

Waterproof UV Resistant Aluminum Alloy Party Marquee Tent 850gsm PVC for Chile Climate

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Cover Weight: 850gsm Double PVC-coated Polyester (650/750gsm Options)
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- UV Treatment: Anti-UV Coated, Color-fast
- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Corrosion Resistant
- Side Walls: PVC / Glass / ABS / Mesh, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Temperature Range: -30C To +70C
- Cleaning: Wipe-clean PVC Surface
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · CHILE MARKET

A weatherproof party marquee engineered for Chile's harsh sun and rain — heavy-duty 850gsm PVC, UV-treated fabric and a corrosion-resistant aluminum frame.

850gsm

HEAVY-DUTY PVC COVER

100%

WATERPROOF WELDED SEAMS

UV+

ANTI-UV TREATED FABRIC

-30°C

TO +70°C PERFORMANCE

Overview

Chile's geography punishes weak tents: blistering UV in the Atacama, heavy rain and wind in the south, and coastal salt air everywhere. This **waterproof, UV-resistant aluminum party marquee tent** is built to survive all of it. The roof and walls use **850 g/sqm double PVC-coated polyester** with fully welded seams, so water simply cannot get through.

Behind the fabric sits a **hard-pressed extruded aluminum alloy 6061/T6 frame** with corrosion-resistant finishing — a combination that keeps the tent looking new season after season rather than sagging and leaking after one summer.

Built for Chile's Climate

Anti-UV fabric treatment resists the extreme solar radiation of northern Chile without fading or becoming brittle.

100% waterproof roof: high-frequency welded seams instead of stitched ones, so no needle holes let water in.

Mildew and condensation resistance for damp southern winters and coastal humidity.

Salt-air corrosion protection on frame and hardware for ports such as Valparaíso and Iquique.

Stable in wind thanks to cross-bracing and correctly specified ground anchors.

If your clients search for "*carpa resistente al agua*" or "*carpa con protección UV para eventos*", this is the product they are looking for.

Product Advantages

All-season reliability: one tent for sun, rain and wind — fewer lost bookings.

Thicker 850gsm fabric: better light blockout, higher tear strength and longer lifespan than thin covers.

Welded, not stitched: waterproof seams that hold up to years of use.

Color-fast & UV-stable: stays bright and professional-looking.

Easy cleaning: PVC surface wipes down — ideal for food and beverage events.

Certified fire retardant for public-event compliance.

Technical Specifications

Cover Weight	850 g/sqm double PVC-coated polyester (650/750 g/sqm options)
Waterproofing	High-frequency welded seams, 100% waterproof
UV Treatment	Anti-UV coated, color-fast
Frame Material	Hard-pressed extruded aluminum alloy 6061/T6, corrosion resistant
Side Walls	PVC / glass / ABS / mesh, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Temperature Range	-30°C to +70°C
Cleaning	Wipe-clean PVC surface

Typical Applications in Chile

- Outdoor weddings and receptions in changeable weather
- Food, wine and gastronomy festivals
- Coastal and lakeside events exposed to wind and salt air
- Agricultural and livestock exhibitions
- Emergency and temporary shelter programs

Customization & Branding

- Custom span, height and length to fit any venue
- Choose roof/wall colors and print full-color branding
- Insulated roof lining to reduce heat and condensation
- Wide range of doors, windows and clear-panel walls
- Gutters, drainage and flooring systems
- Lighting, staging and climate-control add-ons

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Below is exactly how we earn the trust of event companies, rental firms and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Chile and across South America.

Our waterproof marquees are in service across South America in climates ranging from desert to coastal temperate.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles are stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Professional engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts, and a Spanish-friendly after-sales team.

Shipping & Installation to Chile

We ship to Chile regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Chilean destination, depending on what suits your business best.

Main Chilean Sea Ports	San Antonio · Valparaíso · Iquique · Antofagasta
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save container space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	A waterproof cover maintenance guide is included; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Is the tent truly 100% waterproof?

Yes. The cover is made from heavy 850 g/sqm PVC with high-frequency welded seams, so there are no stitch holes for water to pass through.

Will the fabric fade under Chile's strong sun?

No. The PVC is UV-treated and color-fast, formulated to resist intense solar radiation without turning brittle or fading quickly.

Can you handle delivery to a specific Chilean city?

Yes — we quote FOB, CIF and DDP and can arrange delivery to your city or project site across Chile.

Do you offer replacement covers?

Absolutely. Covers and individual components can be reordered separately, which extends the life of your frame investment.

What is the minimum order quantity?

MOQ is flexible — from a single unit upward. Share your requirement for an exact quotation.

Is installation difficult?

No. The modular frame goes up with basic tools, and we provide an illustrated manual plus an install video.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Chile.
