

Dry Tropical UV Resistant Aluminum Alloy Party Marquee Tent for Costa Rica Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6
- Roof Cover: 850gsm Double PVC-coated Polyester, UV Treated, Color-fast
- Heat Option: Reflective / Insulated Roof Lining Available
- Surface: Wipe-clean PVC (dust Friendly)
- Side Walls: PVC / Mesh / Glass / ABS, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Waterproofing: High-frequency Welded Seams (occasional Showers)
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · COSTA RICA MARKET

A sun-rated aluminum marquee engineered for Costa Rica's dry tropical Pacific — Guanacaste heat, intense UV, dust and wind handled with ease.

UV+

ANTI-UV TREATED FABRIC

Dust-Resistant

WIPE-CLEAN SURFACES

Heat Option

REFLECTIVE ROOF LINING

-30°C

TO +70°C

Overview

Costa Rica's Pacific dry zone — especially Guanacaste — bakes under intense sun through the December–April dry season, with dust and steady wind adding to the challenge. Fabrics fade and become brittle, and interiors overheat. This **dry-tropical, UV-resistant aluminum alloy party marquee tent** is engineered for those conditions, with UV-treated fabric, an optional reflective/insulated roof and a **6061/T6 aluminum frame**.

It keeps guests cool and the structure intact through the driest months, whether for a resort wedding, a wellness retreat or an outdoor fair.

Engineered for Costa Rica's Dry Pacific

Intense-UV protection: UV-treated, color-fast fabric resists the strong Guanacaste sun.

Heat control: optional reflective/insulated roof lining keeps interiors cooler.

Dust-friendly: wipe-clean PVC surfaces make post-event cleaning quick.

Wind-stable: cross-bracing and correct anchoring handle steady Pacific breezes.

Rain-ready too: welded waterproof seams cope with the occasional wet-season shower.

For searches such as *"carpas para eventos en Guanacaste"* or *"carpa para el sol"*, this is the engineered answer.

Product Advantages

Sun-rated: built for the intense UV of the dry tropical Pacific.

Cooler interiors: reflective/insulated roof options reduce heat gain.

Easy upkeep: wipe-clean surfaces handle dust and grit.

Column-free interior: maximum usable floor for any layout.

Rental-grade durability: built for repeated transport and setup.

Certified & documented: supporting permits and site approvals.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6
Roof Cover	850 g/sqm double PVC-coated polyester, UV treated, color-fast
Heat Option	Reflective / insulated roof lining available
Surface	Wipe-clean PVC (dust friendly)
Side Walls	PVC / mesh / glass / ABS, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Waterproofing	High-frequency welded seams (occasional showers)
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Color Options	White, grey, black, custom Pantone

Planning Events in the Dry Season

Costa Rica’s Pacific dry season (roughly December to April) is peak season for outdoor events and weddings, so planning capacity and pricing around it pays off:

- December–April: dry, sunny — peak season for weddings, retreats and fairs
- Fiestas de Palmares (January): high event demand in the Central Valley and Pacific
- May–November: green season — waterproof covers and side walls come into their own
- Midday heat is strongest — reflective linings and shade walls recommended
- Dusty ranch and field sites — opt for wipe-clean PVC surfaces

We can help you build a fleet plan keyed to these seasonal peaks so your investment earns through the whole year.

Typical Applications in Costa Rica

- Resort and beach-club events in Guanacaste and the Pacific
- Wellness and yoga retreats
- Outdoor fairs and agricultural events in the dry zone
- Corporate retreats and incentive events
- Sports and surf event staging

Customization & Branding

- Custom span, height and length for any venue
- Reflective/insulated linings for hot venues
- Wide range of doors, windows and clear-panel walls
- Branding, colors and printed graphics

Flooring, staging and shade options
Lighting and power routing

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms, hotels and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Costa Rica and across Latin America. Resorts and event organizers in Costa Rica's dry Pacific zone use our UV-resistant marquees for peak-season events.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for humid and coastal Costa Rica
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Recyclability	Aluminum is highly recyclable — supports green event goals
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Costa Rica

We ship to Costa Rica regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Costa Rican destination, whichever suits your business best.

Main Costa Rican Sea Ports	Puerto Limón / Moín (Caribbean) · Caldera & Puntarenas (Pacific)
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	Every unit ships with an illustrated manual; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Will the fabric fade in Guanacaste's sun?

No. The PVC is UV-treated and color-fast, formulated to resist intense dry-season solar radiation without turning brittle.

How do you keep the interior cool?

We offer reflective/insulated roof linings and shade-side options that significantly reduce interior heat gain.

Is it also waterproof?

Yes. Welded waterproof seams handle the occasional green-season shower, so the tent performs in both seasons.

Do you deliver to Guanacaste or the Central Valley?

Yes — we quote FOB, CIF or DDP and can arrange delivery to your city or project site across Costa Rica.

Is assembly difficult?

No. The modular frame goes up with basic tools, and we provide an illustrated manual plus install video.

What is the minimum order quantity?

Flexible — from a single unit upward. Share your requirement for an exact quotation.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Costa Rica.
