tested at -40°C cold crack resistance for Kazakhstan winters.

Step 4: Full Assembly QC & Export Packing

Every unit undergoes complete pre-assembly inspection before export-grade steel pallet packing — optimized for rail and truck transport to Kazakhstan via Almaty, Astana, and Shymkent.

Factory Strength & Company Advantages

10+ Years Industry Experience

Over a decade of expertise in designing and manufacturing marquee tents for global markets, with proven success in Central Asian extreme climate conditions.

20,000 m² Production Facility

State-of-the-art factory equipped with 6 CNC machining centers, automated welding lines, and high-frequency PVC welding machines — 500+ units monthly capacity.

Kazakhstan Logistics Hub

Dedicated China-Kazakhstan rail freight via Khorgos/Alashankou dry ports. 12-18 day transit to Almaty. Consolidated container loading for cost efficiency.

5-Year Frame Warranty

All aluminum and steel frames backed by a comprehensive 5-year warranty against manufacturing defects. PVC covers carry a 3-year UV and cold-crack warranty.

Certifications & Test Reports

TUV Rheinland Certified

Frame structural safety certified by TUV Rheinland. Meets EN 13782 temporary structure standards — recognized and trusted in Kazakhstan for government and corporate procurement.

ISO 9001:2015

Quality management system certified by SGS. Full production traceability from raw material to finished product — meets Kazakhstan GOST compliance requirements.

Cold Crack Test (-40°C)

PVC fabric tested at -40°C for cold crack resistance. Material maintains flexibility and structural integrity in Kazakhstan's extreme winter conditions.

Wind Load Test Report

Frame tested for sustained steppe winds up to 100 km/h. Reinforced anchoring system validated for Kazakhstan's open terrain wind conditions.

Pre-Sales & After-Sales Service

Pre-Sales Support

Free 3D layout design & rendering for your Kazakhstan venue dimensions

Material samples shipped within 48 hours (DHL/FedEx to Almaty/Astana)

Russian-language product brochures, installation manuals & technical datasheets

Wind load & snow load calculations for Kazakhstan climate zones

Free quotation with detailed BOM within 24 hours (Russian/English)

Video factory tour & live product demonstration via video call

After-Sales Service

Free spare parts kit with every container order (connectors, bolts, washers, pins)

5-year aluminum/steel frame warranty against manufacturing defects

3-year PVC cover warranty (UV degradation & cold crack)

Installation video guide with Russian voice-over instructions

24/7 WhatsApp technical support with Russian-speaking team

Replacement parts express shipped within 72 hours to Kazakhstan via rail/air

Frequently Asked Questions — Kazakhstan Market

Q: Can this tent survive Kazakhstan winter in Astana?

A: Yes. Our cold-resistant PVC cover is specially formulated and tested at -40°C in laboratory conditions. For extreme Astana winters reaching -45°C, we recommend our reinforced insulated liner option for added thermal protection.

Q: How do you ship to Kazakhstan?

A: We use China-Kazakhstan rail freight via the Khorgos dry port on the border — 12-18 days transit to Almaty. For urgent orders, air freight is available to Almaty International Airport. Truck transport from Urumqi is also an option.

Q: Do you provide Russian-language documentation?

A: Yes. All installation manuals, technical specifications, and warranty documents are available in Russian. Our after-sales team includes Russian-speaking support staff.

Q: What warranty applies in Kazakhstan?

A: 5-year warranty on aluminum frames against manufacturing defects and structural failure. 3-year warranty on PVC covers covering cold-crack damage and UV degradation.

Q: Can the tent be used for Kazakh wedding celebrations (Toi)?

A: Absolutely. Our tents are perfect for traditional Kazakh Toi celebrations. We offer spacious clear span models ideal for 200-1000 guest wedding receptions with optional decorative linings and chandelier hanging points.

Q: Do you have any existing clients in Kazakhstan?

A: We ship regularly to Central Asian markets including Kazakhstan, Uzbekistan, and Kyrgyzstan. We can provide reference photos and client testimonials upon request.
