

Eco Friendly Sustainable Aluminum Alloy Party Marquee Tent for Costa Rica Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6 (recyclable)
- Sustainability: Recyclable Frame, Replaceable Covers, Long Service Life
- Roof Cover: 850gsm Double PVC-coated Polyester, UV Treated
- Side Walls: PVC / Mesh / Glass / ABS, Removable & Reusable
- Interior: 100% Clear Span, No Interior Poles
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Maintenance: Replaceable Covers And Spare Parts
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · COSTA RICA MARKET

A low-impact, recyclable aluminum marquee for Costa Rica's green economy — built to serve eco-lodges, sustainable events and the country's carbon-conscious brands.

Recyclable

ALUMINUM FRAME

Reusable

HUNDREDS OF SETUPS

Low-Impact

GREEN-EVENT READY

6061/T6

DURABLE FRAME

Overview

Costa Rica is a global leader in sustainability, aiming for carbon neutrality and running on almost entirely renewable electricity. For hotels, eco-lodges and event companies, the structures they buy should reflect those values. This **eco-friendly, sustainable aluminum alloy party marquee tent** is built on **recyclable aluminum 6061/T6** and durable, reusable PVC fabric — designed to serve hundreds of events over many years rather than being replaced every season.

It is a practical way to reduce the environmental footprint of your events while delivering the strength, weather protection and elegance your clients expect.

Why It Fits Costa Rica's Green Economy

Recyclable materials: aluminum is one of the most recyclable construction materials, with high residual value.

Long service life: a reusable structure replacing single-use or short-lived alternatives.

Repairable & re-coverable: covers and components can be replaced, extending the frame's life for years.

Lower waste: modular parts mean one fleet serves many event sizes, cutting total material use.

Green-event credibility: supports the sustainability story of eco-lodges and eco-conscious brands.

For searches such as "*carpas para eventos sostenibles*" or "*carpa ecológica*" in Costa Rica, this is the responsible choice.

Product Advantages

Sustainable by design: recyclable aluminum frame with high residual value.

Built to last: reusable for hundreds of setups across many years.

Repairable: replaceable covers and parts extend the frame's life.

Modular efficiency: one fleet serves every event size, cutting waste.

Weatherproof & durable: performs in Costa Rica's varied climates.

Brandable: printed fabric promotes your green credentials.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6 (recyclable)
Sustainability	Recyclable frame, replaceable covers, long service life
Roof Cover	850 g/sqm double PVC-coated polyester, UV treated
Side Walls	PVC / mesh / glass / ABS, removable & reusable
Interior	100% clear span, no interior poles
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Maintenance	Replaceable covers and spare parts
Color Options	White, grey, black, custom Pantone

Green Event Checklist — Making It Count

To turn your marquee into a genuine sustainability asset, we recommend:

- Choose reusables over single-use structures — the frame lasts many seasons
- Right-size with modular bays to avoid over-ordering materials
- Schedule maintenance and re-covering to extend service life
- Plan transport efficiently to lower the carbon cost per event
- At end of life, recycle the aluminum and metal components
- Add LED lighting and passive cooling to cut event energy use

We are happy to advise on a fleet plan that balances durability, cost and environmental impact.

Typical Applications in Costa Rica

- Eco-lodge and sustainable resort events
- Green weddings and carbon-conscious celebrations
- Corporate sustainability events and retreats
- Farmers markets and community eco-fairs
- Wellness and nature retreats

Customization & Branding

- Custom span, height and length
- Printed eco-branding and sustainability messaging
- Mesh, glass or PVC wall combinations
- Interior linings and passive-cooling options

Doors, windows, gutters and drainage

Flooring, LED lighting and staging packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of event companies, rental firms, hotels and project contractors across Latin America.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Costa Rica and across Latin America.

Eco-lodges and green event organizers in Costa Rica use our recyclable, long-life marquees to match their sustainability values.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and site installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and a Spanish-friendly after-sales team.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for humid and coastal Costa Rica
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Recyclability	Aluminum is highly recyclable — supports green event goals
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Costa Rica

We ship to Costa Rica regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Costa Rican destination, whichever suits your business best.

Main Costa Rican Sea Ports	Puerto Limón / Moín (Caribbean) · Caldera & Puntarenas (Pacific)
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	A maintenance and long-life guide is included; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Is the tent actually environmentally friendly?

The frame is recyclable aluminum 6061/T6 with high residual value, covers and parts are replaceable, and the structure is reusable for hundreds of setups, replacing short-lived alternatives.

Can components be replaced rather than buying a whole new tent?

Yes. Covers and individual components can be reordered separately, greatly extending the life of your frame investment.

Does it suit eco-lodges and green events?

Absolutely — the durable, reusable, recyclable design supports the sustainability story of eco-lodges and eco-conscious brands.

Do you deliver to Costa Rica?

Yes — we quote FOB, CIF or DDP and can arrange delivery to your city or project site across Costa Rica.

Is assembly difficult?

No. The modular frame goes up with basic tools, and we provide an illustrated manual plus install video.

What is the minimum order quantity?

Flexible — from a single unit upward. Share your requirement for an exact quotation.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Costa Rica.
