

Aluminum Frame Party Marquee Tent Waterproof PVC Roof Removable Walls for Outdoor Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS
- Model Number: TND-PMT-AL01
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame wrapped in bubble film; PVC roof and sidewalls packed in PVC fabric carry bags; hardware packed in carton boxes
- Delivery Time: 15-25 days after deposit confirmation; samples in 7 days
- Payment Terms: T/T, L/C, Western Union, , PayPal
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Features: Waterproof, Windproof, UV-Resistant, Flame-Retardant
- Frame Material: Hard Pressed Extruded Aluminum Alloy 6061/T6
- Cover Material: 650g/750g/850g Per Sqm Double PVC-Coated Polyester Fabric
- Side Walls: Removable PVC Walls With Clear PVC Window Options
- Fire Rating: M2 / B1 Flame-Retardant Fabric Available
- Assembly: Tool-Free Quick-Connect Frame Joints
- Shapes: Square / Hexagonal / Octagonal / Custom
- Usage: Private Parties, Birthday Celebrations, Corporate Events, Garden Events
- Highlight: **Aluminum frame party marquee tent, Waterproof PVC roof marquee tent, Outdoor event tent removable walls**

Product Description

Product Overview - Aluminum Frame Party Marquee Tent

Hosting an outdoor party in Croatia means planning for sunshine, summer showers and sudden coastal gusts. The Tendars aluminum frame party marquee tent gives you a **weather-proof, good-looking venue** that can be installed in hours and enjoyed for years. Built on a hard-pressed extruded **aluminum alloy 6061/T6 frame** and covered with **double PVC-coated polyester fabric**, this marquee is the dependable choice for private parties, birthdays, corporate events and garden celebrations across the country - from Zagreb gardens to Adriatic seaside terraces.

Unlike heavy steel structures, the aluminum frame is **lightweight yet strong**, which makes transport, handling and installation noticeably easier. The modular frame system connects with quick-release joints, so your team can set up the tent without special tools or heavy machinery. When the event is over, the tent folds down into compact bundles that fit into a van or storage room until the next celebration.

Key Selling Points

- **Aluminum alloy 6061/T6 frame** - strong, rust-free and about one third lighter than steel, ideal for frequent assembly and coastal environments.
- **100% waterproof PVC roof** - double PVC-coated polyester from 650g to 850g per sqm, with high-frequency welded seams that keep rain out.
- **Removable side walls** - open the tent for a breezy summer party or close it fully for wind and rain protection; clear PVC window panels keep the light in.
- **UV-resistant fabric** - protects guests, furniture and catering equipment from strong Mediterranean sun.
- **Flame-retardant options** - M2 / B1 rated fabric available for venues with strict fire safety rules.
- **Multiple shapes** - square, hexagonal and octagonal layouts let you match the tent to the space and the occasion.
- **Tool-free assembly** - quick-connect joints mean a small crew can erect the tent in a fraction of the time needed for traditional structures.
- **Expandable by design** - add bays, walls and accessories later as your event grows.

Technical Specifications

Parameter	Description
Frame Material	Hard Pressed Extruded Aluminum Alloy 6061/T6
Cover Material	650g / 750g / 850g per sqm Double PVC-Coated Polyester Fabric
Shapes	Square / Hexagonal / Octagonal / Custom
Side Walls	Removable PVC Walls, Clear PVC Window Options

Fire Rating	M2 / B1 Flame-Retardant Fabric Available
Assembly	Tool-Free Quick-Connect Frame Joints
Usage	Private Parties, Birthday Celebrations, Corporate Events, Garden Events
Certification	ISO 9001:2015, CE, SGS
Customization	Size, Color, Logo and Accessory Packages Available

Built for the Croatian Market

Croatia's event calendar is packed - summer festivals on the Adriatic, weddings from May to September, corporate gatherings in Zagreb, Split, Rijeka, Zadar and Dubrovnik, and family celebrations all year round. This party marquee is designed with those conditions in mind:

- **Mediterranean climate ready** - the white PVC roof reflects sunlight to keep the interior cooler, while the waterproof cover handles sudden summer storms.
- **Coastal air resistant** - the anodized aluminum frame does not rust or corrode in salty sea air, unlike steel frames.
- **EU-compliant quality** - CE-marked production and ISO 9001:2015 management make importing and customs clearance straightforward for Croatian buyers.
- **Tourism-season logistics** - our 50,000 sqm monthly supply capacity and reliable lead times help you stock up before the peak season.

