

Humidity Salt Resistant Aluminum Alloy Party Marquee Tent for Maldives Island Resorts

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS, TUV
- Model Number: AL-PMT
- Minimum Order Quantity: 1 Set (flexible; fleet orders welcome)
- Price: USD 2,000 - 15,000 / Set (by size & configuration)
- Packaging Details: Frame packed in protective bundle; PVC cover in woven bag; hardware in labeled carton; export-grade sea-worthy packing
- Delivery Time: 7-15 days for stock items, 20-35 days for production orders
- Payment Terms: T/T, L/C, PayPal, Western Union, Trade Assurance
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Hard-pressed Extruded Aluminum Alloy 6061/T6, Corrosion Resistant
- Hardware: Stainless Steel / Marine-grade Connectors
- Roof Cover: 850gsm Double PVC-coated Polyester, Anti-mildew, UV Treated
- Waterproofing: High-frequency Welded Seams, 100% Waterproof
- Side Walls: PVC / Mesh / Glass / ABS, Removable
- Span Range: Custom 3m To 40m
- Wind Resistance: Engineered Up To 100km/h With Proper Anchoring
- Fire Retardant: DIN 4102 B1 / M2 / NFPA 701
- Maintenance: Replaceable Covers And Spare Parts
- Color Options: White, Grey, Black, Custom Pantone
- Warranty: Written Structural Warranty
- OEM/ODM: Available

Product Description

ALUMINUM ALLOY MARQUEE TENT MANUFACTURER · MALDIVES MARKET

A humidity- and salt-resistant aluminum marquee engineered for the Maldives' tropical marine climate — reinforced 6061/T6 frame, anti-mildew fabric and marine-grade hardware.

Anti-Mildew

CONSTANT HUMIDITY

Marine-Grade

SALT AIR RESISTANT

100%

WATERPROOF WELDED ROOF

Certified

ISO 9001 / CE / SGS

Overview

The Maldives is a nation of coral islands where constant humidity, salty sea air and tropical monsoon rain attack structures relentlessly. Ordinary tents rust, mould and fail within a season. This **humidity- and salt-resistant aluminum alloy party marquee tent** is engineered for exactly those conditions: a corrosion-resistant **6061/T6 aluminum frame** with marine-grade hardware, anti-mildew PVC fabric and high-frequency welded waterproof seams.

For resorts, event organizers and rental firms across the atolls, it means dependable cover that keeps looking new, season after season.

Engineered for the Maldives' Marine Climate

Marine-grade build: aluminum frame and stainless/marine-grade connectors resist salt corrosion.

Anti-mildew fabric: formulated to resist the Maldives' constant humidity and microbial growth.

Tropical-rain ready: welded waterproof seams and high roof pitch shed heavy monsoon downpours.

Island-friendly: compact modular packing simplifies seaplane and boat transfer to remote resorts.

Low maintenance: wipe-clean surfaces and replaceable components extend service life.

For searches such as "*humidity resistant marquee Maldives*" or "*salt proof event tent Maldives*", this is the durable answer.

Product Advantages

Salt-proof: marine-grade materials chosen for island and coastal resorts.

Built to last: corrosion-resistant frame and replaceable covers.

Mould-resistant: anti-mildew fabric for constant humidity.

Column-free interior: full usable floor for any layout.

Island-friendly: compact packing and lightweight frame for boat transfer.

Full accessories: linings, flooring, lighting, doors and branding.

Technical Specifications

Frame Material	Hard-pressed extruded aluminum alloy 6061/T6, corrosion resistant
Hardware	Stainless steel / marine-grade connectors
Roof Cover	850 g/sqm double PVC-coated polyester, anti-mildew, UV treated
Waterproofing	High-frequency welded seams, 100% waterproof
Side Walls	PVC / mesh / glass / ABS, removable
Span Range	Custom from 3 m to 40 m
Wind Resistance	Engineered up to 100 km/h with proper anchoring
Fire Retardant	DIN 4102 B1 / M2 / NFPA 701 compliant
Maintenance	Replaceable covers and spare parts
Color Options	White, grey, black, custom Pantone

Humidity & Monsoon Preparedness

The Maldives swings between a drier north-east monsoon (roughly November–April) and a wetter south-west monsoon (roughly May–October). Being prepared is everything:

- Documented wind- and rain-load rating and anchoring plan for your island site
- High roof pitch and welded seams to shed tropical downpours
- Anti-mildew fabric and corrosion-resistant frame for constant humidity
- Reinforced eave and base connections for seasonal gusts
- Compact packing that travels by seaplane or boat to remote atolls
- Covers and components can be stowed and reused season after season

We can supply an anchoring specification and a monsoon-season deployment/takedown guide for your team.

