- Temperature Range: -30 C To +70 C
- Optional Accessories: Flooring, Lining, Glass Door, Air Conditioner
- Highlight: Aluminum alloy party marquee tent,
Clear span frame marquee tent,
Event rental party marquee tent

Product Description

A freestanding, column-free structure engineered for Colombia's event and rental market.

Our clear span aluminum alloy party marquee tent gives you a fully self-supporting interior with no centre poles, so every square metre stays usable for guests, staging or exhibition booths. The frame is built from high-grade 6061-T6 aluminium alloy and paired with a double PVC-coated polyester roof, making it a dependable choice for event hire companies and venues across Colombia.

Over a Decade of Marquee Engineering Experience

For more than ten years our factory has designed, welded and finished aluminium marquee systems for rental fleets, wedding venues and temporary structures worldwide. That decade of hands-on production experience shows in the details: a jig-built frame that assembles square, connectors that resist humid tropical air, and drawings that match the structure you actually receive.

Key Features and Advantages

Fully self-supporting clear span frame with zero interior columns

High-grade 6061-T6 aluminium alloy for humid tropical climates

Modular bays expand in 3 m or 5 m increments for any footprint

650-850 gsm double PVC-coated roof, waterproof and UV stabilised

Wind-rated frame with certified base plates and anchors

Fast dry-hire assembly using coded, numbered components

Technical Specifications

Structure	Clear span, modular, no interior poles
Standard Bay	3 m or 5 m bay width, expandable length
Sidewall Options	PVC, tempered glass, ABS panel or sandwich panel
Frame Material	6061-T6 / 6063-T5 Aluminium Alloy, hard-anodised
Roof Cover	650-850 gsm double PVC-coated polyester, UV stabilised
Wind Load	Up to 100 km/h with certified base plates
Flame Retardancy	B1 / M2 (DIN 4102) certified fabric
Service Life	15-20 years with basic maintenance
Connectors	Hot-dip galvanised steel, salt-air resistant

Why This Tent Fits the Colombia Market

Engineered for Colombia's varied climates, from the hot Caribbean coast to the highland cities.

Galvanised connectors resist humid, tropical and coastal conditions.

Sea-freight optimised packing to Cartagena or Buenaventura lowers your landed cost.

Spare parts and assembly guidance in English and Spanish for local teams.

Proven for weddings, corporate events and exhibitions across Colombia.

Applications

Weddings and receptions

Corporate events and expos

Trade exhibitions and product launches

Festivals and cultural events

Church and community gatherings

Temporary covered spaces

Customisation and OEM Service

Tell us the guest count, venue and climate conditions and we will size the clear span accordingly. We offer custom colours, printed sidewalls, glass or ABS walls, transparent roofs, interior linings, flooring and air-conditioning openings. As original equipment for rental brands we can print your logo on the framework and packaging, then ship under your own label.

Quality, Certifications and Assurance

Every frame is welded on calibrated jigs and the fabric is tested for tear strength, colour fastness and waterproofness before packing. We work to ISO 9001:2015 and supply CE, SGS and B1 flame-retardant reports with each order, and can prepare documentation to support Colombian import requirements.

Packaging, Shipping and Delivery to Colombia

Frames ship knocked-down on steel pallets, which keeps container loading efficient and protects components in transit. We prepare commercial invoices, packing lists and certificates of origin, and advise on container size and customs documents so your goods clear Cartagena or Buenaventura smoothly.

Frequently Asked Questions

+ What is the widest clear span you can build?

+ Do you ship to Colombia?

+ How much maintenance is needed?

Talk to a Marquee Specialist Today

Tell us your venue, guest numbers and climate needs. We reply within 24 hours with a drawing, a clear quotation and shipping advice to Colombia.

¿Por Qué Elegir Nuestras Carpas de Aluminio?

Fabricamos carpas de aleación de aluminio diseñadas para el mercado colombiano: estructura de gran claro sin postes interiores, lona de PVC impermeable y resistente a los rayos UV, y un diseño modular fácil de montar, transportar y almacenar.

Estructura de aluminio 6061-T6, resistente a la humedad y a la corrosión costera.

Lona de PVC impermeable y estabilizada contra los rayos UV.

Diseño modular claro (clear span) sin postes en el interior.

Resistente al viento con placas de anclaje certificadas.

Envío marítimo a Cartagena o Buenaventura con documentación completa.

Más de 10 años de experiencia en fabricación de carpas.

How to Order — From Inquiry to Delivery

Send your requirements: city, guest numbers, event date and customisation.

Receive a tailored design, 2D/3D drawing and a clear quotation within 24 hours.

Confirm specifications, colours, accessories and payment terms.

Production under quality control with material and certification documents.

Sea freight to Cartagena or Buenaventura with full export documentation.

Assembly guidance and after-sales spare parts to keep your fleet running.

Cuéntenos Sus Necesidades / Tell Us Your Requirements

To quote accurately and quickly, please share these details:

Event city and climate (e.g. Bogota, Medellin, Cartagena)

Approximate size or guest capacity needed

Event date and whether the tent is for rent or permanent use

Desired colours, linings, walls and accessories

Annual quantity if you are a rental company or distributor
