

Hot Humid Climate Aluminum Alloy Party Marquee Tent for Ecuador Coastal Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Rust-proof
- Roof Cover: 850gsm Double PVC-coated Polyester, Anti-mildew, UV Treated
- Ventilation: Mesh / Clear-panel Wall Options For Airflow
- Heat Option: Reflective Or Insulated Roof Lining Available
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- Side Walls: PVC / Mesh / Glass / ABS, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · ECUADOR MARKET

A breathable, anti-mildew aluminum marquee engineered for the heat and humidity of Guayaquil and Ecuador's coastal lowlands — cool, dry and durable in rain or shine.

Anti-Mildew

HUMID-CLIMATE FABRIC

Ventilated

MESH WALL OPTIONS

100%

WATERPROOF WELDED ROOF

6061/T6

RUST-PROOF FRAME

Overview

Guayaquil and Ecuador's coastal lowlands are hot, humid and rain-prone, especially during the December–May wet season. Standard tents quickly turn into saunas and grow mildew. This **hot-humid climate aluminum alloy party marquee tent** is designed around airflow and hygiene: a rust-proof **6061/T6 aluminum frame**, anti-mildew PVC fabric with welded waterproof seams, and optional mesh walls that keep air moving while keeping rain out.

For event companies working in Guayaquil, Machala and the coastal provinces, it means comfortable guests, a clean interior and a tent that looks new event after event.

Anti-mildew

Ventilated

Waterproof

Rust-proof

Wipe-clean

Custom branding

Engineered for Ecuador's Hot-Humid Coast

Heat management: optional reflective/insulated roof lining and airflow panels reduce interior temperature.

Anti-mildew fabric: formulated to resist the constant humidity of the coastal lowlands.

Wet-season ready: welded waterproof seams and high roof pitch shed heavy rain fast.

Rust-proof frame: aluminum 6061/T6 that will not corrode in humid air.

Ventilated comfort: mesh walls and clear panels keep the space airy and bright.

If clients search for "*carpas para eventos en Guayaquil*" or "*carpa fresca para eventos*", this is the product they need.

Product Advantages

Cool & comfortable: designed to beat coastal heat and humidity.

Anti-mildew & rust-proof: materials chosen to survive wet tropical air.

Column-free interior: the full footprint is usable for seating or stands.

Rental-grade durability: built for repeated transport and setup.

Brandable: fully printable fabric and custom colors.

Full accessories: glass walls, linings, flooring, lighting and doors.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6, rust-proof
Roof Cover	850 g/sqm double PVC-coated polyester, anti-mildew, UV treated
Ventilation	Mesh / clear-panel wall options for airflow
Heat Option	Reflective or insulated roof lining available
Waterproofing	High-frequency welded seams, 100% waterproof
Side Walls	PVC / mesh / glass / ABS, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Color Options	White, grey, black, custom Pantone

Keeping Guests Cool — Heat & Humidity Control

- In Guayaquil, comfort is what wins repeat bookings. Every design decision targets airflow and temperature:
- Optional reflective/insulated roof lining reduces heat gain under the canopy
 - Mesh wall panels allow cross-ventilation while blocking rain
 - High roof pitch improves air movement and sheds tropical downpours
 - Anti-mildew, wipe-clean surfaces keep the interior hygienic
 - Optional fans and lighting packages can be integrated with the frame

Typical Applications in Ecuador

- Weddings and celebrations in Guayaquil and the coast
- Corporate product launches and expos
- Food and beverage events and markets
- Agricultural and commercial fairs in the coastal provinces
- Temporary reception and hospitality areas

Customization & Branding

- Custom span, eave height and length for any venue
- Roof/wall color plus printed logos and graphics
- Mesh, glass, ABS or PVC wall combinations
- Interior linings, curtains and valances

Doors, windows, gutters and drainage
Flooring, staging, fans and lighting packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Ecuador and across South America.

Rental companies in Ecuador deploy our hot-humid climate marquees for coastal events around Guayaquil.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for humid and coastal Ecuador
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Customization	Any span, color, branded print and full accessory range
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Ecuador

We ship to Ecuador regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to an Ecuadorian destination (the country uses the US dollar), whichever suits your business best.

Main Ecuadorian Sea Ports	Guayaquil · Puerto Bolívar · Manta · Esmeraldas
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	Every unit ships with an illustrated manual; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Will the tent be too hot in Guayaquil?

No. We offer reflective/insulated roof linings and mesh ventilation panels that keep the interior significantly cooler and better ventilated than a standard tent.

Does it resist mildew in humid air?

Yes. The anti-mildew PVC fabric and welded waterproof roof are designed for humid coastal conditions, and the aluminum frame will not rust.

Is it waterproof in the wet season?

Yes. High-frequency welded seams and a steep roof pitch make it reliably waterproof during the December–May rains.

Do you ship to Ecuador and help with import?

Yes. We ship to Ecuadorian ports such as Guayaquil and quote FOB, CIF or DDP. We provide all documents and can advise on importing.

What is the minimum order quantity?

Flexible — from 1 unit to large fleet orders. Contact us for an exact quote.

What warranty do you offer?

A written structural warranty, plus readily available spare parts and after-sales support.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Ecuador.
