

Marine Grade Aluminum Alloy Party Marquee Tent for Fiji Coastal Island Resorts

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Corrosion Resistant
- Hardware: Stainless Steel / Marine-grade Connectors
- Roof Cover: 850gsm Double PVC-coated Polyester, Anti-mildew, UV Treated
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- Side Walls: PVC / Mesh / Glass / ABS, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Maintenance: Replaceable Covers And Spare Parts
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · FIJI MARKET

A salt-proof, marine-grade aluminum marquee engineered for Fiji's island and coastal resorts — built to survive salt air, humidity and tropical downpours for years.

Marine-Grade

MARINE-GRADE HARDWARE

Anti-Mildew

CORROSION RESISTANT

100%

WATERPROOF WELDED ROOF

Portable

ISLAND LOGISTICS READY

Overview

Fiji's resorts sit on islands and coastlines where salt air, constant humidity and tropical rain attack structures relentlessly. Ordinary tents rust, mould and fail within a season. This **marine-grade aluminum alloy party marquee tent** is engineered for those conditions: a corrosion-resistant **6061/T6 aluminum frame** with marine-grade hardware, anti-mildew PVC fabric with welded waterproof seams, and a modular design that travels easily to island venues.

For resorts and rental companies across the Mamanucas, Yasawas, Denarau and beyond, it means dependable cover that keeps looking new, year after year.

Engineered for Fiji's Marine Environment

Marine-grade build: aluminum frame and stainless/marine-grade connectors resist salt corrosion.

Anti-mildew fabric: formulated to resist Fiji's humidity and microbial growth.

Tropical-rain ready: welded waterproof seams and high roof pitch shed heavy downpours.

Island-logistics friendly: modular packing fits boat or barge transport to remote resorts.

Low maintenance: wipe-clean surfaces and replaceable components extend the frame's life.

For searches such as *"marine grade marquee Fiji"* or *"island resort event tent"*, this is the durable answer.

Product Advantages

Salt-proof: marine-grade materials chosen for island and coastal resorts.

Built to last: corrosion-resistant frame and replaceable covers.

Mould-resistant: anti-mildew fabric for constant humidity.

Column-free interior: full usable floor for any layout.

Portable & modular: transports easily to island venues.

Full accessories: linings, flooring, lighting, doors and branding.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6, corrosion resistant
Hardware	Stainless steel / marine-grade connectors
Roof Cover	850 g/sqm double PVC-coated polyester, anti-mildew, UV treated
Waterproofing	High-frequency welded seams, 100% waterproof
Side Walls	PVC / mesh / glass / ABS, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Maintenance	Replaceable covers and spare parts
Color Options	White, grey, black, custom Pantone

Island Logistics & Marine-Grade Build

Remote island resorts need a marquee that is both durable and practical to deliver. Here is how this product helps:

- Compact, modular packing fits barge, ferry or small-boat transport
- Lightweight aluminum frame reduces the crew and equipment needed on site
- Marine-grade hardware and corrosion-resistant frame for salt exposure
- Anchoring options for sand, deck and rocky ground
- Quick assembly with basic tools — no heavy machinery required
- Replaceable covers and parts to extend service life in a harsh climate

We can advise on a packing and logistics plan tailored to your island resort.

Typical Applications in Fiji

- Island and coastal resort events
- Beach-side dining and hospitality areas
- Resort weddings and celebration events
- Water-sports and eco-tourism staging
- Temporary shelter in exposed coastal regions

Customization & Branding

- Custom span, height and length
- Printed resort branding and graphics
- Mesh, glass or PVC wall combinations
- Roof linings and airflow options

Doors, windows, gutters and drainage
Flooring, lighting and staging packages

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of resorts, event companies, rental firms and project contractors across the Pacific and beyond.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in Fiji and across the Pacific.

Island and coastal resorts in Fiji rely on our marine-grade marquees for durable, long-life cover.

Expertise — engineered, not just assembled

In-house structural calculations for wind and snow loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and island installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and English-speaking after-sales support.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for Fiji's salty coastal air
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Customization	Any span, color, branded print and full accessory range
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to Fiji

We ship to Fiji regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Fijian destination, whichever suits your business best.

Main Fijian Sea Ports	Suva · Lautoka · (Nadi International Airport for air freight)
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	A marine-grade maintenance guide is included; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Will the marquee corrode in Fiji's salty air?

No. The frame is aluminum 6061/T6 with marine-grade hardware, chosen specifically to resist coastal and island corrosion.

Does the fabric resist mould?

Yes. The anti-mildew PVC fabric and welded waterproof roof are designed for humid tropical conditions.

Is it waterproof in the rainy season?

Yes. High-frequency welded seams and a steep roof pitch make it reliably waterproof during Fiji's wet season.

Can it be delivered to a remote island resort?

Yes. The modular frame packs compactly and can be moved by boat or barge, then assembled on site with basic tools.

Do you deliver to Fiji?

Yes — we quote FOB, CIF or DDP and can arrange delivery to your city or resort across Fiji.

What is the minimum order quantity?

Flexible — from a single unit upward. Contact us for a tailored quotation.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to Fiji.
