Product Description

5m x 10m party tent, 50 sqm

Our best selling size for backyard celebrations and small weddings. 50 sqm, 10 guests, five metre bays so it extends without a redesign.

Details

5m gives 3m of clear floor either side of a 3 x 3m dance floor. That is the layout most people actually want, and it is the reason 5m outsells 4m once a band or a buffet is involved.

Area guide: 5 sqm per guest under 10m span. 50 sqm holds 10 guests at round tables with a dance floor.

At 5m the bay distance goes to 5m, so 10m is two bays, 15m is three. The roof beams are longer than the 4m range and are lifted as a pair, never one at a time.

Size range and options

Span: 5m. Range 3m to 10m.

Length: 5m bays, so 5, 10, 15, 20m.

Eave: 2.3m, or 2.5m on the 5m bay frame.

Roof: A-frame here; curved and high peak available on the same legs.

Extras: window walls, half walls, 3m gable door, ground bar, cassette floor, lighting bar.

Main components

Frame. 84 x 48 x 3mm aluminium 6061/T6, 5m bays, galvanised connectors, 350 x 350mm base plates. 20+ years.

Covers. 650gsm roof and 500gsm walls. The clear window band on the long walls is the most ordered option at this size - it turns a tent into a room without the cost of glass.

Shared parts. Legs and purlins interchange with the 4m and 6m ranges, so a spare leg covers three sizes.

Specification

Item	Specification
Clear span / length	5m / 10m in 5m bays
Eave / ridge	2.3m / 3.7m
Frame	84 x 48 x 3mm aluminium 6061/T6
Roof / walls	650gsm / 500gsm PVC coated polyester
Packed weight	About 165kg, 0.85 cubic metres
Wind load	0.3 kN/sqm with stakes and windward guys
Frame life	20+ years

What people get wrong at 5m

Ordering without walls. Half of our 5m orders come back for walls a month later. Decide on walls before the container leaves - fabric shipped separately costs more than the walls.

Forgetting the ground bar. Without a ground bar the wall panels lift at the bottom in wind. It is a cheap line item and it is the difference between a snug tent and a flapping one.

Under estimating the crew. 50 sqm with walls is a three person, two hour job. Two people can do it, badly, in four.

Production and installation

25 days production after deposit, plus freight to your port. Three people, about two hours including walls*Installation is quoted separately: labour, air tickets, visa, food and accommodation are paid by the buyer. Send us the site address and we confirm crew size, days and cost.*

FAQ

Can it be a small wedding tent? Yes. 25 guests at round tables plus a dance floor fits; add a 5m bay for a bar.

Does it come with a floor? No. Cassette floor is quoted separately, or lay decking if the site is level.

How many people to set up? Three. The roof is 10m of fabric and two people cannot control it in any breeze.
