Product Description

Product Overview - Custom OEM Aluminum Party Marquee Tent

Budapest's event market is one of Central Europe's most active - corporate events, weddings, festivals and brand activations run all year round. For rental companies and event agencies, a **branded tent fleet** is a serious competitive advantage. The Tendars custom OEM aluminum party marquee tent is produced **factory direct** with your logo, your colors and your sizes, so every tent you deliver also delivers your brand.

Because we manufacture frames and sew covers in-house, customization is fast and the cost stays fair. Hungarian rental companies use our OEM service to build recognizable fleets, protect their margins and offer clients something unique - from printed logos and custom RAL colors to tailor-made dimensions and white-label packaging.

Key Selling Points

- **Factory direct pricing** - negotiate directly with the manufacturer, without trading company margins.
- **Full OEM / ODM service** - from sketch to mass production, including structural advice from our engineers.
- **Logo printing on roof and walls** - full-color printing that resists fading and cracking.
- **Custom RAL colors** - match your brand identity on fabric, printing and frame finish.
- **Tailor-made sizes** - dimensions adapted to your venues, vehicles and storage.
- **White-label option** - your brand on the product, packaging and documents.
- **Fast sampling** - prototype or sample ready within 7 days for approval.
- **Fleet consistency** - uniform quality and appearance across your whole rental range.

Technical Specifications

Usage	Event Rental Fleets, Brand Events, Corporate Celebrations
Certification	ISO 9001:2015, CE, SGS
Sample Time	Prototype within 7 Days

Why Budapest Rental Companies Choose OEM

- **Build a recognizable fleet** - a uniform tent range with your logo turns every rental into a moving billboard.
- **Protect your margin** - importing directly from the manufacturer gives rental companies a clear cost advantage.
- **Meet client expectations** - Hungarian clients appreciate personalized touches; custom colors and printed logos win tenders.
- **One supplier for everything** - tents, flooring, lighting and furniture from one factory simplifies logistics to Budapest.
- **Seasonal planning** - order in winter, receive the fleet before the spring and summer event season.

How the Customization Process Works

2. **Share your requirements** - sizes, colors, logo files and accessories needed.
3. **Receive drawings and quotation** - our engineers prepare structural drawings and a detailed quote within days.
4. **Approve the sample** - we produce a sample or prototype for your confirmation.
5. **Mass production** - with QC checks at every stage and progress photos for you.

6. Ship and support - delivery to your city, with installation guidance and after-sales service.

About Tendars - Your Trusted Aluminum Marquee Tent Manufacturer

Tendars is a professional aluminum marquee tent manufacturer based in Guangdong, China, with **more than 10 years of experience** in the design, engineering and production of frame tents for parties, weddings, events, storage and sports use. From our first workshop to today's custom OEM production workshop, we have grown into a full-process manufacturer with an in-house R&D team, modern production lines and a dedicated export department serving buyers across Europe and the world.

Every Tendars marquee tent is built around one principle: **a strong aluminum frame plus a proven PVC cover equals a structure your guests can trust**. Our engineering team works with hard-pressed extruded aluminum alloy 6061/T6, the same alloy family widely used in demanding structural applications, and pairs it with double PVC-coated polyester fabric from qualified suppliers. The result is a tent range that performs season after season.

- **10+ years of manufacturing experience** in aluminum frame tents and event structures.
- **20,000+ sqm production base** with extrusion, cutting, welding, sewing and assembly workshops.
- **In-house engineering and design team** supporting OEM and ODM projects from drawing to delivery.
- **ISO 9001:2015 quality management system**, with CE and SGS verified production.
- **Exported to 40+ countries**, including EU markets such as Hungary, Austria, Germany, Romania, Slovakia and Poland.
- **Stable supply capacity** of 50,000 square meters of tents per month for seasonal peak orders.
- **Dedicated export sales team** with fast response, installation guidance and after-sales support.

Quality Control - Every Batch Is Checked

Quality is not a slogan at Tendars; it is a documented process. Our QC team follows a three-stage inspection routine so that the tents you receive match the samples you approved.

- 2. Incoming inspection** - aluminum profiles are checked for alloy grade, hardness and surface treatment; PVC fabric rolls are tested for weight, tensile strength and coating adhesion.
- 3. In-process inspection** - frame welding, drilling, assembly tolerance and sewing quality are monitored on the production line.
- 4. Final inspection** - every batch is assembled and checked against an AQL 2.5 sampling plan; waterproof, UV and flame-retardant performance are verified with the material certificates.

Before shipment, we send you **inspection photos and videos** of your actual goods, including packaging status, so there are no surprises at the border.

Packaging, Delivery and Payment

- **Packaging:** aluminum frame profiles are wrapped in bubble film; PVC roof and sidewalls are folded into PVC fabric carry bags; bolts, nuts and hardware are packed in carton boxes.
- **Delivery time:** 15-25 days after deposit confirmation; samples can be ready within 7 days.
- **Shipping:** we arrange sea, rail and air freight worldwide. For Hungary we regularly ship via the ports of Koper, Rijeka and Hamburg with overland delivery to Budapest, and can quote FOB, CIF, DDU or DDP terms.
- **Payment:** T/T, L/C, Western Union, and PayPal are accepted.
- **Supply ability:** 50,000 square meters per month, so seasonal orders for the summer event market are never a problem.

Frequently Asked Questions

Can we use our own brand name and logo?

Yes - we offer full white-label OEM service: your logo on the tents, your brand on packaging and documents.

What is the minimum quantity for custom printed tents?

The standard MOQ is 25 square meters; smaller trial orders can be discussed for first-time cooperation.

How long does a custom sample take?

A sample or prototype is typically ready within 7 days after design confirmation.

Can you match our brand colors exactly?

Yes, we can match custom RAL colors for fabric, printing and frame finish.

Do you help with EU import documentation?

Yes - we prepare complete export documents including commercial invoice, packing list, bill of lading and certificates to support smooth customs clearance in Hungary.
