

## Rainforest Weatherproof Aluminum Alloy Party Marquee Tent for Peru Amazon

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

#### Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Rust-proof
- Roof Cover: 850gsm Double PVC-coated Polyester, Anti-mildew, UV Treated
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- Wall Options: PVC / Mesh (mosquito Net) / Glass / ABS
- Interior: 100% Clear Span, No Interior Poles
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Temperature Range: -30C To +70C
- Cleaning: Wipe-clean PVC Surface
- Warranty: Written Structural Warranty
- OEM/ODM: Available

## Product Description

### ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · PERU MARKET

A heavy-rain, anti-mildew aluminum marquee engineered for the Peruvian Amazon — keeping guests dry and comfortable in hot, humid, downpour-prone rainforest.

#### 100%

WATERPROOF WELDED ROOF

#### Anti-Mildew

HUMID-CLIMATE FABRIC

#### Mesh

MOSQUITO-NET WALLS OPTION

#### Modular

SCALE ANY EVENT

### Overview

The Peruvian Amazon throws everything at a structure: torrential rain, near-constant humidity and intense biological decay. Ordinary tents mould, sag and leak within a season. This **rainforest-weatherproof aluminum alloy party marquee tent** is built to cope — a **6061/T6 aluminum frame** that will not rust, anti-mildew PVC fabric with welded waterproof seams, and optional mosquito-net walls for comfort.

It is a dependable choice for lodges, eco-resorts and event companies operating in Iquitos, Pucallpa and the wider rainforest region.

### Engineered for the Peruvian Amazon

**Torrential-rain ready:** welded waterproof seams and high roof pitch shed water fast.

**Anti-mildew fabric:** formulated to resist the constant humidity and microbial growth of the jungle.

**Rust-proof frame:** aluminum 6061/T6 that will not corrode in wet conditions.

**Mosquito-net walls:** optional mesh keeps insects out while letting air through.

**Airflow design:** mesh and clear panels reduce heat build-up under the canopy.

For searches such as "*carpas para eventos en la selva*" or "*carpa resistente a la lluvia*" in Peru, this is the dependable answer.

### Product Advantages

**Rainforest-tough:** built for heavy rain, humidity and heat.

**Anti-mildew & rust-proof:** materials chosen to survive wet tropical conditions.

**Comfort:** optional mosquito mesh and airflow panels keep guests comfortable.

**Column-free interior:** full usable floor for any layout.

**Modular & portable:** easy transport to remote jungle sites.

**Full accessories:** flooring, lighting, doors and branding.

### Technical Specifications

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Frame Material    | Hard-pressed extruded aluminum alloy 6061/T6, rust-proof       |
| Roof Cover        | 850 g/sqm double PVC-coated polyester, anti-mildew, UV treated |
| Waterproofing     | High-frequency welded seams, 100% waterproof                   |
| Wall Options      | PVC / mesh (mosquito net) / glass / ABS                        |
| Interior          | 100% clear span, no interior poles                             |
| Span Range        | Custom from 3 m to 40 m                                        |
| Wind Resistance   | Engineered up to 100 km/h with proper anchoring                |
| Fire Retardant    | DIN 4102 B1 / M2 / NFPA 701 compliant                          |
| Temperature Range | -30°C to +70°C                                                 |
| Cleaning          | Wipe-clean PVC surface                                         |

### Typical Applications in Peru

- Eco-lodges and jungle resorts in the Amazon
- Rainforest weddings and celebration events
- Expedition and eco-tourism staging areas
- Community and cultural events in the selva
- Temporary storage and shelter in wet regions

### Customization & Branding

- Custom span, height and length
- Mosquito-net, glass or PVC wall combinations
- Roof linings and airflow panels
- Doors, windows, gutters and drainage
- Flooring, staging and lighting packages
- Branding and printed graphics

### Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms and project contractors across Latin America.

#### Experience — over 10 years, 1,000+ delivered projects

**More than 10 years** of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

**1,000+ events and projects** supplied worldwide, including tents now operating in Peru and across South America.

Lodges and event companies in Peru's rainforest region rely on our weatherproof marquees for dependable shelter.

#### Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

#### Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

#### Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

### Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

|                       |                                                                           |
|-----------------------|---------------------------------------------------------------------------|
| Weight & Handling     | Aluminum frame — lighter, faster to transport and erect with fewer people |
| Corrosion             | Aluminum — resists rust; ideal for humid and coastal Peru                 |
| Assembly              | Keder roof and quick-lock joints — hours, not days                        |
| Service Life          | Rental-grade aluminum — survives repeated setup and takedown              |
| Customization         | Any span, color, branded print and full accessory range                   |
| Resale / Rental Value | Strong — aluminum frames hold value across many seasons                   |

### What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

### Shipping & Installation to Peru

We ship to Peru regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Peruvian destination, whichever suits your business best.

|                         |                                                                               |
|-------------------------|-------------------------------------------------------------------------------|
| Main Peruvian Sea Ports | Callao · Paita · Salaverry · Matarani · Ilo                                   |
| Container Loading       | Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space |

|                             |                                                                                                                      |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------|
| <b>Packing</b>              | Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton                                    |
| <b>Lead Time</b>            | Stock items 7–15 days; production orders 20–35 days after deposit                                                    |
| <b>Documents</b>            | Commercial invoice, packing list, B/L, certificate of origin, test reports                                           |
| <b>Installation Support</b> | A weatherproofing care guide is included; Step-by-step manual and install video included; remote guidance available. |

## Frequently Asked Questions — Decision Support

### Will the tent survive jungle rain?

Yes. The roof uses high-frequency welded seams and the design sheds water fast; the anti-mildew fabric is made for humid tropical conditions.

### Does the frame rust in humid conditions?

No. The frame is aluminum 6061/T6, which does not rust even in constant humidity.

### Can you add mosquito nets?

Yes. Optional mesh walls keep insects out while allowing airflow, which is ideal for the Amazon.

### Is it portable enough for remote sites?

Yes. The modular aluminum frame packs compactly and is easier to move into remote areas.

### Do you deliver to Peru?

Yes — we quote FOB, CIF or DDP and can arrange delivery to your city or site across Peru, including the rainforest region.

### What is the minimum order quantity?

Flexible — from a single unit upward. Contact us for a tailored quotation.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Peru.