- **Easy storage between events** - compact packing means the tent occupies minimal warehouse space in the off-season.

Customization Options

- Custom sizes and layouts to fit your venue, from intimate garden parties to large event grounds.
- Roof and wall colors matched to your brand or event theme.
- Full-color logo printing on roof panels and side walls.
- Accessory packages: flooring, lighting, heating, air conditioning, furniture and dance floors.
- Clear, tinted or printed window and door configurations.

About Tendars - Your Trusted Aluminum Marquee Tent Manufacturer

Tendars is a professional aluminum marquee tent manufacturer based in Guangdong, China, with **more than 10 years of experience** in the design, engineering and production of frame tents for parties, weddings, events, storage and sports use. From our first workshop to today's party marquee production line, we have grown into a full-process manufacturer with an in-house R&D team, modern production lines and a dedicated export department serving buyers across Europe and the world.

Every Tendars marquee tent is built around one principle: **a strong aluminum frame plus a proven PVC cover equals a structure your guests can trust**. Our engineering team works with hard-pressed extruded aluminum alloy 6061/T6, the same alloy family widely used in demanding structural applications, and pairs it with double PVC-coated polyester fabric from qualified suppliers. The result is a tent range that performs season after season.

- **10+ years of manufacturing experience** in aluminum frame tents and event structures.
- **20,000+ sqm production base** with extrusion, cutting, welding, sewing and assembly workshops.
- **In-house engineering and design team** supporting OEM and ODM projects from drawing to delivery.
- **ISO 9001:2015 quality management system**, with CE and SGS verified production.
- **Exported to 40+ countries**, including EU markets such as Croatia, Germany, Austria, Slovenia, Italy and Hungary.
- **Stable supply capacity** of 50,000 square meters of tents per month for seasonal peak orders.
- **Dedicated export sales team** with fast response, installation guidance and after-sales support.

Quality Control - Every Batch Is Checked

Quality is not a slogan at Tendars; it is a documented process. Our QC team follows a three-stage inspection routine so that the tents you receive match the samples you approved.

2. **Incoming inspection** - aluminum profiles are checked for alloy grade, hardness and surface treatment; PVC fabric rolls are tested for weight, tensile strength and coating adhesion.
3. **In-process inspection** - frame welding, drilling, assembly tolerance and sewing quality are monitored on the production line.
4. **Final inspection** - every batch is assembled and checked against an AQL 2.5 sampling plan; waterproof, UV and flame-retardant performance are verified with the material certificates.

Before shipment, we send you **inspection photos and videos** of your actual goods, including packaging status, so there are no surprises at the port.

Packaging, Delivery and Payment

- **Packaging:** aluminum frame profiles are wrapped in bubble film; PVC roof and sidewalls are folded into PVC fabric carry bags; bolts, nuts and hardware are packed in carton boxes.
- **Delivery time:** 15-25 days after deposit confirmation; samples can be ready within 7 days.
- **Shipping:** we arrange sea, rail and air freight worldwide. For Croatia we regularly ship to the ports of Rijeka, Split and Ploče, and can quote FOB, CIF, DDU or DDP terms.
- **Payment:** T/T, L/C, Western Union, and PayPal are accepted.
- **Supply ability:** 50,000 square meters per month, so seasonal orders for the summer event market are never a problem.

Frequently Asked Questions

What is the minimum order quantity?

Our standard MOQ is 25 square meters, which is about one medium-sized party marquee. Sample orders are welcome for evaluation.

Can the tent be installed without special tools?

Yes. The frame uses quick-connect joints and the assembly is tool-free by design. We also provide installation drawings and video guidance.

Is the fabric really waterproof?

The roof and walls are made of double PVC-coated polyester with welded seams, which is fully waterproof. Rainwater runs off the tensioned roof without pooling.

Do you ship to Croatia?

Yes, we regularly ship to the ports of Rijeka, Split and Ploče, and can quote FOB, CIF, DDU or DDP terms. Contact us for a freight quote to your city.

Can we add our logo on the tent?

Absolutely. We offer full-color logo printing on the roof and walls, which is a popular choice for event brands and rental companies.
