

Clear Span Party Marquee Tent Aluminum Frame Large Wedding Event Canopy Kazakhstan

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Marquees Tent
- Certification: TUV Rheinland, ISO 9001:2015
- Model Number: MT-KZ-C3
- Minimum Order Quantity: 1 Set
- Price: USD 1,500-5,500 / Set
- Packaging Details: Heavy-duty steel pallet with weatherproof wrapping for Kazakhstan rail/truck transport
- Delivery Time: 20-35 working days after order confirmation
- Payment Terms: T/T, L/C, PayPal, Western Union
- Supply Ability: 200 Sets per Month

Product Specification

- Frame Material: 6061-T6 Aluminum Alloy 120mm X 3mm
- Cover Material: 950g/m² Cold-Resistant PVC Coated Polyester
- Clear Span Width: 8m - 25m (No Interior Poles)
- Wind Resistance: 90 Km/h (EN 13782 Certified)
- Snow Load Capacity: 0.35 KN/m²
- Cold Resistance: -40°C Tested
- UV Protection: UV Stabilized, 3-Year Warranty
- Fire Rating: NFPA 701 Certified
- Optional Add-Ons: Glass Walls, Insulated Liners, Flooring, AC/Heating Ports
- Highlight: **Clear span party marquee tent aluminum frame, Large wedding event canopy Kazakhstan, Party marquee tents with warranty**

Clear Span Party Marquee Tent — Kazakh Wedding & Event Excellence

Premium Party Marquee Tent engineered for the Kazakhstan market — extreme climate durability, certified quality, rapid deployment. Ideal for outdoor weddings, corporate events, exhibitions, festivals and commercial gatherings across Kazakhstan and Central Asia.

Product Advantages & Selling Points for Kazakhstan Market

Unobstructed Clear Span Space

8m to 25m widths with zero interior poles — ideal for Kazakh Toi (wedding) celebrations seating 300-2000 guests with traditional dance floors and banquet layouts

Kazakh Toi Wedding Optimized

Elegant white PVC roof with optional clear panels for natural light, chandelier hanging points rated at 50kg each, and decorative interior lining options for luxurious Kazakh wedding aesthetics

Interlocking Modular Bays

3m or 5m bay sections interconnect seamlessly for unlimited length extension — from intimate 10m private events to 80m+ grand festival structures

Cold-Resistant PVC Cover

950g/m² fabric with cold-crack protection maintains flexibility at -40°C ensuring reliable performance for winter weddings in Astana and Almaty

Kazakhstan Event Company Ready

Modular design enables rental companies to maintain flexible inventory — standard bays recombine into countless configurations for different client requirements

Rapid Professional Assembly

Interlocking forged aluminum bay connectors enable a trained crew of 6-8 to erect a 15m x 30m structure in under 8 hours with basic tools

Technical Specifications

Parameter	Specification
Clear Span Width	8m / 10m / 12m / 15m / 20m / 25m
Eave Height	2.8m - 4.0m
Ridge Height	4.0m - 7.0m
Bay Distance	3m / 5m
Frame Material	6061-T6 Aluminum Alloy 120mm x 3mm
Cover Material	950g/m² Cold-Resistant PVC Coated Polyester
Wind Load Rating	90 km/h (EN 13782 Certified)
Snow Load Rating	0.35 kN/m²
Cold Resistance	-40°C Cold-Crack Test Passed
Connector System	Interlocking Forged Aluminum Bay Connectors
Optional Glass Walls	6mm Tempered Glass Panels with Aluminum Frame
Optional Flooring	Modular Plywood Flooring System with Adjustable Legs

⚙️ Production Process & CNC Manufacturing

Step 1: CNC Precision Cutting

Aluminum alloy profiles precisely cut by advanced CNC machining centers with ±0.5mm tolerance control — ensuring flawless assembly even at -40°C expansion conditions.

Step 2: Frame Welding & Assembly

Steel frames undergo TIG/MIG welding by certified welders with 80µm hot-dip galvanizing for Kazakhstan's harsh continental climate — zero rust for 15+ years.

