

# A-Frame Anniversary Reception Party Tent Banquet Canopy Aluminum Frame Structure With Windows

Our Product Introduction

## Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO9001, SGS, COC, CE
- Model Number: TDP-AF06X12
- Minimum Order Quantity: 36 square meters
- Price: USD 36-48 / Square Meter
- Packaging Details: Frame bundle about 6.2m long, roof and walls in numbered bags per bay, hardware in one carton
- Delivery Time: 25 days production after deposit and drawing approval. Sea freight time depends on your destination port. Installation time varies with the project and site access.
- Payment Terms: T/T 30% deposit, balance before shipment; L/C at sight above USD 30,000
- Supply Ability: 50000 Square Meters per Month

## Product Specification

- Span Width: 6m
- Length: 12m (2 Bays Of 6m)
- Eave Height: 2.5m
- Ridge Height: 4.1m
- Floor Area: 72 Square Meters
- Area Per Guest: 5 Sqm Per Guest, 14 Guests
- Main Frame: 84 X 48 X 3mm Aluminium 6061/T6
- Base Plate: 350 X 350mm Hot Dip Galvanised Steel
- Roof Fabric: 850gsm PVC, DIN 4102 B1
- Sidewall: 650gsm PVC With 1.2m Window Band
- Wind Load: 0.3 KN/sqm
- Frame Life Span: 20+ Years
- Production Time: 25 Days
- Highlight: **A-Frame Party Tent with Windows**, **Aluminum Frame Banquet Canopy**,

## Product Description

# 6m x 12m party tent, 72 sqm

The size where a party stops being a garden gathering and starts being a function. 72 sqm, 14 guests, two 6m bays.

## Details

6m is the first span where three round tables of ten sit across the width with a walkway between them. That changes service: caterers can work a loop instead of squeezing down one side.

**Area guide:** 5 sqm per guest under 10m span. 72 sqm holds 14 guests at tables with a dance floor.

From 6m upwards we switch the roof to 850gsm and the walls to 650gsm. On a 3m or 5m party tent the lighter fabric is fine; at 72 sqm the extra weight stops the roof flapping between purlins in a breeze.

## Size range and options

Span: 6m. Range 3m to 10m.

Length: 6m bays, so 6, 12, 18, 24m.

Eave: 2.5m. 3m if there is a stage.

Roof: A-frame here, high peak on the same legs.

Extras: window walls, 3m gable door, ground bar, cassette floor, lining, lighting bar.

## Main components

**Frame.** 84 x 48 x 3mm aluminium 6061/T6 with galvanised connectors and 350 x 350mm base plates. 20+ years.

**Covers.** 850gsm roof to DIN 4102 B1, 650gsm walls with a 1.2m clear window band. Heat welded seams.

**Gable ends.** Fabric infill with a zip door as standard, or a 3m double wing frame door if vehicles or a caterer's trolley need to pass.

## Specification

| Item | Specification |
|---|---|
| Clear span / length | 6m / 12m in 6m bays |
| Eave / ridge | 2.5m / 4.1m |
| Frame | 84 x 48 x 3mm aluminium 6061/T6 |
| Roof / walls | 850gsm / 650gsm PVC, DIN 4102 B1 |
| Packed weight | About 245kg, 1.2 cubic metres |
| Wind load | 0.3 kN/sqm with stakes and guys |
| Frame life | 20+ years |

## Layouts that work at 72 sqm

**14 seated:** two long tables of seven down the length, 1.6m aisles, dance floor at one gable, buffet along the far wall.

**Reception style:** cocktail tables on a 3m grid, bar and DJ at the 12m end, entry through the gable door.

## Production and installation

25 days production after deposit, plus freight to your port. Four people, about four hours with walls*Installation is quoted separately: labour, air tickets, visa, food and accommodation are paid by the buyer. Send us the site address and we confirm crew size, days and cost.*

## FAQ

**Will it take a stage?** A 4 x 3m modular stage, yes. Ask for 3m eave so the truss clears heads on the deck.

**Can it be heated?** Yes, indirect diesel heaters outside, ducted in. 30kW holds 72 sqm at 18 C on a 5 C night.

**Is 850gsm really necessary?** At this size, yes. 650gsm roof on a 6m span flutters above 40 km/h and the coating cracks along the fold lines within two years.
