Product Description

3m x 6m party tent, 18 sqm

The smallest size we build with a proper aluminium frame. Two people, one hour, no tools beyond a mallet and a ladder.

Details

18 sqm seats 3 to 4 guests at a garden table, or takes two trestle tables against the long walls as a market stall. Because the length runs in 3m sections, 3 x 6m is two sections and 3 x 9m is three - one spare section covers both.

Area guide: for marquees under 10m span we quote 5 sqm per guest. 18 sqm suits 3 to 4 guests.

Everything packs into one bundle plus two fabric bags. A 3 x 6m set is about 0.35 cubic metres and 78kg, which fits in an estate car with the seats down or on a roof rack.

Size range and options

Span: 3m. Range 3m to 10m for party use.

Length: 3m sections, so 3, 6, 9, 12m - no fixed maximum.

Eave: 2.3m. 2.0m for a lower garden look.

Roof shapes: A-frame at this width; curved and high peak start at 5m.

Extras: window walls, half walls, ground bar set, sandbag ballast, side curtains.

Main components

Frame. 84 x 48 x 3mm aluminium 6061/T6 with galvanised steel connectors - the same section we use on the 4m and 5m range, so a damaged leg covers three sizes. Light enough for two people to lift a roof frame by hand, and rated for a 20+ year service life.

Covers. 650gsm PVC roof and 500gsm walls, flame retardant and UV stabilised. Lighter than our large event fabric on purpose - this tent is designed to be carried, not anchored for a season.

Base plates. 350 x 350mm galvanised plates at every leg, drilled for stakes or bolts.

Specification

Item	Specification
Clear span / length	3m / 6m in 3m sections
Eave / ridge	2.3m / 3.1m
Frame	84 x 48 x 3mm aluminium 6061/T6
Roof / walls	650gsm / 500gsm PVC coated polyester
Packed size	About 0.35 cubic metres, 78kg
Wind load	0.3 kN/sqm with 40cm stakes at every leg
Frame life	20+ years

Anchoring

Turf or soil: 40cm stakes, one per leg, plus two guy ropes on the windward side. Decking or paving: sandbags on the base plates, 25kg each. Never leave this size up unattended in a forecast above 50 km/h - it is light by design and it will fly.

Production and installation

25 days production after deposit. Freight depends on your port; these ship as small parcels and air freight is often cheaper for one or two sets. Two people, about one hour. *Installation is quoted separately: labour, air tickets, visa, food and accommodation are paid by the buyer. Send us the site address and we confirm crew size, days and cost.*

FAQ

Can one person put it up? The 3 x 3m yes, slowly. The 3 x 6m needs two for the roof frame.

Does it need planning permission? Under 30 sqm and up to 28 days, most jurisdictions treat it as temporary and exempt. Check locally.

Can we add a section later? Yes. Order a 3m section kit - two legs, roof beams, purlins and fabric.
