

Anti Corrosion Aluminum Alloy Party Marquee Tent for Peruvian Coastal Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6
- Surface Finish: Anodized / Powder Coated, Corrosion Resistant
- Hardware: Stainless Steel / Marine-grade Connectors
- Roof Cover: 850gsm Double PVC-coated Polyester, UV Treated
- Waterproofing: High-frequency Welded Seams, Anti-mildew
- Side Walls: PVC / Glass / ABS / Mesh, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · PERU MARKET

A corrosion-proof aluminum marquee engineered for the salt air and *garúa* humidity of Lima, Callao and Peru's coast — built to look new after years by the sea.

6061/T6

CORROSION-RESISTANT FRAME

Stainless

MARINE-GRADE HARDWARE

100%

WATERPROOF WELDED ROOF

10+ Years

MARQUEE MANUFACTURING

Overview

Peru's coast is deceptively demanding: Lima and Callao sit under a persistent *garúa* drizzle, salt-laden air corrodes ordinary metal quickly, and humidity works its way into every seam. This **anti-corrosion aluminum alloy party marquee tent** is built for exactly that environment. The frame uses **hard-pressed extruded aluminum alloy 6061/T6** with protective anodized or powder-coated finishing, and every connector, bolt and plate is stainless or marine-grade.

The result is a tent that resists rust and mould instead of failing after one season — ideal for beach clubs, coastal hotels and rental companies serving the Lima event market.

Anti-corrosion

Salt air resistant

Anti-mildew

Waterproof

Stainless hardware

Custom branding

Engineered for Peru's Coastal Climate

Salt-air corrosion protection: aluminum frame with protective finishing and marine-grade hardware for Lima, Callao and northern ports.

Garúa & humidity resistant: waterproof welded seams and anti-mildew fabric keep the interior dry and clean.

UV stable: resists the strong coastal sun without fading or turning brittle.

Wind-stable: cross-bracing and correctly specified anchors handle coastal gusts.

Easy maintenance: the PVC surface wipes clean, saving time between events.

If your clients search for "*carpas para eventos en Lima*", "*carpas para la playa*" or "*carpa resistente a la humedad*", this is the product they need.

Product Advantages

Built for the sea: corrosion-resistant materials chosen specifically for coastal Peru.

Rental-grade durability: 6061/T6 frame survives repeated transport and setup.

- Column-free interior:** the full footprint is usable for seating, bars or stands.
- Waterproof & mildew resistant:** clean, dry guests even in garúa season.
- Brandable:** fully printable fabric and custom colors.
- Full accessories:** glass walls, linings, flooring, lighting and doors.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6
Surface Finish	Anodized / powder coated, corrosion resistant
Hardware	Stainless steel / marine-grade connectors
Roof Cover	850 g/sqm double PVC-coated polyester, UV treated
Waterproofing	High-frequency welded seams, anti-mildew
Side Walls	PVC / glass / ABS / mesh, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Color Options	White, grey, black, custom Pantone

Typical Applications in Peru

- Beach clubs and coastal weddings in Lima and Callao
- Seaside hotel and resort events
- Corporate product launches and coastal expos
- Food and beverage events by the ocean
- Seasonal festivals along the northern coast

Customization & Branding

- Custom span, eave height and length for any venue
- Roof and wall color plus printed logos and graphics
- Glass, ABS, PVC or mesh side walls
- Interior linings, curtains and valances
- Doors, windows, gutters and drainage
- Flooring, staging and lighting packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Peru and across South America.

Rental firms in Peru deploy our corrosion-resistant marquees for beach and coastal events around Lima.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for humid and coastal Peru
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Customization	Any span, color, branded print and full accessory range
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What’s Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Peru

We ship to Peru regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Peruvian destination, whichever suits your business best.

Main Peruvian Sea Ports	Callao · Paita · Salaverry · Matarani · Ilo
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	Every unit ships with an illustrated manual; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Will the frame rust in Lima's humid air?

No. The frame is aluminum 6061/T6 with protective finishing, and all connectors and hardware are stainless or marine-grade, so it resists corrosion far better than steel.

Is the tent waterproof in garúa season?

Yes. The 850 g/sqm PVC cover uses high-frequency welded seams, so there are no stitch holes for moisture to pass through.

Do you ship to Peru and help with import?

Yes. We ship to Peruvian ports such as Callao and can quote FOB, CIF or DDP. We provide all export documents and can advise on importing.

How long does installation take?

A trained crew can typically raise the frame and roof in a day for a standard size. We provide a manual and install video.

What is the minimum order quantity?

Flexible — from 1 unit for sample projects to large fleet orders. Contact us for an exact quote.

What warranty do you offer?

A written structural warranty, plus readily available spare parts and after-sales support.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Peru.
