Production Process

Every tent is produced in our own factory with advanced CNC machinery and strict process control. Our standard production flow:

- Step 1: CAD design and structural engineering of the tent frame
- Step 2: Aluminum profile precision cutting by CNC machines
- Step 3: CNC drilling, punching and notching of frame tubes
- Step 4: Welding, surface treatment and powder coating / anodizing
- Step 5: PVC fabric cutting and high-frequency heat welding of roof panels
- Step 6: Frame assembly, hardware fitting and accessories installation
- Step 7: 100% quality inspection and load test before packing
- Step 8: Professional packing and export shipping

Quality Control, TUV Certificate & Test Reports
