

Festival Ready Aluminum Party Marquee Tent Waterproof PVC Roof for Music Festivals Hungary

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS
- Model Number: TND-PMT-FS06
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-85 / Square Meter
- Packaging Details: Aluminum frame wrapped in bubble film; PVC roof and sidewalls packed in PVC fabric carry bags; hardware packed in carton boxes
- Delivery Time: 15-25 days after deposit confirmation; samples in 7 days
- Payment Terms: T/T, L/C, Western Union, , PayPal
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Features: Waterproof, Windproof, UV-Resistant, Flame-Retardant
- Frame Material: Hard Pressed Extruded Aluminum Alloy 6061/T6
- Cover Material: 650g/750g/850g Per Sqm Double PVC-Coated Polyester Fabric
- Side Walls: Removable PVC Walls With Clear PVC Window Options
- Fire Rating: M2 / B1 Flame-Retardant Fabric Available
- Assembly: Tool-Free Quick-Connect Frame Joints
- Usage: Music Festivals, Food Courts, VIP Lounges, Backstage Areas
- Accessories: Counter Tables, Stage Platforms, Lighting Packages
- Ventilation: Ridge Ventilation And Wall Window Options
- Highlight: **aluminum party marquee tent, waterproof PVC roof marquee, festival ready party tent**

Product Description

Product Overview - Festival Ready Aluminum Party Marquee Tent

Hungary is home to some of Europe's most famous festivals - from the Sziget Festival on Budapest's Óbuda Island to Balaton Sound on the shores of Lake Balaton. Organizing these events demands tents that go up fast, survive a full season of use and look good on camera. The Tendars festival ready aluminum party marquee tent is built for exactly that job: a **rust-free 6061/T6 aluminum frame**, a **100% waterproof double PVC roof** and a modular design that works for food courts, VIP lounges, bars, backstage areas and merchandise zones.

Festival crews work under pressure. That is why this tent assembles **without special tools** using quick-connect joints, packs into compact bundles for truck transport between venues, and handles repeated setup and takedown without losing strength. When the Hungarian summer storm season arrives, the tensioned PVC cover and solid anchoring keep the structure reliable.

Key Selling Points

- **Built for festival seasons** - durable enough for weeks of continuous use, from setup to tear-down and storage.
- **Waterproof double PVC roof** - 650g to 850g per sqm fabric with welded seams keeps equipment and guests dry.
- **Tool-free quick assembly** - quick-connect frame joints let a small crew erect the tent in hours, not days.
- **Compact transport** - profiles and fabric pack into bundles that fit festival trucks and vans.
- **UV-resistant cover** - protects guests and merchandise during long sunny festival days.
- **Flame-retardant options** - M2 / B1 rated fabric for compliance with event safety rules.
- **Flexible configurations** - open sides for bars and counters, full walls for VIP and backstage privacy.
- **Rust-free frame** - anodized aluminum stays clean and strong through rain, sun and humidity.

Technical Specifications

Parameter	Description
Frame Material	Hard Pressed Extruded Aluminum Alloy 6061/T6
Cover Material	650g / 750g / 850g per sqm Double PVC-Coated Polyester Fabric
Features	Waterproof, Windproof, UV-Resistant, Flame-Retardant
Side Walls	Removable PVC Walls, Clear PVC Window Options
Fire Rating	M2 / B1 Flame-Retardant Fabric Available
Assembly	Tool-Free Quick-Connect Frame Joints
Usage	Music Festivals, Food Courts, VIP Lounges, Backstage Areas
Accessories	Counter Tables, Stage Platforms, Lighting Packages
Ventilation	Ridge Ventilation and Wall Window Options
Certification	ISO 9001:2015, CE, SGS

Built for the Hungarian Festival Market

Hungary's festival scene is one of the most vibrant in Central Europe, and it runs on reliable infrastructure:

- **Sziget-style mega events** - our modular tents scale from small food stands to large festival halls, all from the same product line.
- **Lake Balaton season** - Balaton Sound and lakeside events need tents that resist lakeside winds and afternoon storms; this marquee is engineered for it.
- **Quick turnover between events** - fast assembly means the same tent serves multiple festival locations in one summer.
- **EU-compliant quality** - CE-marked production and ISO 9001:2015 management support smooth import into Hungary.
- **Branding ready** - optional logo printing turns food courts and VIP areas into sponsor showcases.

