

Clear Span Aluminum Alloy Party Marquee Tent 6061 T6 Frame for Chile Event Rental

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6
- Main Profile: 122x68x3mm & 166x88x3mm (project Dependent)
- Clear Span: 100% Column-free Interior
- Roof Cover: 850gsm Double PVC-coated Polyester, UV Treated
- Side Walls: PVC / Glass / ABS / Mesh, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Temperature Range: -30C To +70C
- Warranty: Written Structural Warranty
- OEM/ODM: Available
- Application: Weddings, Expos, Fiestas, Corporate Events

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · CHILE MARKET

A pillar-free clear-span event structure engineered for Chilean weddings, expos and outdoor fiestas — strong, elegant and built to be rented for years.

6061/T6

HARD-PRESSED ALUMINUM FRAME

100%

CLEAR SPAN — NO CENTER POLES

850gsm

DOUBLE PVC-COATED ROOF

10+ Years

MARQUEE MANUFACTURING

Overview

This **clear span aluminum alloy party marquee tent** is the workhorse of the event industry: a fully open interior with no interior support columns, so every square meter is usable for seating, a stage, a dance floor or exhibition booths. The frame is made from **hard-pressed extruded aluminum alloy 6061/T6**, the same grade trusted by professional rental companies because it resists corrosion and keeps its strength after countless setups and takedowns.

For the Chilean market we engineer the structure for local conditions — strong coastal wind, high-altitude UV in the north and damp winters in the south — and deliver it with Spanish-friendly documentation so your crew can install it confidently.

Clear span

No interior poles

6061/T6 frame

Modular bays

Fire retardant

UV resistant

Custom branding

Engineered for the Chilean Market

Chile is a long, narrow country with Mediterranean, desert and cold southern climates — and a vibrant culture of weddings, quinceañeras, *fondas* and corporate events. A tent that performs in Santiago may face totally different conditions in Antofagasta or Punta Arenas. We design accordingly:

Wind engineering: reinforced joints and anchor plates sized for exposed coastal and valley wind zones.

UV protection: roof fabric treated against the intense northern sun that quickly degrades cheap covers.

Rain and condensation control: steep roof pitch and optional insulated lining to keep guests comfortable in the wet south.

Spanish-friendly handover: assembly manual, packing list and install video that your local team can follow directly.

Searches such as "*carpas para eventos en Chile*", "*carpas de aluminio para fiestas*" and "*carpa para matrimonio*" reflect exactly what this product is built to serve.

Product Advantages

Column-free interior: the full width is usable — ideal for banquets, exhibitions and stages.

Rental-grade durability: 6061/T6 aluminum frame with anodized or powder-coated finish resists corrosion and repeated

transport.

Modular growth: add bays lengthwise or join units side-by-side as your business grows.

Fast to erect: keder-style roof and quick-lock joints cut installation time and labor cost.

Brandable: fully printable fabric and custom colors turn each tent into a moving billboard.

Full accessory range: glass walls, ABS hard walls, linings, flooring, lighting and doors available.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6
Main Profile	122 × 68 × 3 mm & 166 × 88 × 3 mm (project dependent)
Roof Cover	850 g/sqm double PVC-coated polyester, blockout, UV treated
Side Walls	650–850 g/sqm PVC, glass, ABS or mesh — removable
Span Range	Custom spans from 3 m to 40 m, length in 3 m / 5 m bays
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Snow Load	Calculated per site; higher ratings available on request
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant fabrics
Temperature Range	-30°C to +70°C
Color Options	White, black, grey, custom Pantone on request

Typical Applications in Chile

- Weddings, quinceañeras and private celebrations
- Corporate product launches, expos and trade fairs
- Fiestas Patrias, fondas, ramadas and community festivals
- Agricultural fairs, rodeos and rural events
- Temporary reception, dining and hospitality areas

Customization & Branding

Almost every element can be tailored to your project so the tent fits your brand and your client’s venue:

- Custom span, eave height and length
- Roof and wall color, printed logos and graphics
- Glass, ABS, PVC or mesh side walls
- Interior roof linings, curtains and valances
- Doors, windows, gutters and drainage
- Flooring systems, staging and lighting packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Below is exactly how we earn the trust of event companies, rental firms and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Chile and across South America.

Rental companies in Chile currently deploy our clear span tents for weddings, expos and seasonal festivals.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles are stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Professional engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts, and a Spanish-friendly after-sales team.

Shipping & Installation to Chile

We ship to Chile regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Chilean destination, depending on what suits your business best.

Main Chilean Sea Ports	San Antonio · Valparaíso · Iquique · Antofagasta
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save container space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	Every unit ships with an illustrated manual; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Can this tent be used without interior poles?

Yes. That is the defining feature of a clear span marquee — the interior is completely column-free, so the whole footprint is usable.

Do you supply to Chile and help with import?

We ship to Chilean ports such as San Antonio and Valparaíso and can quote FOB, CIF or DDP. We provide all export documents and can advise on the import process.

How long does it take to install?

A trained crew can typically raise the frame and roof in a day for a standard size. We provide a manual and install video; remote guidance is available.

What is the minimum order quantity?

MOQ is flexible — from 1 unit for sample projects to large fleet orders. Contact us with your requirement for an exact quote.

How is the tent packed for shipping?

Frame and covers are packed separately to maximize container utilization. Hardware is boxed and labeled for straightforward on-site assembly.

What warranty do you offer?

A written structural warranty plus readily available spare parts and after-sales support.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Chile.