Typical Applications in the Maldives

- Island resort and hotel events
- Beach-side dining and hospitality areas
- Resort weddings and celebration events
- Diving, water-sports and eco-tourism staging
- Temporary shelter in exposed coastal regions

Customization & Engineering Support

- Site-specific engineering drawings and wind/rain-load reports
- Custom span, height and length
- Insulated linings and climate-control options

Mesh, glass or PVC wall combinations

Branding, colors and printed graphics

Integrated flooring, lighting, staging and power routing

Why Trust Us — E-E-A-T at a Glance

Choosing a marquee supplier is a long-term decision. Here is exactly how we earn the trust of resorts, hotels, event companies and rental firms across the Indian Ocean and beyond.

Experience — over 10 years, 1,000+ delivered projects

More than 10 years of dedicated aluminum marquee manufacturing, with a senior engineering team averaging 8+ years of tent structure design.

1,000+ events and projects supplied worldwide, including tents now operating in the Maldives and across the Indian Ocean region.

Island resorts in the Maldives rely on our humidity-resistant marquees for durable, long-life cover.

Expertise — engineered, not just assembled

In-house structural calculations for wind and rain loads; frame profiles stress-tested before release.

Custom CAD drawings and 3D renderings issued for every order so you can approve before production.

Engineers who understand event logistics, sea freight and island installation.

Authoritativeness — certified and standard-compliant

Quality system certified to **ISO 9001:2015**; products tested to **CE, SGS and TUV** requirements.

Fabrics and components compliant with international fire-retardant standards (DIN 4102 B1 / M2 / NFPA 701).

A regular exhibitor at international sourcing fairs and a verified platform supplier.

Trust — transparent from quotation to after-sales

Real factory, real people: video factory tour and live production photos available on request.

Third-party inspection and pre-shipment QC report issued for every batch.

Written warranty, readily available spare parts and English-speaking after-sales support.

Aluminum vs Steel vs Pop-up Tents

Not all event structures are equal. Here is why an aluminum-frame marquee is the better long-term choice than steel or cheap pop-up tents:

Weight & Handling	Aluminum frame — lighter, faster to transport and erect with fewer people
Corrosion	Aluminum — resists rust; ideal for the Maldives's salty marine air
Assembly	Keder roof and quick-lock joints — hours, not days
Service Life	Rental-grade aluminum — survives repeated setup and takedown
Customization	Any span, color, branded print and full accessory range
Resale / Rental Value	Strong — aluminum frames hold value across many seasons

What's Included in Every Order

Aluminum frame (6061/T6) with all connectors and hardware

Heavy-duty PVC roof cover (850 g/sqm, UV treated)

Side-wall options (PVC / glass / ABS / mesh, removable)

Illustrated assembly manual and install video

Spare parts kit and anchor set

Export packing and full shipping documents

Shipping & Installation to the Maldives

We ship to the Maldives regularly and understand the local import flow. Your goods can be delivered FOB to a Chinese port or CIF/DDP to a Maldivian destination, whichever suits your business best.

Main Sea Port	Port of Malé · Velana International Airport (MLE) for air freight
Resort Transfers	Onward seaplane / speedboat / barge transfer can be arranged for outer-atoll resorts
Container Loading	Standard 20GP / 40GP / 40HQ; frame and covers packed separately to save space
Packing	Frame in bundle with protective wrap; PVC fabric in woven bag; hardware in carton
Lead Time	Stock items 7–15 days; production orders 20–35 days after deposit
Documents	Commercial invoice, packing list, B/L, certificate of origin, test reports
Installation Support	A marine-grade maintenance guide is included; Step-by-step manual and install video included; remote guidance available.

Frequently Asked Questions — Decision Support

Will the marquee corrode in the Maldives's salty air?

No. The frame is aluminum 6061/T6 with marine-grade hardware, chosen specifically to resist coastal and island corrosion.

Does the fabric resist mould?

Yes. The anti-mildew PVC fabric and welded waterproof roof are designed for the Maldives' humid marine conditions.

Is it waterproof in the monsoon?

Yes. High-frequency welded seams and a steep roof pitch make it reliably waterproof during the wetter south-west monsoon.

Can it be transported to a remote atoll resort?

Yes. The compact, modular packing is sized for seaplane, speedboat and barge transfer, and the lightweight frame keeps on-site logistics simple.

Do you deliver to the Maldives?

Yes — we ship to Port of Malé and quote FOB, CIF or DDP. We provide all documents and can advise on importing.

What is the minimum order quantity?

Flexible — from a single unit upward. Contact us for a tailored quotation.

Tell us your event type, preferred dimensions and quantity — our engineers reply within 24 hours with drawings, pricing and a shipping plan to the Maldives.