Popular Festival Configurations

Zone	Recommended Setup
Food court	Open front, counter tables, high roof for airflow, lighting package
VIP lounge	Full walls, clear windows, flooring, air conditioning option
Bar area	Open sides, bar counter, branded logo printing on walls
Backstage	Full walls, privacy doors, heating option for early morning setups

About Tendars - Your Trusted Aluminum Marquee Tent Manufacturer

Tendars is a professional aluminum marquee tent manufacturer based in Guangdong, China, with **more than 10 years of experience** in the design, engineering and production of frame tents for parties, weddings, events, storage and sports use. From our first workshop to today's festival tent production line, we have grown into a full-process manufacturer with an in-house R&D team, modern production lines and a dedicated export department serving buyers across Europe and the world.

Every Tendars marquee tent is built around one principle: **a strong aluminum frame plus a proven PVC cover equals a structure your guests can trust**. Our engineering team works with hard-pressed extruded aluminum alloy 6061/T6, the same alloy family widely used in demanding structural applications, and pairs it with double PVC-coated polyester fabric from qualified suppliers. The result is a tent range that performs season after season.

- **10+ years of manufacturing experience** in aluminum frame tents and event structures.
- **20,000+ sqm production base** with extrusion, cutting, welding, sewing and assembly workshops.
- **In-house engineering and design team** supporting OEM and ODM projects from drawing to delivery.
- **ISO 9001:2015 quality management system**, with CE and SGS verified production.
- **Exported to 40+ countries**, including EU markets such as Hungary, Austria, Germany, Romania, Slovakia and Poland.
- **Stable supply capacity** of 50,000 square meters of tents per month for seasonal peak orders.
- **Dedicated export sales team** with fast response, installation guidance and after-sales support.

Quality Control - Every Batch Is Checked

Quality is not a slogan at Tendars; it is a documented process. Our QC team follows a three-stage inspection routine so that the tents you receive match the samples you approved.

- 2. Incoming inspection** - aluminum profiles are checked for alloy grade, hardness and surface treatment; PVC fabric rolls are tested for weight, tensile strength and coating adhesion.
- 3. In-process inspection** - frame welding, drilling, assembly tolerance and sewing quality are monitored on the production line.
- 4. Final inspection** - every batch is assembled and checked against an AQL 2.5 sampling plan; waterproof, UV and flame-retardant performance are verified with the material certificates.

Before shipment, we send you **inspection photos and videos** of your actual goods, including packaging status, so there are no surprises at the border.

Packaging, Delivery and Payment

- **Packaging:** aluminum frame profiles are wrapped in bubble film; PVC roof and sidewalls are folded into PVC fabric carry bags; bolts, nuts and hardware are packed in carton boxes.
- **Delivery time:** 15-25 days after deposit confirmation; samples can be ready within 7 days.
- **Shipping:** we arrange sea, rail and air freight worldwide. For Hungary we regularly ship via the ports of Koper, Rijeka and Hamburg with overland delivery to Budapest, and can quote FOB, CIF, DDU or DDP terms.
- **Payment:** T/T, L/C, Western Union, and PayPal are accepted.
- **Supply ability:** 50,000 square meters per month, so seasonal orders for the summer event market are never a problem.

Frequently Asked Questions

How fast can a festival tent be installed?

A standard marquee can be erected by a small crew in a few hours without special tools - ideal for the tight schedules of festival production.

Can the tent be used for food courts?

Yes, we offer configurations with open fronts, counter tables and high airflow, which are exactly what food court operators need.

Do you print sponsor logos on the tents?

Yes, full-color logo printing on roof and walls is available, a popular choice for festival sponsors and brands.

How do you deliver to Hungary?

We ship via European ports such as Koper, Rijeka and Hamburg with overland delivery to Budapest, on FOB, CIF, DDU or DDP terms.

What fabric weight do you recommend for festivals?

For intensive festival use we recommend 750g or 850g per sqm fabric for maximum durability.