Step 3: PVC Fabric Cutting & HF Welding

High-frequency heat welding for PVC fabric panels ensures 100% waterproof seams — tested at -40°C cold crack resistance for Kazakhstan winters.

Step 4: Full Assembly QC & Export Packing

Every unit undergoes complete pre-assembly inspection before export-grade steel pallet packing — optimized for rail and truck transport to Kazakhstan via Almaty, Astana, and Shymkent.

Factory Strength & Company Advantages

10+ Years Industry Experience

Over a decade of expertise in designing and manufacturing marquee tents for global markets, with proven success in Central Asian extreme climate conditions.

20,000 m² Production Facility

State-of-the-art factory equipped with 6 CNC machining centers, automated welding lines, and high-frequency PVC welding machines — 500+ units monthly capacity.

Kazakhstan Logistics Hub

Dedicated China-Kazakhstan rail freight via Khorgos/Alashankou dry ports. 12-18 day transit to Almaty. Consolidated container loading for cost efficiency.

5-Year Frame Warranty

All aluminum and steel frames backed by a comprehensive 5-year warranty against manufacturing defects. PVC covers carry a 3-year UV and cold-crack warranty.

Certifications & Test Reports

TUV Rheinland Certified

Frame structural safety certified by TUV Rheinland. Meets EN 13782 temporary structure standards — recognized and trusted in Kazakhstan for government and corporate procurement.

ISO 9001:2015

Quality management system certified by SGS. Full production traceability from raw material to finished product — meets Kazakhstan GOST compliance requirements.

Cold Crack Test (-40°C)

PVC fabric tested at -40°C for cold crack resistance. Material maintains flexibility and structural integrity in Kazakhstan's extreme winter conditions.

Wind Load Test Report

Frame tested for sustained steppe winds up to 100 km/h. Reinforced anchoring system validated for Kazakhstan's open terrain wind conditions.

Pre-Sales & After-Sales Service

Pre-Sales Support

Free 3D layout design & rendering for your Kazakhstan venue dimensions

Material samples shipped within 48 hours (DHL/FedEx to Almaty/Astana)

Russian-language product brochures, installation manuals & technical datasheets

Wind load & snow load calculations for Kazakhstan climate zones

Free quotation with detailed BOM within 24 hours (Russian/English)

Video factory tour & live product demonstration via video call

After-Sales Service

Free spare parts kit with every container order (connectors, bolts, washers, pins)

5-year aluminum/steel frame warranty against manufacturing defects

3-year PVC cover warranty (UV degradation & cold crack)

Installation video guide with Russian voice-over instructions

24/7 WhatsApp technical support with Russian-speaking team

Replacement parts express shipped within 72 hours to Kazakhstan via rail/air

Frequently Asked Questions — Kazakhstan Market

Q: Can this tent accommodate a traditional Kazakh wedding with 500 guests?

A: Yes. A 15m x 30m configuration (450 m²) comfortably seats 500 guests with banquet tables, dance floor, and stage area. Larger configurations up to 25m x 80m are available for grand celebrations.

Q: Do you provide decorative interior options for weddings?

A: We offer white PVC inner linings, colored valances, window panels, chandelier hanging points, and decorative fabric draping options. Our team can recommend wedding-specific configurations.

Q: How is the tent shipped to Kazakhstan?

A: Components are packed on steel pallets and shipped via China-Kazakhstan rail freight (12-18 days to Almaty). For large orders, dedicated 40ft containers are used with optimized packing to minimize freight costs.

Q: Can you install the tent in Kazakhstan?

A: We provide a technical supervisor to oversee installation by your local crew for the first project. Full Russian-language assembly manuals, video guides, and remote support via video call are included.

Q: Is the tent suitable for New Year winter events?

A: Yes. The cold-resistant cover handles -40°C, and we offer insulated liner systems for winter events. Combined with portable industrial heaters, the interior can be maintained at 18-22°C even in -30°C outside conditions.

Q: Do you have experience with Kazakh event companies?

A: Yes. We have supplied marquee tents to Central Asian event rental companies. References and installation photos from previous Kazakhstan projects are available upon request.
