

Waterproof PVC Aluminum Party Marquee Tent Rain Resistant for Ghana Outdoor Use

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: Marquees-Tent
- Certification: ISO 9001:2015; CE; SGS Tested; B1 Flame Retardant
- Model Number: MT-PVC-RAIN-G3
- Minimum Order Quantity: 1 Set
- Price: USD 28-65 / Square Meter
- Packaging Details: Waterproof PVC cover folded into sealed woven bags, frame on steel pallets, moisture-protected for tropical sea freight to Tema Port
- Delivery Time: 7-12 days for stock, 15-30 days for production
- Payment Terms: T/T, L/C, Western Union, Trade Assurance
- Supply Ability: 2000 Square Meters per Month

GHANA RAIN-RESISTANT MARQUEE

Product Specification

- Frame Material: 6061-T6 / 6063-T5 Aluminium Alloy
- Roof Fabric: 850gsm Waterproof PVC Coated Polyester
- Seam Type: High-Frequency Welded Seams
- Waterproof Rating: Fully Waterproof, Rain Gutter Equipped
- Sidewall: PVC With Clear Window Options
- Wind Load: Up To 100 Km/h
- Flame Retardancy: B1 / M2 DIN 4102
- UV Resistance: UPF 50+, UV Stabilised
- Gutter System: Integrated Rain Gutter And Downpipe
- Temperature Range: -30 C To +70 C
- Highlight: **Waterproof PVC party marquee tent, Aluminum outdoor party tent, Rain resistant Ghana marquee tent**

Product Description

Built to shrug off Ghana's major and minor rains without leaking or sagging.

Ghana's rainy seasons can arrive fast and heavy, so a tent has to do more than look good. This waterproof PVC aluminum party marquee tent uses a heavy 850 gsm PVC-coated polyester cover with high-frequency welded seams and an integrated rain gutter, so water runs off cleanly and guests stay dry even during the peak of the rains.

Over a Decade of Marquee Engineering Experience

Over ten years of building tents for tropical and monsoon climates taught us where water actually gets in: through stitched seams, low rain gutters and floor joints. This tent corrects all three, drawing on a decade of field feedback from rental operators and event organisers who work through the rainy season every year.

Key Features and Advantages

Heavy 850 gsm PVC-coated polyester cover with high-frequency welded seams

Integrated rain gutter and downpipe direct water away from guests

Fully waterproof, mould-resistant and easy to wipe clean

Raised frame prevents ground splash and ponding

Modular bays for flexible event layouts

Corrosion-resistant aluminium alloy frame for humid climates

Technical Specifications

Waterproofing	Fully waterproof, welded seams, rain gutter
Cover Weight	850 gsm PVC-coated polyester
Gutter	Integrated rain gutter with downpipe
Frame Material	6061-T6 / 6063-T5 Aluminium Alloy, hard-anodised
Roof Cover	650-850 gsm double PVC-coated polyester, UV stabilised
Wind Load	Up to 100 km/h with certified base plates
Flame Retardancy	B1 / M2 (DIN 4102) certified fabric
Service Life	15-20 years with basic maintenance
Connectors	Hot-dip galvanised steel, salt-air resistant

Why This Tent Fits the Ghana Market

Designed around Ghana's major (April-June) and minor (Sept-Oct) rainy seasons.

Mould-resistant cover suits humid coastal and forest-belt venues.

Rain gutter protects guests, flooring and electrical equipment.
Aluminium alloy frame will not rust in damp conditions.
Moisture-protected packing survives tropical sea freight to Tema Port.

Applications

Outdoor weddings in any season
Corporate and government functions
Exhibitions and trade fairs
Church and community gatherings
Sports and award ceremonies
Temporary covered markets

Customisation and OEM Service

We size the cover, gutter and frame to your venue and rainfall pattern, and can add clear PVC windows, doors, half-walls and guttering extensions. For equipment brands and rental companies we offer OEM production with your logo on the fabric bags and frame wrapping.

Quality, Certifications and Assurance

Each cover is welded, pressure-tested for leaks and inspected for seam integrity before packing. We issue ISO 9001:2015 documentation with CE, SGS and B1 flame-retardant certificates so your tent meets local safety and insurance requirements.

Packaging, Shipping and Delivery to Ghana

Waterproof covers are sealed in moisture-resistant woven bags and frames travel on protective pallets. We prepare full export documentation and advise on container packing so goods arrive dry and undamaged at Tema Port.

Frequently Asked Questions

+ Will the tent really stay dry in heavy rain?

+ Does the cover resist mould?

+ Can I add windows and doors?

Talk to a Marquee Specialist Today

Tell us your venue, guest numbers and climate needs. We reply within 24 hours with a drawing, a clear quotation and shipping advice to Ghana.
