

Tropical Rainy Season Aluminum Alloy Party Marquee Tent for Costa Rica Caribbean Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Rust-proof
- Roof Cover: 850gsm Double PVC-coated Polyester, Anti-mildew, UV Treated
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- Storm Design: Reinforced Frame And Anchoring For Tropical-storm Wind
- Side Walls: PVC / Mesh / Glass / ABS, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Temperature Range: -30C To +70C
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · COSTA RICA MARKET

A storm-ready aluminum marquee engineered for Costa Rica's Caribbean coast — torrential rain, high humidity and hurricane-season wind handled with confidence.

Storm-Ready

HURRICANE-SEASON WIND

100%

WATERPROOF WELDED ROOF

Anti-Mildew

HUMID-CLIMATE FABRIC

6061/T6

RUST-PROOF FRAME

Overview

Costa Rica's Caribbean coast — Puerto Limón, Tortuguero and the southern beaches — is one of the wettest, most humid regions in the country, with heavy rain much of the year and the risk of tropical storms. Ordinary tents sag, leak and mould in weeks. This **tropical rainy-season aluminum alloy party marquee tent** is engineered for those extremes: a **6061/T6 aluminum frame** that will not rust, heavy-duty PVC fabric with welded waterproof seams, and reinforced anchoring for storm-season wind.

For event companies and hotels on the Caribbean side, it means reliable cover, a clean interior and a structure that keeps working season after season.

Storm-ready

Waterproof

Anti-mildew

Rust-proof

Ventilated

Custom branding

Engineered for Costa Rica's Caribbean Climate

Torrential-rain ready: welded waterproof seams and a steep roof pitch shed heavy rainfall fast.

Storm-season wind: reinforced frame, cross-bracing and correctly specified anchoring for tropical storms.

Anti-mildew fabric: formulated to resist the near-constant humidity of the Caribbean lowlands.

Rust-proof frame: aluminum 6061/T6 that will not corrode in wet tropical air.

Ventilated comfort: optional mesh walls keep air moving while keeping rain out.

If clients search for "*carpas para eventos en Limón*" or "*carpa para temporada de lluvias*", this is the product they need.

Product Advantages

Built for the wet tropics: rain, humidity and storm wind accounted for in the design.

Anti-mildew & rust-proof: materials chosen to survive constant humidity.

Column-free interior: the full footprint is usable for seating or stands.

- Rental-grade durability:** built for repeated transport and setup.
- Brandable:** fully printable fabric and custom colors.
- Full accessories:** glass walls, linings, flooring, lighting and doors.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6, rust-proof
Roof Cover	850 g/sqm double PVC-coated polyester, anti-mildew, UV treated
Waterproofing	High-frequency welded seams, 100% waterproof
Storm Design	Reinforced frame and anchoring for tropical-storm wind
Side Walls	PVC / mesh / glass / ABS, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Temperature Range	-30°C to +70°C
Color Options	White, grey, black, custom Pantone

Storm & Rain Preparedness

- In Costa Rica’s green season, weather can change fast. Every design choice targets reliability under heavy rain and storm wind:
- Welded, seam-free roof joints that will not leak under torrential rain
 - High roof pitch to shed water quickly and avoid ponding
 - Reinforced eave and anchor points for tropical-storm gusts
 - Anti-mildew fabric and wipe-clean surfaces for long humid seasons
 - Optional mesh walls for ventilation without letting rain in
 - Anchoring plan tailored to your site and soil conditions
- We can supply an anchoring specification and installation guidance matched to your location.

Typical Applications in Costa Rica

- Weddings and celebrations on the Caribbean coast
- Hotel and eco-lodge events in wet regions
- Corporate retreats and product launches
- Cultural festivals and community events
- Temporary reception, dining and shelter areas

Customization & Branding

- Custom span, eave height and length for any venue
- Roof/wall color plus printed logos and graphics

Mesh, glass, ABS or PVC wall combinations

Interior linings, curtains and valances

Doors, windows, gutters and drainage

Flooring, staging and lighting packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms, hotels and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Costa Rica and across Latin America.

Hotels and event companies in Costa Rica's Caribbean region rely on our storm-ready marquees for reliable cover.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for humid and coastal Costa Rica
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Recyclability	Aluminum is highly recyclable — supports green event goals
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Costa Rica

We ship to Costa Rica regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Costa Rican destination, whichever suits your business best.

Main Costa Rican Sea Ports	Puerto Limón / Moín (Caribbean) · Caldera & Puntarenas (Pacific)
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	Every unit ships with an illustrated manual; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Is the tent waterproof during the rainy season?

Yes. The roof uses high-frequency welded seams and a steep pitch, making it reliably waterproof during Costa Rica's heavy green-season rain.

Can it withstand tropical storms?

The frame is reinforced and we provide an anchoring specification for storm-season wind. The structure is engineered up to 100 km/h with proper anchoring.

Will the fabric mould in the humidity?

No. The anti-mildew PVC fabric and welded roof are designed for humid tropical conditions, and the aluminum frame will not rust.

Do you ship to Costa Rica and help with import?

Yes. We ship to Puerto Limón/Moín and Pacific ports, and quote FOB, CIF or DDP. We provide all documents and can advise on importing.

What is the minimum order quantity?

Flexible — from 1 unit to large fleet orders. Contact us for an exact quote.

What warranty do you offer?

A written structural warranty, plus readily available spare parts and after-sales support.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Costa Rica.
