Product Description

Crystal-clear walls that showcase your event and the view beyond.

A transparent glass wall aluminum party marquee tent turns a temporary structure into a light-filled, premium venue. Tempered safety glass panels and a clear roof sit on a robust aluminium alloy frame, so exhibitions, weddings and showrooms in Tanzania gain natural light, open sightlines and a high-end look without permanent construction.

Over a Decade of Marquee Engineering Experience

For more than ten years we have fabricated glass-and-aluminium event structures, learning how to source safety glazing, form clean mullions and keep panels aligned under expansion and humidity. That experience is built into every glass wall tent we ship, so it looks sharp and stays safe.

Key Features and Advantages

Tempered or laminated safety glass wall panels

Clear roof or clear PVC option for maximum natural light

Rigid aluminium alloy frame with clean, slim mullions

Optional blinds, curtains or frosted film for privacy

Modular bays for flexible exhibition and wedding layouts

Engineered and tested for wind and rain resistance

Technical Specifications

Wall Type	8-12 mm tempered safety glass
Roof Option	Clear glass, clear PVC or PVC-coated cover
Privacy	Blinds, curtains or frosted film optional
Frame Material	6061-T6 / 6063-T5 Aluminium Alloy, hard-anodised

Flame Retardancy	B1 / M2 (DIN 4102) certified fabric and panels
Service Life	15-20 years with basic maintenance
Connectors	Hot-dip galvanised steel, salt-air resistant

Why This Tent Fits the Tanzania Market

A premium choice for exhibitions and weddings near Dar es Salaam and Zanzibar.

Safety glass meets local event and venue compliance needs.

Aluminium alloy frame resists corrosion in humid coastal locations.

Clear walls invite natural light, reducing daytime lighting costs.

Crated, glass-safe packing protects panels on the sea voyage to Tanzania.

Applications

Exhibitions and trade fairs

Luxury weddings and receptions

Showrooms and product displays

Corporate receptions and galas

Restaurants and lounges

Press conferences and launches

Customisation and OEM Service

Choose glass thickness, frame colour, roof material and door style to match your design. We can add frosted or printed glass for subtle branding, blinds for privacy and integrated lighting trusses. OEM production with your logo on pack lists and documentation is available for distributors and venues.

Quality, Certifications and Assurance

Glass panels are sourced from certified safety-glass suppliers and inspected for edge quality and clarity, while frames are welded on calibrated jigs. We supply ISO 9001:2015 documentation with CE, SGS and safety-glass certificates so your installation meets local codes.

Packaging, Shipping and Delivery to Tanzania

Glass is packed in timber crates with foam edging and frames travel on steel pallets to prevent movement. We prepare full export documentation and advise on container loading so glass arrives intact at Dar es Salaam port.

Frequently Asked Questions

+ Is the glass safe for public events?

+ Can I get privacy instead of full transparency?

+ Do you deliver glass tents to Tanzania?
